Humphreys' Specifics for Child-

The introduction of Humphreys' Specifics into the home is often through the children. When your child comes in from play, hot and feverish; and after being put to bed, is restless, tosses and tumbles about, a dose of Humphreys' Specific Number One, quiets the child, and the chances are largely in tavor of the little one waking in the morning perfectly well and happy. Thus serious fevers and sickness may be prevented by keeping this Specific in the house.

the house.

Humphreys' Specifics also include the following cures for Childrens' Diseases:

No. 2 for Worms; No. 3 for Colie; No. 4 for Diarrhea; No. 13 for Croup; No. 20 for Whooping Cough.

Rubber Gloves

For Dainty Hands.

Some ladies think that as soon as they get married, and start in housekeeping, they bave to give up trying to be sweet and pretty and just as charming as possible.

Don't do it! You're making a serious mistake. You can have just as dainty and pretty hands and nails as of yore, if you will wear Rubber Gloves when doing the work which soils the hands. All sizes, per pair, 75c.
