\*see Purdon's Digest, the dition, page 446. an I Smith's Forms, page 34. Dear Sir: Here's a tale with three or four tails to it. Professor Irvine has an Academy, Mercersburg, Penn. He paints the floors in summer vacation. It used to take 90 gallons of paint. There were two paint-stores there, and he used to buy (one year of one, next year of the other) 90 gallons year after year. Now he paints Devoe; 60 gallons; and the difference is a saving of \$150 a year. H C Fallon was one of those dealers, good man; but he wouldn't take-up Devoe; so we turned to the other, J A Boyd. But Fallon has found it neces-sary to get a good paint to compete with Devoe. He got one of the eight homest paints. He has a big hardware store and is doing an excellent hardware business; but Boyd, of course, has the run on paint-he's a little hardware man.
