Another quality essential to the great dancer is infinite patience. The only English dancer who ever gave promise of attaining the first rank failed in this respect.

THAT PLEDGE TO BRYAN. Emory Campaign Orator Guarantees Defeat of Republican Congressmen.

DEMOCRATIC GAME IN FUSION. To Elect Members of Congress to Support Bryan's Program. [Special Correspondence.] Philadelphia, September 4.

Manufacturers and business men of this city have been sitting up and taking notice since that demonstration in New York over the homecoming of William Jennings Bryan.

President Roosevelt, in his recent addresses to letters to members of congress and others, has sounded the alarm, and has warned Republicans everywhere to be on their guard in every congressional district so as to insure the election of members of congress, who will cooperate with his administration in carrying out the great policy which he has inaugurated.

When several hundred Pennsylvania Democrats journeyed to New York last week to attend the annual convention of the party, they had but one thought uppermost in their minds. It was the election of Bryan to the presidency to succeed Roosevelt.

Carried away with the enthusiasm with which their surroundings filled them, the Pennsylvania Democratic contingent at the Bryan reception indiscreetly revealed the cloven hoof in the fusion campaign for Emory for governor.

THE CARIBOU PARADE. Migrations of the Great Herds of Newfoundland.

The Animals Are Strong and Gallant Swimmers and Take the Water Like a Fish. Found in the Mountains When Chased by the Great Wolf.

The great caribou herds of Newfoundland migrate seasonally, and no one but an actual witness of these migrations can form an adequate conception of the marvellous number of deer which the island contains.

It is estimated that the number which crossed the Exploits river at one point during the autumn season last year exceeded 4,000. This crossing ground is only one of scores of similar trails.

Both sides doubtless were going at their utmost pace. He measured the distance between the two points in eight or ten minutes, and the wolves only cleared fourteen feet, so that the caribou easily gained on them when close pressed.

Another enemy of the caribou fauna has of late years quietly replaced the wolf, the stealthy and bloodthirsty Lynx canadensis. The island at this date swarms with these animals, and they are also some few deer devoid of horns.
