Popular in Every State.

In many respects the Toledo Blade is the most remarkable weekly newspaper published in the United States. It is the only newspaper especially edited for National circulation. It has had the largest circulation for more years than any newspaper printed in America. Furthermore, it is the cheapest newspaper in the world, as will be explained to any person who will write us for terms. The News of the World so arranged that busy people can more easily comprehend, than by reading cumbersome columns of dailies. All current topics made plain in each issue by special editoral matter written from inception down to date. The only paper published especially for people who do or do not read daily newspapers, and yet thirst for plain facts. That this kind of a newspaper is popular, is proven by the fact that the Weekly Blade now has over 185,000 yearly subscribers, and is circulated in all parts of the U S. In addition to the news, the Blade publishes short and serial stories, and many departments of matter suited to every member of the family. Only one dollar a year.

down the road at break-neck speed, the farmer not even having been knocked from the seat, Mr. Crawford says it more like a chariot race than anything else. The train was stopped and back-ed up to the scene of the accident, the

river in much the same manner as a vessel leaves her ways on being launched. The structure, which cost \$250,000, was one of the tubular steel type, 60 feet wide, about 100 ft long and 180 ft high, built on a concrete foundation, which was supported by 65-foot piling driven through clay to solid rock. The elevator had a storage capacity of 500,000 bushels, and contained about 400,000 bushels. It was built two years ago, and was one of the most modern grain-handling plants on the continent.
