Be it Remembered, Freemen!
That the success of wholesome Constitutional Reform—the curtailment of Corporate Privileges—the restoration of a Sound Currency—the Freedom of the Press—the preservation of Equal Rights and Public Morality—the extinction of irresponsible money Corporations—the RE-ELECTION OF THE PRESIDENT—THE TRIUMPH OF DEMOCRATIC ANTI-MASONIC GOVERNMENT—AND THE PROSTRATION OF THE MASONIC VAN BUREN SHIN PLASTER PARTY and Explosion of their HUMBUGS—the triumph of Republican Principles, and the PERMANENT ASCENDENCY OF THE DEMOCRATIC ANTI-MASONIC PARTY in Pennsylvania, as well as of securing the election of the Patriot HARRISON in 1840, are questions which will be greatly and deeply affected as regards their ultimate decision BY THE ELECTIONS THIS FALL.

This is our firm and deliberate opinion; and we therefore, for the advancement and success of the above Principles and Measures, do now NAIL OUR FLAG TO THE MAST—wherein must remain until we shall PROUDLY AND TRIUMPHANTLY WAVE OVER THE BROKEN FORCES OF THE MASONIC VAN BUREN SHIN PLASTER PARTY—WHICH IT ASSUREDLY WILL AT THE APPROACHING ELECTION.

Great Meeting.
A large and respectable meeting of the citizens of the lower end of Cumberland county was held at the public house of John Whisler, in Eastpennsborough township, on Wednesday last the 27th ultimo, agreeably to public notice. The meeting was organized by appointing Mr. JACOB SHELLY, President, and DANIEL SHARBAN, LEVI ZEARING, ISAAC SMITH, JESSE MAYER, JESSE M. MARTIN, PHILIP SPORNA, GEO. EPLEY, HENRY BARNITZ and LEVI MEKKELE, Vice Presidents, and Levi Zearing, George Sharban, Simon Oyster, and Shoppi, Secretaries.

After which the meeting was addressed by several persons in a spirited manner. And, on motion, A committee consisting of Jacob Rypp, Geo. M. Phillips, Daniel Shelly, William L. Creigh and J. Eichelberger, was appointed to draft resolutions expressive of the views of the meeting—who reported the following, which were unanimously adopted:

WHEREAS, The time is approaching when the independence, free and untrammelled voters of Cumberland county are to give their votes to elect individuals to fill the different offices for the county and State—And

WHEREAS, Two tickets are now before them for their suffrages—the one being composed of those who are distinguished by their support and promulgation of the ruinous doctrines of Van Burenism; thereby jeopardizing our independence, liberty, and our all—destroying confidence at home and abroad—paralyzing commerce and manufactures, and depriving the working men of that which is necessary for their maintenance and support.

The other is distinguished for its pure democratic principles; and by those who support (principally not merely) who are in favor of a sound currency and opposed to the issuing and the legalizing of the shin-plasters of the day—as for example, the issue of TEN MILLIONS of Treasury Rags by the U. States government—and who are opposed to paying the laborer in shin-plasters, whilst the office-holders are paid gold and silver. Therefore

Resolved, That we highly approve of the ticket formed by the Anti-masons and State Rights Convention, and that we will use all fair and honorable means to insure its entire success.

Resolved, That the result of recent elections in the states of Indiana, Kentucky, Tennessee, Rhode Island and Maine, gives us ample cause to congratulate the friends of the supremacy of the laws—and affords additional ground to hope that the day is not far distant, when the country shall be redeemed from the thralldom of tyranny and misrule.

Resolved, That the attempt of the Van Buren party to make the people believe that we are the advocates of the shin-plaster system, adds another to the many glaring falsehoods with which that party is identified.

Resolved, That the vote at the Inspectors election, gives us full evidence that we have the majority in the county, and that we call on all our friends to be vigilant in the discharge of their duties on Tuesday next—and that nothing is more certain than that the whole ticket will be elected by a large majority.

Resolved, That the United States government have, in their issue of ten millions of Treasury shin-plasters, violated all the pledges which they gave to the people of the United States in reference to a gold and silver currency.

Resolved, That we view with utter detestation, the dishonorable means made use of by the Van Buren shin-plaster party, for the furtherance of their cause.

Resolved, That we are opposed to the legalization of the suspension of specie payments by the legislature, and would therefore instruct our representatives in the next legislature to oppose any law having for its object such legalization.

Resolved, That we can give the ticket headed Charles B. Penrose and Jacob Cassat, a majority in the county of Cumberland.

Resolved, That we will do it.

Resolved, That the thanks of this meeting be tendered to Mr. John Whisler, for so freely giving his house for the occasion.

Resolved, That the proceedings of the meeting be signed by the officers and published.

GREAT AUCTION IN THE CITY OF WASHINGTON ON THE 20th NOVEMBER NEXT!!!

To be sold in the city of Washington, on the 20th of November next, ten millions of dollars of New "Continental" money, in lots to suit purchasers. The sale will be made by the Honorable Levi Woodbury, Secretary of the Treasury of the United States, on behalf of the Government, and the proceeds will be applied to the benefit of certain deposits banks who have stopped payment. It is understood that this "money" will consist of certain pieces of paper, otherwise called "rags and lampblack," in the fashion of Old Continental bills. The object of such sale will be to raise thereby gold and silver for the purpose of paying the salaries of the President, Vice President, Secretaries, Members of Congress, Post Masters, Marshalls, &c. in specie, and to procure such other sums as may be necessary to use at the coming election in the State of New York. All persons having gold and silver to dispose of are requested to be present at the sale of such Treasury notes or Government promissory notes, in exchange therefor. The said Continental bills will engage on their face to pay at a certain time such sums on demand, and the holder of the same will be paid the full amount at maturity of said bill, provided the Government has the shot to pay when presented.

If the said sale should succeed as proposed, the Government will then proceed to pay the salaries of the officers above mentioned in gold and silver; if such offers of gold and silver should not be made then, the said Treasury notes or "Continental money" will be exchanged for any other kind of "promissory notes" which the Treasury shall approve of.

By order of the Government!!!!

HORRID MUTINY AND MASSACRE.—We are informed that Mr. Davis, first officer of the barque Isabella, just arrived at New Bedford, brings a report that about twenty days prior to their departure from N. Zealand a shocking event occurred on board the ship Ploughboy, Capt. Brown, of this port—the particulars of which are thus related. In order to complete the crew of the ship, three natives of N. Zealand were employed, who having taken offence at the treatment received from some of the officers revenged themselves by murdering two of the hands, and barbarously wounding a third.

These atrocities were committed at night. The natives being forward, first beheaded a seaman who was on the watch; a boatster, in the gangway, hearing a noise, and going forward to ascertain the cause, received a terrible cut from a hatchet, driven deeply into his shoulder; the man at the wheel was next attacked, pierced through the body with a spear, and fell dead through the skylight.

Those below being thus aroused, hastened on deck, found that the murderers had cut adrift all the boats, in one of which they were endeavoring to escape. One of the natives was shot by those on the ship's deck, but the others got off.

Next morning three of the boats were picked up, together with the dead body of the native. The name of one of the murdered seamen, is stated to be John Cotes, of Nantucket, the other was a native of Denmark, name not given—nor is that of the wounded man reported.

VAN BUREN ANTI-BANK CON-SISTENCY.

We would call the attention of the honest men of all parties to the course pursued by the leading Van Burenites, who are the most loud and bawling denouncers of the Bank, and who avow that if they obtain a majority in the next Legislature they will "LEVEL THEM AT A BLOW."

It is these consistent politicians that have been the creators of almost the entire banking capital of the state. It was they that voted to a man in the Legislature to increase the capital of the Girard Bank to FIVE MILLIONS, and to extend its charter TWENTY YEARS after it had been VETOED by Governor Ritner—also to increase the capital of the Moyamensing Bank and of other Banks.

Have these consistent anti-Bank politicians forgotten these little acts of theirs? Or is it most profitable for them now to adopt their loco-foco creed, and go against their own acts? If these humbug politicians could be exhibited to the people in their political deformity, the sight would be most disgusting to all HONEST MEN OF EVERY PARTY.—Penn. Tel.

ELOQUENT EXTRACT.—The speech of Mr. PIERSON in the Senate on Saturday, has been described to us by a gentleman who heard him, as one of great beauty and of effective eloquence. In the course of it, alluding to the difference between himself and Mr. Calhoun, he broke forth as follows: "Would to God that I could have had the aid of his giant arm. (Mr. Calhoun's) in hurling a spear against the side of this wooden horse for whom we are now busily engaged in throwing down the barriers of the constitution, that he may be admitted into the citadel of liberty as an offering to the good of the people. Before heaven I do express my fears, that this wooden horse is crowded with armed men, and that when they shall have been fairly received within our walls, they will march out and trample in the dust both him and myself. I warn him of the future!"

TRIAL FOR MURDER.

The Commonwealth vs. David Anderson.
David Anderson, a colored man, was arraigned before the Court of Oyer and Terminer, on Wednesday, on a charge of having murdered Mary Elias, alias Mary Wood, a coloured woman, on the 14th June, 1837, by wounding her with a pen knife in the stomach.

It appeared in evidence, that on the morning of the day in question, Anderson called at the house of Mary, and used some harsh language towards her. Shortly after she went up stairs, when Anderson took a knife from his pocket, put it in his left hand, and without opening it, also started up stairs. A shriek from Mary was then heard, and about fifteen minutes after she came down, but said nothing as to having been wounded. Anderson then left the house, and subsequently returned. The same day, Mary having been out, returned and fainted away from fatigue. Dr. Duffie was then sent for, and arriving at the house, examined and dressed the wound. He called again the next day, and redressed it—but from that time until her death, she was attended by some of the physicians of the Dispensary.

Dr. D. testified that the wound said to have been inflicted by Anderson, was no doubt the cause of her death—that this was his conclusion; after having made a post-mortem examination, also, that she was an intemperate woman.

On the part of the defendant, Joseph Salters, who was in the house at the time, testified that the wound was inflicted accidentally, while the two were up stairs—that said so frequently before her death, and that she did not want David punished—that he (Salters) was the only person present at the time, and that Mary and David were in perfect good humour.

Several other witnesses were examined, who contradicted the first witness, Mary Johnson, and corroborated the testimony of Salters, as to the dying declarations of the deceased.

Judge King charged the Jury, yesterday morning.

Messrs. Thompson, Allison, and H. Hubble, were counsel for the Defendants—and James Todd, Esq. the Attorney General, conducted the prosecution.

THE YELLOW FEVER AT NEW ORLEANS.
The accounts of the progress of the epidemic at New Orleans, are frightful indeed. All classes, ages, sexes, and conditions seem to fall before it. According to the N. O. Bee of the 19th, the full destroyer continued to pursue its frightful career with an unmitigated severity, almost unexampled in the history of this epidemic; its virulence even appears to augment, the number of its victims still increases, and medical men declare that it is less under the control of remedial than at its first appearance. The interments made at the cemetery at Bayou St. John, from the 1st to the 17th inst, inclusive amounted to seven hundred and sixty-six. The Bee complains of the great influx of strangers, and advises them to leave the city without delay. Nearly five hundred passengers arrived on the 16th, 17th, and 18th—the principal part from New York. Among the pestilence was Mr. George C. Kling, Assistant Postmaster.

AGRIANIAN.—In two years Sir, we will have a division of property in this country, and I am in favor of it.

CITIZEN.—Aye, indeed? How much money have you now?

AGRIANIAN.—Only five dollars.

CITIZEN.—Give that poor fellow who has no shoes or hat one half.

AGRIANIAN.—Give him half of my hard earnings? Give him a halter. Let him work as I do.

CITIZEN.—Precisely so, my friend, and yet you and your party would compel the honest and industrious to divide their earnings with the idle and dissolute.

FRANKLIN'S ADVICE TO EDITORS.—In the conduct of my newspaper I carefully exclude all libelling and personal abuse, which is of late becoming so disgraceful to our country. Whenever I was solicited to insert any thing of that kind, and the writer pleaded, as he generally did, the liberty of the press, and that a newspaper was like a stage coach, in which any one that would pay, had a right to a place, my answer was that I would print the piece separately if desired, and the author might have as many copies as he pleased to distribute himself, but that I would not take upon me to spread his detraction; and that having contracted with my subscribers to furnish them with what might be either useful or entertaining, as I could not fill their papers with private altercations in which they had no concern, without doing them manifest injustice. Now many of our printers make no scruple of gratifying the malice of individuals, by false accusations of the fairest characters among ourselves, augmenting animosity even to the producing of duels. These things I mention as a caution to young printers, and that they may be encouraged not to pollute the press and disgrace the profession by such infamous practice, but refuse steadily, as they may see by my example, that such a course of conduct will not on the whole, be injurious to their interests.

THE BOSTON FAIR.—The fair of the Massachusetts Charitable Mechanic Association closed at Boston on Thursday. The experiment has been decidedly successful. About fifty thousand tickets have been sold, and several thousands have been admitted to the halls gratis. The receipts will be upward of \$12,000.

The Public will have received, in passing our Congressional minutes, that after a severe labor of four weeks, our paternal Government has carried through the two Houses No. 1, of its patent inventions for remedying the disorders of the body politic.

This, however, as in its kindred Thompsonian system, will avail but little, we suppose, unless the whole series of doses be taken; so that when the miserable patient shall have swallowed number six, (that is, the Sub Treasury preparation,) the cure will be complete. He will have no further need of the doctor.

This number one, the reader is aware, is the bill to withhold for fifteen months the payment of the fourth instalment of the last January surplus, due to the States yesterday, under the Distribution Act of June 1836. The Executive plan was to postpone the payment of this instalment indefinitely, or, as the case might be; forever; but this the somewhat rebellious House of Representatives could not go, and would only consent to swallow the nostrum in the qualified form described above.

To speak gravely, however, on a subject of so much gravity, we regard the passage of this bill as one of the most serious of the many evils which have flowed in disastrous abundance from the Jacksonian "Experiment." Had the exigencies of the Government demanded this measure—and had there been no preferable alternative—the inconsequence to the States and the bad faith it virtually involves might have been excused.

But a leading objection to the measure is, that while it will operate with great inconvenience to the States and the People, it was not called for by the necessities of the Government. As Mr. Buchanan well said in debate, (though he was not advocating the bill,) the nine millions which would be absorbed in the payment of this fourth instalment could, most beneficially to the public interest, be supplied by an additional issue of Treasury notes to the amount—thus, at the same time, keeping faith with the States, and contributing to the relief of the Public by circulating nine millions more of the acceptable currency into circulation.

Another good effect, which would have attended the full execution of the Distribution Law, would have been a large reduction of the balances now due the Government by the deposit banks, in a way at once convenient to the States and easy to the banks—inasmuch as those States at least whose banks are in debt to the Treasury, would have been very willing to receive in payment of their instalment the notes of their own institutions owing the balances.

These opinions of ours are not new, having been stated before the meeting of Congress, the moment that the probability of a deficiency in the revenue became apparent.

All these considerations, it may be supposed, and many others not less cogent, must have suggested themselves to the Government, (the Executive that is to say—for, of late years, we have fallen into degrading habit of calling the Executive the Government)—but, with a fatality which seems most strangely to direct the Executive Councils, this very exceptional and uncalculated measure was placed in the van—properly so, perhaps, as every thing seems destined to go wrong and foremost—and forced through mainly, by dint of party strength.

Thus the people pray for relief, and they are saddled with fresh burdens. They ask for bread, and they receive a stone.—Nat. Int.

INDIAN DEPUTATION.—A deputation of Sac and Foxes, at the head of which is KROUCK, the principal chief, and which consist of twenty-six males, and four females, and four children, arrived in this city yesterday, under the charge of their agent, General STREET. These Indians form one nation, the number of which are estimated at 6,400. Some of their kindred, of the same names, now live south of the Missouri river, and since the war of 1812, have kept apart from the main body of the nation. Deputations from these came a few days since, with Major PILCHER. It will be necessary, probably, to hold councils with these several deputations when there will be a fine opportunity of hearing the most eloquent Indian orator, for such KROUCK is admitted to be. It may be as well to say, in explanation of BLACK HAWK's present position, that, since the termination of the war in 1832, he has held neither rank nor authority in his tribe, neither is he attached to the delegation. It was the wish of BLACK HAWK and his son, Roaring Thunder, to visit the great town and villages of their white brethren as freemen, having before been taken through the country as prisoners.—Washington Globe.

Such is Van Buren Democracy!

CHARLES J. NOURSE,
Cor. 13th St. and Pennsylvania Avenue.

Voters of Cumberland county!

BEWARE OF TREACHERY, falsehood and shameless villany! The tongue of calumny—a tool and despicable weapon, used by our enemies to prolong their political existence which is now tottering to its fall, is busy throughout the county—in its highways and byways the tools of the shin plaster party are heard uttering dark calumnies against our party, and the men it supports for the Legislature. The shin plaster party have ever been celebrated for their recklessness—their wanton and graceless effrontery and mendacity. No act is too foul; they meet in bar-room council in Carlisle, and the base falsehood, and the black and despicable scheme of villany is concocted and the agents appointed to ride the county to disseminate it. No party has ever existed in our country, so depraved as the Van Buren shin plaster party. They have prolonged their power through falsehood and misrepresentation, and now that the Sceptre is about to depart from them, it is not to be expected that they will relax their efforts. They have issued a handbill reviling to the feelings of all honest men; that handbill contains foul, despicable and irreparable charges—falsehoods of the blackest die, misrepresentations of the most infamous stamp; allegations which, no decent or honorable man would or could make. Falsehoods are their weapon—they wield it to good effect; calumny and tradition is a vocation in which they labor with a zeal and ardor befitting a better cause. BEWARE OF THEM! Turn a deaf ear to their tales of infamy. They will no doubt secretly attempt to poison and mislead the minds of the honest voters. They know that the day of fearful retribution has come at last; that day which they have so long dreaded. The virtuous indignation of an insulted and outraged people calls aloud for vengeance, and the guilty miscreants tremble in view of their doom. Corruption has long since taken hold upon their vitals—all that was even tolerable in Van Burenism, has ceased to exist, and the party is, of its own accord, falling to pieces—dissolving into its original elements.

Mechanics and Working Men!
The Institution in the last Volunteer, that the MECHANICS and WORKING MEN had been BRIBED AND BOUGHT over to the support of Charles B. Penrose and the ticket on which he is placed, is indeed BASE enough, and truly devoid of foundation! Reckless indeed must be the man who would dare cast such a stigma upon this honest class of our community. We shall be egregiously mistaken if they do not repel this base charge against their honor and honesty on TUESDAY NEXT, in a voice of reprobation, which will make their calumniators regret his recklessness.
