Moffat's Vegetable Life Pills, and

PHŒNIX BITTERS.

A CONTRAST,

All nations, from the remotest ages, have had ships, but Columbus only found out the way to America. Before the time of the great Spanish navigator, people were only enabled to paddle about the shores. Just so with the Life Medicines. It is but two years since I first ventured upon an unknown ocean, and I have discovered the precious object I was in search of—HEALTH. Vegetable medicines were indeed known when I commenced my voyage, but their use was not. By the use of them, I have not only passed from the dejected invalid, to the hale, hearty and active man of business, but, comparatively speaking, I have renewed my youth. I can thus, with confidence in my own experience, advise with my fellow-citizens. Does the reader want proof that the VEGETABLE LIFE MEDICINES are entitled to his own use? I have on file at my office, 540 Broadway, hundreds of letters, from some of the most respectable citizens of this my native land, voluntary offered in testimony of the virtues of A GOOD VEGETABLE MEDICINE.

Persons whose constitutions have been nearly ruined by the "all-infallible" mineral preparations of the day, will bear me witness, that the Life Medicines, and such only, are the true course to permanent good health.

JOHN MOFFAT.

GENERAL REMARKS RELATIVE TO MOFFAT'S LIFE PILLS & PHŒNIX BITTERS.

These medicines have long been known and appreciated, for their extraordinary and immediate powers of restoring perfect health, to persons suffering under every kind of disease to which the human frame is liable.

In many hundreds of certificated instances, they have even rescued sufferers from the very verge of an untimely grave, after the deceptive nostrums of the day had miserably failed; and to many thousands they have permanently secured that most important of health, without which life itself is but a partial blessing. So great, indeed, are their efficacy invariably and infallibly proved, that it has appeared scarcely less than miraculous to those who were unacquainted with the beautifully philosophical principles upon which they are compounded, and upon which they consequently act. It was to their manifest and sensible action in purifying the springs and channels of life, and causing them with renewed tone and vigor, that they were indebted for the regimen, which was bestowed upon them at the spontaneous request of several individuals whose lives they had obviously saved.

The prospective genius in the opportunity afforded by the universal diffusion of the daily press, for placing his VEGETABLE LIFE PILLS within the knowledge and reach of every individual in the community. Unlike the host of pernicious quackeries, which boast of vegetable ingredients, the Life Pills are *solely vegetable*, and contain neither Mercury, Antimony, Arsenic, nor any other mineral, in any form whatever. They are entirely composed of extracts from rare and powerful plants, the virtues of which, though long known to several Indian tribes, and recently to some eminent pharmaceutical chemists, are altogether unknown to the ignorant pretenders to medical science; and were never before administered in so happily efficacious a combination.

The first operation is to loosen the coats of the stomach and bowels, the various impurities and crudities constantly settling around them; and to remove the hardened feces, which collect in the convolutions of the small intestines. Other medicines partially cleanse these, and leave such collected masses behind, so to produce habitual costiveness, with all its train of evils, or sudden diarrhœas, with its imminent dangers. This fact is well known to allegular anatomists, who examine the human bowels after death: and hence the perfect justice of these well informed men against the quack medicines of the age. The second effect of the VEGETABLE LIFE PILLS is to cleanse the kidneys and the bladder, and by this means, the liver and the lungs: the healthful action of which entirely depends upon the regularity of the urinary organs. The blood, which takes its red color from the agency of the liver and the lungs before it passes into the heart, being thus purified by them and nourished by food coming from a clean stomach, courses freely through the veins, renews every part of the system, and triumphantly mounts the banner of health in the blooming cheek.

THE PHŒNIX BITTERS, are so called, because the possess the power of restoring the expiring embers of health, to a glowing vigor throughout the constitution, as the Phœnix is said to be restored to life from the ashes of its own dissolution. The Phœnix Bitters are entirely vegetable, composed of roots found only in certain parts of the western country, which will infallibly cure FEVERS AND AGUES of all kinds; will never fail to eradicate entirely all the effects of Mercury, infinitely sooner than the most powerful preparations of Sarsaparilla, and will immediately cure the determination of BLOOD TO THE HEAD, so very full in the *sickness incident to young females*; and will be found a certain remedy in all cases of *nervous debility and weakness* of the most inquired constitutions. As a remedy for *Chronic and Inflammatory Rheumatism*, the efficacy of the Phœnix Bitters will be demonstrated by the use of a single bottle. The usual dose of these bitters is half a wine glass full, in water or wine, and this quantity may be taken two or three times a day, about half an hour before meals, or a less quantity may be taken at all times. To those who are afflicted with indigestion *after meals*, these Bitters will prove invaluable, as they very greatly increase the action of the principal viscera, help the taste to perform its function, and enable the stomach so discharge into the bowels whatever is offensive. This indigestion is easily and speedily removed; appetite restored, and the months of the absorbent vessels being cleansed, nutrition is facilitated, and strength of body and energy of mind are the happy results. For further particulars of MOFFAT'S LIFE PILLS, and PHŒNIX BITTERS, apply at Mr. Moffat's office, No. 16 Broadway, New York, where the Pills can be obtained for 25 cents, 50 cents, or $1 per box; and the Bitters for $1 or $2 per bottle. ☞Numerous certificates of the wonderful efficacy of both, may be there inspected.

In some obstinate and complicated cases of chronic and inflammatory Rheumatism, Liver Complaints, Fever and Ague, Dyspepsia, Palsy, *Piles, injuries from the use of mercury, quinine, and other diseases of long standing*, it may be found necessary to take both the Life Pills and Phœnix Bitters, in the doses before recommended.

N. B.—These Pills and the Bitters will get all mercury out of the system infinitely faster than the best preparations of Sarsaparilla; and are a certain remedy for the *rushing of blood to the head, or all violent headaches, tic douloureux* &c.—All persons who are troubled *to spoke palpitation* &c., should never be without the Life Pills or the Bitters, for one dose in time will save life. They equalize the circulation of the blood, draw all pleasure from the head, restore perspiration, and throw off every impurity by the pores of the skin

DR. SHUBAEL HEWES'

Celebrated Rheumatic, Nerve, and Bone LINIMENT.

Applied morning and night, has cured hundreds. It gives relief in the swelling or the glands of the throat, and relieves the numbness and contractions of the limbs and will take swellings down, and inflamations out of the flesh, rheumatism, bruises and sprains.—It gives immediate relief; it strengthens weak limbs, and extends the cords when contracted.—A few drops on sheep's wool applied to the ear of deaf persons, will by constant application, cause them to hear in two months' time.

A great number of certificates of the most respectable and decent character may be examined where it is sold. Please call on S. C. Bolander Carlisle, who will give further information, or see Mr. Bolander's papers.

CONSUMPTION CURED.

The Indian Specific,

For the prevention and cure of Coughs, Colds, Asthmas, Consumptions, spitting of Blood, and diseases of the breast and lungs, &c.

Doctor *Clarkson Freeman*, the proprietor of the specific, resided upwards of four years among the different tribes of North American Indians, and with unwearied diligence used every means in his power to require a knowledge of the different remedies used by them, for the cure of the sick and wounded; and more particularly those which they take to prevent and cure the consumption, and complaints of the breast and lungs. He observed the Indians were subject to numerous and similar complaints to those of white people; and from their mode of living, and being exposed to the inclemency of all weathers, many of their complaints were complicated and violent. Although, many of their diseases were of such a nature as would, with people in a civilized state have terminated in confirmed consumptions; yet, during the time he was with them, he did not hear of one who died of a consumption.

So happy are they in their knowledge of remedies, and so certain of their effects—when applied in time, that it may be said "a true consumption is a disease never known or heard among them." The truth of this observation must be corroborated by all who have had the opportunity of becoming acquainted with these people. It may then be asked why they are exempt from these complaints? The reason is obvious; because they immediately seek for relief, and prevent those complaints which insensibly undermine the constitution, and bring on incurable consumption.

Bills of direction accompany each bottle of the Specific, pointing out in a conspicuous manner, all the symptoms in the different stages of these distressing diseases; also particular directions respecting Diet and Regimen, and how patients are to conduct themselves through every stage until health is restored; for vain and useless would be the prescriptions of the ablest physician, accompanied with the most powerful medicines if his directions are not faithfully adhered to.

The public are informed that the depositions of two hundred and eighty seven persons have been taken before the proper authorities of the city of Lancaster, Pa. all completely cured of the most desperate cases of consumption, some of which are detailed in the bills accompanying the bottle.

The price of each bottle of INDIAN SPECIFIC is One Dollar, and each purchaser of the genuine Specific is signed by Dr. *Clarkson Freeman*, and the initials C. F. on the seal of each bottle. None can be genuine without this signature; a base composition having been attempted to be imposed on the public by a counterfeit imitation of this extraordinary article.

☞ A constant supply of the above Specific, is kept constantly on sale, by SAMUEL ELLIOTT, Carlisle, and by Samuel Wilson Shippensburg.

A Beautiful Head of Hair.

Is the grandest ornament belonging to the human frame. How strangely the loss of it changes the countenance and prematurely brings on the appearance of old age, which causes many to recoil at being uncovered, and sometimes even to him society to avoid the jests and sneers of their acquaintances; the remainder of their lives are consequently spent in retirement. In short, not even the loss of property fills the generous thinking youth with that heavy sinking gloom as does the loss of his hair. Thwarted all these unpleasant circumstances, OLDRIDGE'S BALM OF COLUMBIA stops the hair from falling off on the first application, and a few bottles restore it again. It likewise produces eyebrows and whiskers; prevents the hair from turning grey, makes it curl beautifully, and frees it from scurf. Numerous certificates of the first respectability in support of the virtues of Oldridge's Balm, are now ho by the proprietors.

☞ Read the following:

ROBERT WHARTON, Esq., late Mayor of Philadelphia, has certified, as may be seen below, to the high character of the following gentlemen.

The undersigned do hereby certify that we have used the Balm of Columbia discovered by J. Oldridge, and have found it highly serviceable not only as a preventative against the falling off of hair, but also a certain restorative.

The aged, and those who persist in wearing wigs, may not always experience its restorative qualities, yet it will certainly raise its virtues in the estimation of the public, when it is known that three of the above signers are more 50 years of age, and the others not less than 30.

Carlisle, Feb. 13, 1838.

DR. BRANDRETH'S *Vegetable Universal Pills.*

Science should contribute to the Comfort, Health, and Happiness of Mankind.

On the eighteenth of May, 1835, these now truly celebrated Pills were first made known in the United States, although in Europe they had been previously before the public nearly a century. The American public naturally viewed them with suspicion, but as on trial they were found what they professed, it was soon displaced by the greatest confidence. In fact the many persons who have commenced with them under the most trying circumstances of bodily affliction, when every other means and medicine had proved altogether unavailing, have been restored o health and happinesss from their use, and the consequence is, they are now recommended by thousands of persons whom they have cured of Consumption, Influenza, Colds, indigestion, Dyspepsia, Headache, Pains, and a sense of fullness in the back part of the Head, usually the symptoms of Apoplexy, Jaundice, Fever and Ague, Bilious, Scarlet, Typhus, Yellow, and common fevers of all kinds, Asthma, Gout, Rheumatism, Nervous Diseases, Liver Complaint, Pleurisy Inward Werkness, Depression of the Spirits, Ruptures, Inflammation, Sore Eyes, Fits, Palsy, Dropsy, Small Pox, Measles, Croup, Coughs, Whooping Cough, Quincy, Colic, Cholera Morbus, Gravel Worms, Dysentery, Deafness, Ringing Noises in the Head, King's Evil, Scrofula, Erysipelas, or St. Anthony's Fire, Salt Rheum, White Swellings, Ulcers some of 30 years standing, Cancers, Tumors, Swelled Feet and Legs, Piles, Costiveness, all Eruptions of the Skin, Frightful Dreams, Female complaints of every kind, especially obstructions, relaxation, &c.

Although Doctor B. has enumerated by name the above diseases, he is nevertheless of opinion with his grandfather, the late celebrated Dr. Wm. Brandreth, that there is only ONE Disease, an impurity of the blood, which by impeding the circulation, brings on inflammation, and consequent derangement in the organ or part where such impurity of the blood settles; and that it is the different appearances which this inflamation or derangement puts on, that have caused medical men to designate such appearances by various names, but which are in fact, only the same disease, with more or less violence. Dr. Wm. Brandreth was so fully convinced of the truth of he above simple theory, that he spent thirty years in experiments and laborious research into the medical properties of the numerous plants composing the Vegetable Kingdom; his object being to compose a medicine which should at once purify and prolong by specific action, a removal of all bad humors from the blood by the stomach and bowels, as by the continuation o the use of such a medicine, such humors are sure to be carried off, and the blood assume a state of purity; and whoever takes these Pills, and perseveres with them will be satisfied that Dr. Wm. Brandreth fully attained his philanthropic object. It is now an absolute and known fact, that every disease, whether it be in the head or feet, in the brain or meanest member; whether it be an outward ulcer, or an inward abscess, are all, though arising from many causes, reducible to this one grand effect, namely impurity of the blood.

In all cases they will be found a safe and simple remedy yet all powerful for the removal of the disease, whether chronic or recent, infectious or otherwise; and what makes them particularly adapted for this country, is that there is not the slightest liability to cold when taking them, indeed the system is absolutely less susceptible of cold when under their influence, than at any other time; *therefore in this climate they are invaluable.* Neither do they require change o diet or care of any kind. In England these Pills have been the only medicine of many families for periods varying from forty to sixty years, and have always proved effectual in restoring health wherever an aberation from it occurred.

NOTICE.—In consequence of the numerous counterfeits for sale in the Drug and Chemical Stores, the public are cautioned against purchasing of any person except the accredited agents.

Security Against Counterfeits.

DR. BRANDRETH has adopted the following plan to secure the GENUINE Brandreth Pills to the public. Every authorized Agent must have a Certificate of Agency, and it will be seen that a double forgery MUST be committed, before any one can procure a forged Certificate, and the person having it in his possession is equally liable with the forger.

The following are the appointed agents for this vicinity, viz: Wm. Gilmore, Chambersburg; Jacob A. Winrott, Gettysburg; OGILBY & HITNER, Carlisle; and Wm. Bell, Harrisburg.

INTERESTING CASE CURED BY DR. WM. EVANS'S CAMOMILE TONIC AND FAMILY APERIENT PILLS.—MR. BENJAMIN BOWN, corner of Shippen and George streets, Philadelphia, affected for seven years with extreme nervousness, by which he was not able to write his name—his symptoms were, eructation, daily spasmodic pains in the head, loss of appetite palpitation of the heart, giddiness and dimness of sight, utter inability of engaging in any thing that demanded vigor or courage, sickness at the stomach, impaired appetite, coldness and weakness of the extremities, emaciation and extreme debility, disturbed rest, a sense of pressure and weight at the stomach after eating, great mental despondency, severe flying pains in the chest, back and side, costiveness, a dislike for society and conversation. Mr. B has made trial of various medicines now before the public, but to no effect, until, observing in a public paper some cures performed by Dr. William Evans's Camomile Tonic and Family Aperient Pills, he was induced to give them a trial, of which he is at any time happy to state that they effectually cured him of the above distressing disease.

Persons who doubt the above cure, are most respectfully directed to the above mentioned person, at the north-west corner of Shippen and George streets.

BENJAMIN BOWN.

NOTICE.

On the 8th day of January, 1838, a petition was presented to the Court of Common Pleas of Cumberland County by Samuel Beetem, Esq., setting forth the facts that on the 18th November, 1820, Jacob Weise executed a mortgage to John Sheaffer on a tract of land in Dickinson Township, bounded by Wm. Woods, James Woods, John Hettrick, and others, containing 103 acres, 42 perches, to secure the payment of ten bonds of $250 each, from the 1st of April, 1822, till the 1st of April, 1831, inclusive; and that the said Samuel Beetem, Esq., purchased the said land from Jacob Weise, and executed a mortgage of it to the said Jacob Weise, to secure the purchase money $2000, in annual payments of $400 each, from the 1st of April, 1830, to the 1st of April, 1834, inclusive, which said purchase money has all been paid in discharge of the mortgage of Jacob Weise to John Sheaffer by an agreement of the parties. And the said Samuel Beetem, Esq. prayed the Court for a rule upon all persons interested to shew cause why the said mortgages should not be ratified. Notice is therefore hereby given to the said Jacob Weise and to the Heirs or legal representatives of the said John Sheaffer or any other person interested, to appear at the next Court of Common Pleas, of Cumberland county, to be held on the 9th day of April next, to shew cause, if any they have, why the said Court should not enter satisfaction on the said mortgages according to law.

LOUCKS'

Famous Cure for the Rheumatism and other Pains.

Much need not be said in relation to this wonderful remedy, as the proprietor feels confident that when applied, it will, as can be proven by the number of respectable persons, effect an entire cure of the Rheumatic and other pains. It had not until lately been his intention to make it public; but by the frequent applications of his neighbours, and the wonderful cures it has effected, he feels it a duty he owes to society as well as himself, to make it more generally known and at the same time, have it put as near as he can, within the reach of all who may be afflicted with that painful disease.

Hundreds of names could be published of persons who have been cured by this celebrated medicine, but the following are selected from the mass, as being amply sufficient to attest its powers.

John Srove,	Peter Lindemuth jr.
Peter Lindemuth,	Robert Richardson,
Cornelius Stoner,	Jacob Diffenbaugh,
Aaron Bender,	Jacob Hiestand,
Hobert Dysart,	Jacob L. Nagle,
Henry Alsbaugh,	John Alsbaugh,
Christian Organ,	Samuel Fenely,
David Bender,	Samuel Young,
George Fisher,	Jacob Worlich,
John Cover,	Jacob Miers.

THE NEW-YORKER.

On the 24th day of March next, the subscribers will commence the Fifth Volume of their Journal, both Folio and Quarto editions. No endeavors have thus far been spared to render it worthy the patronage and esteem of the public, and a corresponding spirit will animate our future exertions. Recent arrangements have been effected, securing an accession of talent and energy in the Editorial conduct of the works, and insuring greater variety as well as strength in this department of the enterprise. It has been deemed a lesson of experience that the union of all the branches of Editorial labor, in a work so comprehensive as ours, in the hands of a single individual—who is thus compelled to pay simultaneous and unceasing attention to Literature, Politics, Foreign Affairs, Domestic Occurrences and every subject of interest—is not so well calculated to secure the highest efficiency in these various departments as a system which embraces a partial though not absolute division of intellectual labor. Under this conviction, the active assistance as well as counsel of a gentleman favorably known in the higher walks of Literature have been secured for the ensuing year, and that portion of the paper more especially known as Literary will be placed under his charge. The political department, with a general supervision of the entire work, will remain with him who has hitherto been known to the public as the Editor of the work. The city department, embracing brief notices of whatever may from time to time be occurring in this Emporium of the of the Western World, with that of Foreign News also, will devolve especially on Dr. W. MATLACK ELDRIDGE, who has recently succeeded Mr. E. Burke Fisher as Associate Proprietor and Editor, and who will also participate actively in the general conduct of the paper. It is believed that by this arrangement a more complete and effective knowledge of the subjects treated of will be insured, while a more real and palpable variety—a variety of manner as well as matter—will result to our journal and its readers.

Of the general character of the New-Yorker it is unnecessary to speak, since we do not propose to change that which it has borne from its establishment. Circulating for the last two years from 6,000 to 9,000 copies per week, through every county in the Union—it cannot be presumed unknown to the educated and intelligent. To those who have not hitherto made its acquaintance, it may be proper to state that it is characterized by two objects: the one, of combining the greatest practicable amount of useful and elevating information with the highest general interest; the other, of disseminating truth so far as possible divested of the jaundice of prejudice and the cant of party. In short, our motto is Impartiality, as distinguished from the support of this or that party, clique, or faction, whether in literature or politics. In conforming to this outline, great care is taken against falling into the pernicious error—more fatal than the one we oppose—of suppressing or withholding important truth, because it has been made the theme of partisan conflict. In regard to literature, we shall freely express our own opinions, but accord a fair hearing to whatever may stand opposed to them. In politics, our strictures on public measures and political doctrines will evince a freedom tempered at all times by courtesy; and it will be our untiring aim to exhibit the views of all parties and sects, as set forth by their leaders and oracles. In this manner, we hope to render our journal a more lucid and perfect history of the political contests of the times than can fairly be expected from any partisan paper. A concise account of all political movements—conventions, nominations, &c. will be given, as well as of the results of all Elections, and tables of the popular votes cast therein. But, without entering further into particulars, we may say that we shall endeavor to publish such a journal as shall be deemed inferior in merit and scope to no weekly periodical; and we hope to render it popular without emptying into it whole Novels, Annuals and Jest Books, and to win readers and patrons without offering them a bribe of a dozen romances as temptation.

The New Yorker is published in two forms—the Folio, or the common newspaper form, every Saturday morning, on a large imperial sheet, at Three Dollars per annum, or Five Dollars for two copies. As a further inducement to uniting in subscriptions, five copies will be sent for Ten Dollars remitted absolutely in advance, and any larger number in proportion.

The Quarto edition is issued every Saturday evening, on a larger and finer sheet, intended expressly for binding. Each number contains sixteen large pages of three columns each, including a page of popular Music, and excluding advertisements. It forms two ample volumes of 432 pages each per annum, and is afforded at Four Dollars a year. Three copies, however, will be sent for Ten Dollars; and Five Dollars remitted free of any charge will be credited eighteen months. Subscriptions are respectfully solicited.
