Our informant was told on the Monday of the August court, by another Van Buren and Porter man from the lower end of the county, that he had recently been over to Harrisburg and was in the Reporter office; and that the editors, in conversing with him in relation to the affairs of this county, expressed their hopes that David Hume would be nominated for the legislature. Upon being told by the Porter nan that Hume was incompetent and unpopular, they naintained that he was every way qualified, and with an air of triumph pointed to his election as a delerate to the 5th of March convention to prove his podarity! The Porter man was subsequently told by elerk in the State Treasurer's office that Hume was sure of the delegates from East-Pennsborough-liad good prospect of those from Allen and some other of the lower townships-and would receive aid from the upper end. The substance of all this was comnunicated to Mr. Gorgas by our informant the same day he heard it, and he requested him to call upon his author to satisfy himself of the correctness of the statement, which he immediately did. Mr. Gorgas have the conscious feeling of having sought thus received the same statement from our informant and our informant's author, both of whom are his are, nominated by the unbiassed preference of a dent friends, and if he thinks proper to give up their names to the persons implicated, it is no business of ours. We hope that, at the election on Tuesday next, no nan will be appointed to act as Judge, who is interested in any bet upon the result to the amount of one cent. We hope further to see those who are selected for this important station, not attempting to deprive any man of his vote who is legally entitled to it, or to act the part of mere bartizons instead of the impartial ministers of the law.
