The subscribers, being desirous of publicly counteracting the efforts which are secretly made to injure the character of their machine, by persons who apper to be actuated by unfriendly feelings towards them, respectfully submit the following CERTIFI-CATES to the public.

I certify that I, last year, used one of the Threshing Machines manufactured by J. E. Brady & Co. and during the season, there was threshed on it about four thousand busheld of grain, and about two hundred and twenty five bushels of clover seed, and I am fully satisfied that, for the Farmer's use, it is superior to any other Machine I have ever seen in this part of the country. I further certify that Mr. Henry Hurst, one of my neighbors, had six wagon loads of clover seed stuff cleaned at a clover mill, and the yield was 22 bushels, and that the same quantity of stuff was threshed on my machine, and the yield was 323 bushels. Mr. Hurst is of the opinion that the stuff he hauled to the mill, was the better lot of the two. ter lot of the two.

- FREDERICK KARPER.

I certify that, in August last, I purchased from J. E. Brady & Co. one of their threshing machines, which I would be threshing roain for their threshing machines, which I would be threshing roain for their rarmers, till some time in March last. During that period I direshed about fifteen thousand bushels of wheat, rye and oats. My expense for repairs of both the Machine and Horse Power, did not exceed five dollars, and when I sold them, (which was in March) the machinery appeared to be nearly as good as it was at the time I bought them. The wheels in the horse power were perfectly sound and substantial, and upon a close examination, I could not discoverent the cogs had worn in the slightest degree. I had, for several years previous, been engaged in threshing with three different kinds of machines, which I fully tried, and I unhesitatingly certify that for durability, service and speedy and clean threshing, I have never used or seen any that, in my opinion, will at all compare with the one I had fast year, unless it be one of the same kind.—If attention is given to the machinery, it appears to me almost impossible for any part of them to get out of order.

I, last year, purchased two of the threshing machines

I, last year, purchased two of the threshing machin of J. E. Brady & Co. (one of which I still have, and fully tested them. For speedy and clean-thresh-

ing, they are, certainly, a superior article, and one that is of great service to the Farmer. I consider it the best article of the kind I have ever seen in this part of the country. I take great pleasure in recommending it the Farmer. DANIEL W. ROYER.

I certify that Mr. Andrew Davison and I purchased, last November, one of J. E. Brady & Co's threshing machines, which we fully tested having threshed wheat, rye, oats and clover seed on it. I am fully satisfied that it is preferable to my other I have seen, in operation, and it is an article that will repay the Farmer amply, for its price. It threshes clean, is not liable to get out of order, and is, upon the whole, an article that I can, with great confidence, recommend to the Farmer.
