THRESHING MACHINES, Morse Power.

THE great encouragement which the subscribers received during the last year in the sales of their Machines, induced them to make extensive preparations to meet the increased demand for their article. No time, labor or expense has been spared to procure thevery best materials the country can afford. Their workinen are experienced and of the first character, and they have no hesitation in assuring the Farmers that they are now able to furnish them with an article not only equal but decidedly superior to any other manufactured in this part of the country.

For speedy and clean threshing, with case to the horses, they believe their Machine to be unequalled. Their price is the same as last year, viz: 140 dollars, 70 dollars, in eash and the balance in six months, for

The subscribers being desirous of publicly counteracting the efforts which are secretly made to injure the character of their machine, by persons who appear to be actuated by unfairently feelings towards them, respectfully submit the following CENTIFICATES to the publice.

I certify that I, last year; used one of the Threshing Machines manufastured by J. U. Brady & Co. and during the source, there was thoseled on it about four thousand bushels of erain; and about two hundred and twenty five bushels of clover seed, and I am fully satisfied that, for the Farmer's use, it is superior to any other Machines I have, ever seen in this part of the country. I further certify that Mr. Henry Hurst, one of my neighbors, had six wagon loads of clover seed staff cleaned at a clover mill; and the yield was 22 bushels, and that the same quantity of stuff was threshed on my machine, and min, and the yield was 12 bashed on my machine, and the yield was 323 bushels. Mr. Hurst is of the opin-ion that the stuff he hauled to the mill, was the ter lot of the two. ·FREDERICK KARPER.

May 13, 1838.

I certify flat, in August last, I purchased from J. E. Brady & Co. one, of their threshing machines, which I used for threshing grain for different I armers, till some time in March last. During that period I threshied about fifteen thousand bushels of wheat, rye and oats. My expense for repairs of both the Machine and Horse Power, did not exceed five dollars, and when I sold them, (which was in March.) the machinery appeared to be incarly as good as it was at the time I bought them. The wheels in the horse power were perfectly sound and substantial, and upon a close examination, I could not discover that the cogs had worn in the slightest degree. I had, for several years previous, been engaged in threshings with three different kinds of machines, which I fully tried, and I unhositating be certify that for durability, service and speedy and clean threshing, I have never used or seen any that, in my opinion, will attall compare with the one I-had last year; unless it be one of the same kind, — [Laffendien is given to the machinery, it appears to nac almost impossible for any part of their to ret out of order. to the machinery, it appears to me almost impossible for any part of them to get out of order.

I certify that Mr. Andraw Davison and I purchased, I certify that Mr. Andrew Davison and I purchased, last November, one of J. E. Brady & Co's threshing machines, which we fully tested, having threshed wheat, rye, oats and clover seed on it. I am fully satisfied that it is preferable to any other I have seen in operation, and it is an article that will repay the Farmer amply, for its price. It threshes clean, is not liable to get out of order, and is, upon the whole, an article that I can, with great confidence, recommend to the Farn ABRAHAM S. DAVISON.

June 18 1838. Mr. Benjamin Hamilton and I, last year, purchased one of J. E. Brady & Co's threshing machines, with which there was threshed not less than 4000 bushels of grain. It is an excellent article, superior in my opinion, to any of the kind I have ever seen. One of its chief excellenceis, that it is not liable to go out of I have no hesitation in recommending it to
