VOLUME XLV.—No. 12. TUESDAY AFTERNOON, DECEMBER 18, 1838. NEW SERIES, VOL. 3.—No. 4.

The True Riches of Life is

HEALTH

We know that Health, and the ability to labor is the wealth of the great mass of the people in this as in most other countries. To preserve, therefore, that health by NATURAL means, is a grand moral and political scheme, to fulfil which requires otr utmost attention.

THE unparrelleled reputation which Peters' Pills have acquired as a Medical Restorative, is the most unquestionable proof that can be given of their immense importance to the afflicted in almost every class of diseases. The number of letters received from patients recovering through their means is really prodigious, and the complaints which they have cured are almost as varied as they are numerous.—But still there are some in which they are more especially beneficial than in others; and among those may be named the too often fatal complaints of the stomach and bowels, such as Cholic, Flatulence, and Indigestion, for which they are not only a certain but an immediate cure.

It is well known that from the disarrangement of the stomach and bowels, arise nine tenths of all the maladies of adult and declining life; that this is the foundation of Flatulency, Spasmodic Pains, Indigestion, Loss of Appetite etc., and that these in their turn give birth to Dropsy, Liver Complaint, Consumption, and habitual lowness of spirits, therefore Peters' Pills being the very best medicine which has ever been discovered for the incipient diseases of the intestines, are necessarily the surest preventives of those dreadful, and also general disorders, which embitter life, and drag so many millions to untimely graves.

In speaking thus Dr. Peters arrogates nothing to himself that has not been conceded by the public.—He is no needy quack or unknown speculator, who comes before the world as his own herald and witness, but is placed in a responsibility of situation by the patronage which he has enjoyed for years, and which is increasing to an extent unprecedented in the annals of medicine, that makes him careful to assert nothing which is not borne out by the most infallable proof, and hence he does not fear to be put to the test in any thing which he has promised respecting his Pills.

Dr. Peters is most happy to be able to state, on the authority of a great number of regular physicians, that wherever his Vegetable Pills have been introduced, they have almost superceded the adoption of mercurial experiments, for their peculiar faculty in sweetening the blood, and stimulating it to expel all noxious juices, and in giving strength and tone to the nerves, prevents disease from acquiring that strength which, must be got under, if at all, by dangerous remedies.

Prepared by JOS. PRIESTLY PETERS, M. D. 129, Library street, New York. Each box contains 40 pills; price 50 cents.

These celebrated Pills are sold by all the principal Druggists in Baltimore, Philadelphia, Washington City, and throughout the United States, the Canadas, Texas, Mexico, and the West Indies, and by JOHN J. MYERS, SAMUEL ELLIOTT, Carlisle; SAMUEL WILSON, Shippensburg; LEWIS DENG, GEORGE GARLIN, Chambersburg.

December 4, 1838.—1y.

Quacks and their Destructive NOSTRUMS.

THE unitted testimony of the physicians throughout the United States has fully proved the fact that Peters' Vegitable Pills are the only true Vegitable Pills which will stand the test of analyzation; hence the proprietor would most earnestly urge them to the notice of those who have been in the habit of using, as cathartics or aperients, the destructive and irritating quack pills so generally advertised, and which are at best but slow consumers of the vital functions, and murderous agents even to the most halee. It is true, most of them produce a purgative effect, and sometimes transient relief; but in most cases they injure the digestive organs, and an habitual resort to them must terminate in confirmed dyspepsia.

It is true that cathartic and aperient medicines are often required but the nicest discrimination should always be observed in the selections and if this be done, nothing injurious can result from their use.

To produce this much desired result, Dr. Peters has made it his study for several years, and feels proud to say he has succeeded at length far beyond his expectations. The object of his pills is to supercede the necessity of a frequent recourse to injurious purgatives, and to offer a medicine safe, certain, and pleasant in its operation.

Prepared by JOS. PRIESTLY PETERS, M. D. No. 129 Library street, New York.—Each box contains 40 pills. Price 50 cents.

Headache, Sick and Nervous.

Those who have suffered, and are weary of suffering from these distressing complaints, will find in *PETERS' VEGITABLE PILLS* a remedy at once certain and immediate in its effects.

IN DYSPEPSIA they stand unrivalled; many have been cured in a few weeks, after having suffered under this dreadful complaint for years.

In habitual costiveness they are decidedly superior to any Vegitable Pills ever yet discovered, and besides this they are recommended by all the eminent and leading members of the Medical Faculty.

A Catalogue of Reasons

For using Dr. Peters' Celebrated Vegitable Pills.

1. Because they are exceedingly popular which proves them to be exceedingly good.
2. Because they are composed of simples which have the power to do good in an immense number of cases, without possessing the means to do injury in any.
3. Because they are not a quack medicine, but the scientific compound of a regular physician, who has made his profession the study of his life.
4. Because they are not unpleasant to take nor distressing to retain, while they are most effective to operate.
5. Because they are recommended as a standard medicine by the regular faculty.
6. Because by keeping the system in a natural state of action they cure almost every disease which is incidental to the human frame.
7. Because they are cheap and portable, and will retain all their virtues in full vigor, in any climate and for any length of time.
8. Because, notwithstanding their simplicity and mildness, they are one of the speediest purgative medicines which has been discovered.
9. Because they are an unfailing remedy for procuring a good appetite.
10. Because in cases of spleen or despondency, by their healthy influence on the excited state of the body, they have a most happy effect, in calming and invigorating the mind.
11. Because they effect their cures without the usual attendans of other pills, sickness and griping.
12. Because as well as being an rivalled purifier of the general system, they are a sovereign remedy for sick headache.
13. Because they differ from the majority of medicines, in the fact that the more they are known the more they are approved.
14. Because as their application create no debility in the system, they may be taken without producing any hindrance to business or the pursuits of every day life.
15. Because when once introduced into a family, or a village, they almost immediately take the precedence of all other medicines in general complaints.
16. Because a number of the wonderful cures they have effected, can be substantiated without any undue means being resorted to, to procure invalid testimonies.
17. Because their composition is such, that they are equally applicable to the usual diseases of warm, cold, or temperate climates.
18. Because two, or three are in general sufficient for a dose—so that, as is the case with the generality of patent medicines—the patient is not compelled to make a meal of them.
19. Because each individual pill is put up under the immediate superintendence of the proprietor, so that no mistake in the composition, or quantity can possibly occur through the carelessness of a less interested agent.
20. Because they purify the frame without debilitating the system.
21. Because, notwithstanding their immense popularity, no person has ever ventured to raise against them the breath of censure, which would not have been the case, if any could have discovered in them a single flaw to cavil at.
22. Because—and this fact is of the utmost importance)—ladies in a certain situation may take them, (not more than two or three at a time however,) without in the slightest degree incurring the hazard of abortion. Were the virtues of Peters' inestimable pills, confined to this desirable end alone, it would give them a decided advantage over the medicines of all competitors, as in no cases is there more danger to be apprehended, or for which so few remedies have been discovered, as the one referred to.
23. Because while they are so efficient in their operations with adults they may at the same time be administered to children and even to infants, in small quantities, half a pill for instance, without the slightest danger.
24. Because their virtues are acknowledged to stand pre-eminent, for their soothing influence upon young ladies while suffering from the changes of life, as directed by the laws of nature.

INDIAN QUEEN HOTEL.

SOUTH FOURTH STREET, PHILADELPHIA.

DAVID MILLER,

RESPECTFULLY informs his friends and the public, that he has removed from the Western Hotel in Market street, to that large and commodious hotel formerly kept by Mr. B. Duke, sign of the

INDIAN QUEEN.

This hotel is situated in South Fourth street, between Market and Chestnut streets, in the very centre of the business part of the city, and will therefore be found very convenient for merchants and business men generally.

The buildings have been thoroughly and completely repaired by the subscriber, and no expense has been spared in arranging and furnishing the rooms so as to promote the comfort and convenience of those who may favor the house with their custom.

Gentlemen travelling with their families can have private parlors furnished in the best manner with chambers attached to them, where they can enjoy privacy and seclusion, or the companionship of their friends, as may be most desirable.

The BAR and CELLARS have been provided with the best LIQUORS and the choicest WINES of every description.

The TABLE will at all times be supplied with every delicacy which the season and market can afford, and every exertion made to please the palate of his customers.

The READING ROOMS are well supplied with the leading journals of different cities, as well as with a great variety of the country journals of the State.

The SERVANTS will be found careful and trust worthy.

Attached to the hotel are very extensive STABLES, calculated to accommodate one hundred horses, and under the superintendance of careful and attentive hostlers.

D. M. returns his sincere acknowledgements for the very liberal encouragement heretofore received, and feeling confident that he can furnish his guests with fare which will lose nothing by a comparison with other houses, and that his appartments, and their furniture, are fully equal to those of any other hotel in the city, he respectfully solicits a further share of public patronage.

Philadelphia, November 13, 1838.

Evangelical Music,

ON the Sacred Minstrel and Sacred Harp united, consisting of a great variety of Psalm and Hymn Tunes, Anthems, Set Pieces, &c. of the most approved character—by J. H. Hickok and George Fleming—2d edition, much enlarged and improved. Published and for sale by J. Whetham, Philadelphia—J. H. Hickok, Chambersburg, Pa.—George Fleming, Carlisle, Pa.—L. Loomis, Pittsburgh—Yale and Wyatt, Richmond, Va.—and Pearce and Benedon, Natchez, Miss.

The publishers put forth this work with a view to meet the wants of the religious community; and its reception has been such as to afford the most flattering assurance that they have neither mistaken its wants nor vainly endeavored to supply them. A very large edition has in a short time been exhausted, and another called for. This demand determined the publishers to have the work stereotyped, and thus be enabled to keep up a supply for the demand.

This collection contains tunes suited to nearly every variety of measure found in the various Hymn Books in use, embraced in a very large collection of Psalm and Hymn tunes. Besides these, it contains a number of interesting anthems, set pieces, sacred songs, &c. easy of execution without the aid of instrumental accompaniments, and suited to various occasions of religious worship connected with the christian otherprize of the present day.

Teachers of Music, Musical Societies, Choirs, retailers and others, supplied on the most accommodating terms on appliestion to either of the publishers.

☞ *The above work may be had, wholesale or retail, at the office of the "Herald and Expositor," Carlisle, Pa.*

PUBLIC SALE.

BY an order of the Orphans' Court of Cumberland county, I will expose to public sale on the premises, on *Monday the 24th day of December next* the following real estate of Jonathan Kitzmiller, dec'd, to wit.—A Tract of first rate

LIMESTONE LAND,

situate on the Trindle Spring road, about four miles below Carlisle, containing about 22 acres, more or less, having an elegant

DWELLING HOUSE,

formerly kept as a house of public entertainment and a first rate stone BANK BARN and other buildings thereon erected. There are also two fine orchards on the premises. The land is all cleared. The property will be sold together or in parts as will best suit purchasers—upon the following terms—One third to remain in the hands of the purchaser, the interest to be paid annually to the widow; $250 to be paid on the confirmation of the sale; the residue of $1000 on the 1st April, 1839, when possession will be given; and the balance in two annual payments without interest.

Across Great Conowaga creek, where the road leading from Gettysburg to Newville crosses the same, and about 5 miles from the former place, of the following dimentions, to wit:

To contain in length, from one abutment to the other, seventy feet span, and of single arch, and sixteen feet wide in the clear; the abutments to be eight feet thick each, and twenty-one feet wide, and six feet six inches high from the bed of the creek, where the Bridge is to cross the stream; wing-walls, on the south-east side, to be thirty feet long each, exclusive of the abutments; the wing-walls to be 8½ feet thick at the bottom, and two feet on the top; wing-walls to be three feet higher than the filling up; the wing-walls to be under a good parapet covering, with white pine boards of at least one inch thick, and well painted with red paint; the abutments and wing-walls to be built on rocks or otherwise on good foundation: the bridge to be sixteen feet wide in the clear; twelve feet six inches high from the floor to the square; he sides, and part of the ends, to be weatherboared, with white pine boards, planed and well painted; he sides a good Venetian red, and the gables a good white; the arch to be planked with white pine plank two inches thick and on top with two inch oak planks; to extend the full breadth of the Bridge; lower plank to be pinned, and the whole to be covered with white pine shingles; the wood work to be built of good and substantial timber; the stone work of large and good stone, lime and sand mortar, and well pointed; the roofing of the Bridge to extend over both abutments; the Bridge to be built on the same plan as the Bridge over great Conawaga creek near Mr. Henry Myer's Mill on the road leading from Oxford to Carlisle; the space between the wing-walls and abutments to be well filled up, so as to have a gradual ascent rising on to said Bridge, not exceeding five degrees elevation from the road to said Bridge; the Bridge in the inside to be weatherboarded two and a half feet high from the floor of the Bridge, with boards one inch thick.

The party contracting for building said Bridge to give security to double the amount of the contract, for the faithful performance of the workmanship and permanency of said Bridge.

By order of the Commissioners,

WILLIAM KING, Clerk.

T. OLIVER,

Reporter of Fashion & Teacher of Cutting Garments,

WOULD respectfully inform the Tailors, that he is now in Carlisle, where he intends remaining for several weeks. Persons wishing to try his system, can have it, with the necessary instructions, by calling at Carlisle. As regards the merits of this system, he deems it unnecessary to say much, as the system is so highly recommended by the most of the leading Tailors of Philadelphia.

THE COMMITTEE

On Science and the Arts, Constituted by the Franklin Institute of the State of Pennsylvania, for the promotion of the mechanic arts, to whom was referred for examination, the Shoulder measure System of T. Oliver, for the measuring and drafting of garments, REPORT,

That the peculiarities of Mr. Oliver's System, consists in a division of one-fourth of what is called the Shoulder measure into thirteen equal parts, which parts are again divided into halves and quarters.—This system also differs from all others, which the committee are acquainted with, in the following particulars, viz: 1st. That it is more simple and consequently easier learned and more accurately applied; the drafts and descriptions being so plain, that any person at all acquainted with garment cutting, can acquire a full knowledge of it in a few minutes. 2nd, that after the garment is drafted on this principle, any and every proof measure the cutter pleases to apply to it, will be found to accord with the draft. This great desideratum, the committee thinks, has never been attained by any other method for drafting.

Various systems of cutting have appeared within the last few years, all, or nearly all of which have been examined by members of this committee, but without wishing to detract from the merits of any other system, not one so far, has been found entirely to answer the purpose for which it was intended.

The committee believe that Mr. Oliver's system is better calculated to obviate the difficulty under which Tailors have labored, than any of the above named systems, inasmuch as it establishes all the necessary points, and in such a manner as to convince the cutter that his draft is correct before he begins to cut his cloth. It appears to leave little or nothing to the judgment of the cutter, thus rendering the profession much less arduous than heretofore.

With regard to the originality of the system, the committee believe it impossible at the present day, to introduce a system of garment cutting entirely original; nevertheless, they believe Mr. Oliver's system to be a nearly original as the nature of the thing will admit. Several of the committee have tested the system, by cutting a number of coats by it, and they do not hesitate to give it their unqualified approbation.

CERTIFICATES.

Philadelphia, Sept. 14, 1838.

Mr. T. Oliver—Dear Sir—I have used your improvements on the Shoulder measure system, and believe it to be the best system that has ever came under my notice, and as such I would recommend it to the trade generally. Respectfully yours,

Wm. B. Roach, No. 221 Chestnut street.

Philadelphia, Sept. 1838.

Mr. T. Oliver—Dear Sir—Having tried and used your improved system of cutting, I do hereby in every instance where it has been fairly used found it to be one of the best that has as yet came under my notice, and as such I have no hesitation in recommending it to the trade in general. Respectfully yours,

C. Stockton, No. 168 Chestnut st.
