Persons whose constitution have been nearly ruined by the "all-infallible" mineral preparations of the day, will bear me witness, that the Life Medicines, and such only, are the true course to permanent good health.

JOHN MOFFAT.

GENERAL REMARKS RELATIVE TO MOP-FAT'S LIFE PILLS & PHIENIX BITTERS. These medicines have long been known and appreciated, for their extraordinary and immediate powers of restoring perfect health, to persons suffering under nearly every kind of disease to which the human frame is liable.

In many hundreds of cortified instances, they have even respect sufferent than the street of the large even respect sufferent the street of the large.

even rescued sufferers from the very verge of an untimety-grave, after all, the deceptive nostrums of the day had utterly failed; and to many thousands they have permanently secured that uniform enjoyment of health, without which life itself is but a partial blessing. So great, indeed has their edicacy invariably and infallibly proyed, that it has appeared scarcely deas than miraculous to those, who were unacquainted with the beautiful philosophicial principles upon which they compounded, and upon which they consequently act. It was to their manifest and sensible action in purifying the springs and channels of life, and cudding them, with renewed, tone and vigor, that they were indebted for their name, which was bestowed upon them at the spontaneous request of several individuals whose lives they had obviouslysmed.

The proprietor rejoices in the opportunity affordeven rescued sufferers from the very verze of an uned upon them at the spontaneous request of several individuals whose lives they had obviously graved.

The proprietor rejpices in the opportunity afforded by the universal diffusion of the daily press, for placing, his VEGETABLE LIFE PHLS within the knowledge and reach of every individual in the community. Unlike the host of every individual in the community. Unlike the host of every individual in the community. Unlike the host of every individual in the community. Unlike the host of every individual in the recurse solely vegetable ingredients, the Life Pills are solely vegetable ingredients, the Life Pills are solely vegetable, and contain meither Mercury. They are entirely composed of extracts from rare and powerful plants, the virtues of which, through long known to several Indian tribes, and recently to some eminerapharmaceutical chemists, re altogether unknown to the ignorant pretendary in padical science and were never before administered in so happily effications a combination.

The first operation is to loozen the coats of the small intestings, Other medicines and contain principally affect in the convelsions of the small intestings. Other medicines partially cleanise those, and leave such collected masses

The following are among the distressing variety of
human discases, to which the Vegetable Life Pills
are well known to be infallfple:

healthy bile, instead of the state and acrid kind;

Languor, and Melancholy, which are the generel symptoms of Dyspepsia, will vanish as a natural consequence of its cure. Costiveness, by cleaning the whole length of the intestines with by creaming the winds and without violence; all violent purges leave the bowels costive within two days. Diarrhan and Cholera, by removing the sharp actid fluids by which these complaints are occasionded and by promoting the lubricative secretion of the museus members. Freness of all kinds, by restoring the blood to regular circulation, through the process of perspiration in seme cases, and the through solution of all intestinal obstructions in others. The IMFE PILLS have been known to circe Rhemmatism permanently in three weeks, and Gont in half that time, by removing local inflamation from the muse fes and ligaments of the joints. Dropsics of all kinds, by freeing and strengthening the kidneys and bladder; they operate most delightfully on these important organs, and bence have ever been found a sertain remady for the worst cases of Gravel. Also Worms, by dislodging from the turnings of the bow-clist the slimy matter to which these creatures adhere; Asthma-and Consumption; by-relieving the air vessols of the lungs from the mucus, which even slight colds will occasion, which if not remixed becomes hardened, and produces those dreadful discuses.

Common Colds and Influenza, will always be cured by one dose, or by two, even in the worst cases. Piles,—as a remedy for this most distressing and obstinate malady, the Vegetable Life Pills deserve a distinct and emphatic recommendation. It is well-known to bundreds in this city, that the Proprietor of these invaluable Pills was himself afflicted with the complaint for upwards of thirty-five years, and he tried in vain every remedy prescribed within the whole compass of the Mestic m Medici. He however, at length, tried the medicine which he now offers to the public, and he was cured in a very short time, after his recovery had been pronounced not only improbable, but absolutely impossible by any human means.

This valuable medicine, being composed only of vegetable matter, or medicinal herbs, and warranted on oath, as containing not one particle of merenial, mineral, or chemical substances; (all of which are uncongenial to the nature of man, and therefore destructive to the human frame) is found to, be perfectly 101 783 congeniate to the nature of man, and therefore destruc-tive to the human frame) is found to be perfectly harmless to the most trader age or weakest frame, under every stage of human suffering, the most plea-sant and benign in its operation, and at the same time 40 00 5. 00 sant and benignin'its operation, and at the same time the most certain in searching out the root of every complaint; however deep, and/of performing a cure that was ever offered to the world. This wonderful effect, too, is produced by the least trouble to the patients, by merely swallowing a certain number of pills, and being called a few extra times to the purpose of evacuation, with the least possible sensation of pain, exhaustation of bodily strength, and without the fear of catching cold, or attention to dress or diet, in any way different from their, acquisioned liabits. These pills cure in all cities, and cannot be taken to excess. Experience, which is the touchstone of all human knowledge, has long berne testimony to the fact; and extensive use of them has already verified its truth in this country.

These medicines cure by purging, and yet the week, the feeble, the infirm, the nervous, the delicate, are in a few days strengthened by their operation, because they clear the body of its had humors; and invariably produce sound sleep. They are the safest 130:00 45 45

They are not enveloped with the mysteries of other medicines: they only require to be preserved in with sufficiently large doses, and the patient will come off well; when a disease is obstinated patients

The medicines are comprised in three different articles only, viz: in two kinds of pills, of different strength or power, designated by No. 1 and 2. The first is a powerfal but most mild and gentle apperient, or opening medicine, detaching and partially removing the billious ropy humours, whils the No. 2 pills carry off those and the serous acid and putrid humors incidental to the body, and act together as a ferret in a warren, never resting until every avenue of ferret in a warren, never resting until every avenue of the human frame is thoroughly scarched and cleansed

Respectable parties may be appointed agents on liberal terms, by applying to the General Depot, No. 3½ South Seventh Street, three doors below Market street, Philadelphia—and at No. 10 North street, Baltimore, nearly opposite the Post Office, where the Genuine Medicine may always be obtained.

(7) CAUTION.—In consequence of the high estimation in which Morrison's Pills are held by the public, it has induced an innumerable host of unprincipled host of counterfeiters to attempt fmitations, under deceptive terms thus to delude the unwarry, foist their nostrums for the Genuine Hygeian Medicine; in consequence of which, the agent has taken the precautionary measure of having an Extra Yellow Label fixed on each packet, signed by the agent of each state and district, and by their sub-agents, in every county; the imitation of which will subject the forger to the severest punishment the law can inflict; and it is further to be poticed, that none of the above Medicines can be obtained in any drug store throughout the Union, the drug stores being the principal source through which the Counterfeiters vend their spurious articles.

TO HONEST CITIZENS. What do Druggists prove by making and selling Counterfeit Pills purporting to be

Brandreth's Vegetable Universal Pills.

1st.—That they are without monest and nonona-But principles.

2d.—That no other medicine is required by the public; or why do not these druggists counterfast other pulls in the same way they do Brandreth's Simply because no others save Brandreth's Vegetable Universal Pills ever effected the extraordinary cures

that these Pills are known—universally known—to have effected. There never was a person who used the VEGETABLE UNIVERSAL PILLS,

Who did not recommend them in terms of the most unequalled praise.

Nevertheless, these counterfeifing druggists have done & are doing the character of the Genuine a great deal of injury; but it is hoped that individuals will not allow themselves to be deceived by designing persons, whose only object is to make money, and who are perfectly careless of consequences. It is a matter of no importance to them whether the poor child is rescued from a bed of sickness and restored to the requirements of its property or whether him on along rescued from a hed of sickness and restored to the yearning hirms of its parents, or whether him on whom a large family rely solely upon for support, is prevented from filling an early and untimely grave. The time may come when the greatness of their guilt shall become clear to their benighted understandings, and then it is hoped they will endeavor to make some amends by the after purity of their lives.

Every authorized agent has a copperplate certificate of agency, and has it exhibited in his store. Never purchase unless this is seen; and have some regard also to the character the agent bears among his fellow citizens.
