

Frederick Watts, Esq.—His defeat last October furnished a convincing proof that bland and gentlemanly manners, distinguished talents, purity of patriotism, Spartan firmness, and unwavering integrity, are not the qualifications which recommend a candidate to the dominant party in the 13th Congressional District of Pennsylvania.

Ma. WARR, after the reading of this toast, arose and addressed the meeting for upwards of an hour, in a strain of impassioned eloquence. At the close he offered the following sentiment:

The Judiciary—May the public opinion preserve it, that it may preserve the value of public opinion.

Farmers, Mechanics, Laborers, Merchants, Doctors, Lawyers, and Clergymen—The great component parts of a healthy community—all efforts to procure or foster passions between these classes, deserves and should receive the reprobation of every friend to order and human happiness.

The whetstone and rough-faced Senators and representatives, who listen with a disdainful indifference, have betrayed their constituents and deserted their duty. They are worthy disciples of Benedict Arnold.

Editors of licentious presses, executive pets—the greater the knave, the greater the ally.

Assistants to the Sergeants-at-Arms, alias Jacobin committee of safety, riotous mobsters—Legislatures employ them; they pass laws to reward them; and the public treasury.

The spirit of the age is restless, impatient of restraint, curious, and unscrupulous by the united efforts of the wise and virtuous, will stain and desecrate our fair land with such scenes as disgraced the French revolution.

The present Administration of Pennsylvania—Brought into power by fraud, corruption and bribery, carried on in the most unscrupulous and unprincipled manner, the consequence of the doctrine that "to the victors belong the spoils."

Party Spirit—The people of Pennsylvania not forgetting the paternal wrong of the father of his country, vicious and unprincipled men would not have been entrusted with the administration of their government in preference to the "honest and capable."

Thomas H. Burrows and Thaddeus Stevens—Their efforts in the cause of popular education have commanded for them the respect and admiration of every friend to his country or to his race. Generations to come will rise up and pronounce them blessed.

The day ever us and the agency around us—We all calculated to inspire us with cheerful gratitude to a bountiful Providence, and to attain our feelings for the enjoyment of a Social Haquet.

The host and hostesses their exertions to minister to our comfort and pleasure, claim our thanks, and more substantial remuneration.

The Volunteer toasts will be given in our next.

REPORT OF COMMON SCHOOLS.

THE Committee appointed on behalf of the Board of School Directors of the borough of Carlisle, to prepare and submit to the public a general exhibit of the Schools, the situation of the funds of the year, and the amount necessary for the ensuing School year, respectfully present the following exhibit.

The number of Schools in operation during the past year, and at this time is fourteen—each School limited to Sixty Scholars. The number of children on the rolls are from 750 to 800—during the greater portion of the year the former number were in attendance, while at the present time on an examination of the Rolls of the respective Schools, it appears there are about 700 in general and regular attendance, averaging 50 to each school. Of the whole number about 375 are of the Primary, 275 of the Secondary and High School Departments, and 50 of the Colored School.

On a comparison of the expenditures, with the number of children taught, it appears that the average cost of teaching each scholar per year is \$25, or one dollar thirty cents per quarter.

The School Directors labour under considerable inconvenience in procuring comfortable and otherwise suitable School Rooms for all the Schools. Ten School Rooms are now rented at a cost of about \$450. While but four School Rooms are situated on the "Old College Lot" owned by the School District; this School House is now rented at a cost of about \$100. The Board has thus far been prevented from building for the necessary funds in the hands of the District Treasurer at the last year's settlement, June 1, 1839, was \$955 05 in addition to this balance, a sum of \$1000 was received from the sale of the property of the year just ending, was levied by the Board of Directors, and the citizens, as will appear from the statement appended to the report of the year just ending, that the said balance of \$955 05 be set apart for the building of an additional School House on the "Old College Lot."

On a comparison of the expenditures, with the number of children taught, it appears that the average cost of teaching each scholar per year is \$25, or one dollar thirty cents per quarter.
