OUR OWN COUNTY -- We feel no disposition to deceive our friends abroad by false calculations, or to brag or bluster about what we intend to do in Cumberland. Our desire is to state as nearly as possible the truth. We believe that we shall be able to give a small majority to the Harrison Electoral Ticket. We believe that we can, with a full turn-out, perfect union, and proper exertion, elect our County Ticket -but the chances are against us, and we expect to be beaten by from 150 to 250 majority. Still, we insist upon it that the issue is in the hands of the Harrison party of the county-they can elect the ticket if to a man, and act like men and like patriots when they are there. They must strain every nerve, and put in requisition every fair means in their power. They must not suffer themselves to be brow-beaten by the Locofocos. Modesty at the ballot-boxes are absolute requisites on the day of election. Insult no one-deceive no one; but vindicate and advance your principles honsion. Talk to and win every man you can by the force of truth. See that our Tickets are placed in charge of vigilant men and faithfully distributed; see that they are in the 13th and on the 30th and VICTORY will reward your exertions. We can poll 2700 votes in the county. What say you, friends, shall we triumph or be defeated?

MAINE ELECTION!

We believe that every thing we publish ed last week, in relation to the Maine clection, has been fully confirmed. The victory is glorious beyond precedent, and the poor Locos feel as though they would like to sell themselves for something less than a picayune alread. The Whigs of Baltimore celebrated the victory by firing 300 guns, and gunpowder has been ignited for the same patriotic purnose in nearly all the great cities bordering on the seaconst. In Carlisle, on Thursday night last, Mr. Macfarlane's Hotel was beautifully illuminated, and "three cheers for Maine" testified the lively interest felt for the liberty and welfare of the Republic by the Whigs of

We may as well prophecy as our neighbors. The last Volunteer publishes calculation giving Van Buren over 21,000 najority in Pennsylvania. That's what we call "gammon."
