The house is remarkably well calculated for enter-taining BOARIERS; there being three stair-ways, and Fire places in most of the rooms. The situation is very pleasant and, desirable, being on the north-west corner of Hanover and Louther streets; while, for conveniences, it excels any other house in the borough or country. It possesses the unusual advantages of 12 rooms on the first floor, 12 rooms on the second, and 4 rooms on the third floor. Two wells of water; (one at the front door on Louther street, with a pamp therein; the other in the yard at the kitchen door;) a Cistern made to contain eighty-five hogsheads; large and convenient stabling, with carriage house and sheds; large and excellent garden attached to the buildings; besides many conveniences not specified. For particulars enquire of CHRISTIAN HUMRICH, Carlisle, Nov. 25, 1840,—tf.

IMPORTANT TO MILLERS & MANUFACTURERS.

This is to certify, that I have put in one of Howal's Patent Castiron Direct Action Water Wheels, in place of a Reaction Wheel, that the Direct Wheel does not flood the tail race as much by three inches as the reaction did, and that I can grind seven bushels with the direct action wheel an hour, and drive two run of stones, where I could not grind four bushels in the same time with the reaction and drive one run of stones.

Alloway, May 5, 1838.
This may certify, that I have been engaged in putting in S. B. Howd's east iron direct action water wheel, both in the State of New York and in Michiwheel, both in the State of New York and in Michigan, and can give it as my decided opinion that with 8 feet head or under, rightly put in, it will do more business with the same water than any other water wheel which I have yet had any experience in, and in reference to back water, is second best to none that I have yet tried. In reference to guarding against ice, there can be no better operation, and it is very easy to have kent in repair.

to be kept in repair.
STEHEN AILES, Millwright.

Alloway, Sept. 3, 1838.

This may certify that I have had in my Mill one of Mr. Howd's direct water wheels for the space of one year. It is a five feet wheel and I have had a reaction in the same place—I have also had Wheeler's Union Wheel, yet I think Mr. Howd's will do more business with less water than any other I have tried. It does well in back water. I have had from 5 to 6 feet head. I think we could do as much work with half the water as we used to do with the undershoot wheel, which has also been in operation in my mill.

LAWRENCE RILEY,

Lyons, Sept. 3, 1838,

This may certify, that we have used one of S.
Howd's patent water Wheels since December last, by
the side of a re-action wheel, and we think that
Howd's will do double the business with the same
water that the re-action will do, or very near: We
never have but three feet head, and can grind with
that eight bushel per hour. We are subject to backwater. This wheel will do as good business under
back-water as the re-action, and we recommend it to
the attention and patronage of the public.

Hair Tonic .-- We call the attention of those af-Hair Tonic.—We calk the attention of those afficied with premature baldness, to the excellent Hair. Tonic prepared by Dr. Jayne of this city. Having used it ourselves, we can speak of its virtues by experience, and we unhesitatingly pronounce it an invaluable remedy to prevent the falling off ofthe hair, and to restore it from a dead; to a fine; healthy appearance. We can also speak from personal knowledge of the cases of two or three friends who were predisposed to baldness, who by the use of Jayne's Hair. Tonic, have now luxuriant hair. We have no disposition to puff, indiscriminately all kinds of remedies for all diseases which flesh is heir to, but when we liave tested the virtue of an article, we are free to say it is good.—Saturday Evening Post.

Because science and experience teach us, that no mere purgative alone will cure the diseases of the Stomach and Nerves. Weakness is the primary cause of a host of diseases, and, by continually resorting to DRASTIC purgatives, you make the disease much worse, instead of better.

Because Dr. Harlich's Medicines are put up upon the common sense principle, "to cleanse and strengthen," which is the only course to pursue to effect a cure. Lastly,

Winslow's Balsam of HOREHOUND.

An imparalleled remedy for common Colds, Coughs Asthma, Influenza, Whooping Cough, Bronchitis, and all diseases of the Breast and Lungs, leading to Consumption; composed of the concentrated virtues of Horchound, Boneset, Blood Root, Liverwort and several other vegetable substances. Prepared only by J. M. WINSLOW, Rochester, N. Y.

The influence and universally admitted pectoral virtues, of the Herbs from which the BALSAM OF HOREHOUND is made, are too, generally known to require recommendation; it is therefore only necessary to observe that this medecine contains the whole of their medical properties, highly concentrated, and so happily combined with several other vegetable substances, as to render it the most speedy, mild and certain remedy, now in use, for the Complaints above mentioned.

Tor Children, this Balsam is of inestimable value. It is a speedy remedy for the Whooping Cough and Croup, and affords certain relief in Bowel Complaints, Choice, Teething, &c. It is pleasant to the taste, and may be safely given to the tenderest infant and should be kent at all times in every family, as it is, much better for the complaints incident to Children, than Paregorie, Godfreys Cordial, or the Cordinis ocommonly used, as hundreds in this City have testified.

Read the following.—I hereby certify that early in the spring of 1838, I contracted a severe COLD, which settled upon my lungs, and threatened a hasty Consumption. I used several prescriptions, but obtained little or no relief; I was much alarmed.—Happening to be in Rochester, I was advised by my friend, Mr. Winslow, to try a bottle of his BALSAM of Honeriounds: I did so, and to my superise obtained relief at once—and by the use of that single bottle was perfectly restored to health. To those afflicted with Colds or Coughs, at this inclement senson, I say "go and do likewise."
