CARLISLE. WEDNESDAY, DECEMBER 23, 1840.

AUCTION SALES.—Messrs. Hines & Maloney advertise a sale of Dry Goods at Auction on the 23rd and 24th of the present month.

Messrs. Arnold & Co. will commence the sale of their stock of Dry Goods at Auction on the 11th of January 1841, at 9 o'clock A. M.

The Cabinet.

We believe it is now very generally admitted that DANIEL WEBSTER will, (as undoubtedly he ought) occupy the first place in the Cabinet of President HARRISON. Indeed it is asserted in various quarters, and we think upon very good authority, that the State Department was tendered to him in the early part of the session, and accepted.

We cannot name, with any certainty, the individuals most likely to be placed at the heads of the other Departments. The probability, however, is, that THOMAS EWING, of Ohio, will occupy the Treasury, or any other station which will be more acceptable to him.

CONGRESS.

Our Congressional proceedings are complete to Wednesday the 16th inclusive. On Thursday and Friday's proceedings we can afford but an abstract. In the Senate, on Thursday, Mr. Merrick introduced a bill to revive and continue Banking privileges in the District of Columbia.

FALLING OF THE CHANDLER.

The magnificent chandelier of the House of Representatives, which attracted so much admiration, is a mass of ruins. About ten o'clock on Wednesday morning it fell with a tremendous crash, and the elegant lamp, shades and chrysal drops, and richly wrought ornaments, were shattered to pieces.

in some respects, differ from the pre-conceived opinions of thousands. Our own preference is known—but we are prepared to try fairly, and judge impartially, any other appointee.

The Harrisburg Correspondent of the Philadelphia Enquirer, urges with considerable force, the policy of selecting Mr. PENROSE to represent the Keystone State in the Cabinet.

"HARRISON'S CABINET.—The friends of Harrison in Pennsylvania seem desirous of furnishing a member of the new cabinet. This is no more than they are entitled to if the conflicting claims can be reconciled.

It will be remembered that we quoted similar sentiments into our last paper, from the Register & Examiner, the only other Harrison paper published, now, in Chester county.

The Pennsylvania Enquirer expresses regret that "ill-feeling exists between the friends of Messrs. Penrose and Stevens." This is a mistake—no such feeling is entertained—at least not by the friends of the first named gentleman.

O, THE "MONSTER"—A letter from Washington says: "The Bank of the United States is now paying off its bonds due to the government, and paying them in specie. This is a fortunate supply for the Treasury, which according to all accounts was getting quite low.

GIVE GENERAL HARRISON A FAIR CHANCE.

From the Richmond Whig. We appeal thus early to the People—the honest masses, who have no end to serve by politics, but their country's honor and good—to the farmers especially—who, like them, hope, expect, desire nothing but Liberty and Glory.

A SOUND BANK.—An exchange paper states that "an investigation into the affairs of the Halfpenny Bank (New Hampshire) shows a deposit of Ten Dollars in specie, and about Forty Dollars in the notes of other banks, to redeem a circulation of Thirty Thousand Seven Hundred and Six Dollars."

LEGACIES OF JACKSONISM AND VAN BURENSM TO THE AMERICAN PEOPLE.

1. A Bankrupt Treasury. 2. An insolvent Post Office. 3. A six years' war with 400 Indians and their Squaws. 4. A new National debt of from 20 to 30 millions of dollars.

Mr. Editor.—The Executive Committee of the Cumberland County Temperance Society, beg leave to inform you and your readers, that though they stand pledged to aid in furnishing matter for the Temperance Department of your paper, they are far from wishing to monopolize the whole to themselves.

Ohio.—The Legislature of Ohio commenced its annual session at Columbus, on Monday the 7th instant.

Population of New York.—Returns of the late census are in from 54 counties of New York, which exhibit an aggregate increase, as compared with the state census of 1835, of 136,191. The data afforded by these counties being deemed fair, it is supposed that the increase throughout the state, during the last five years, is 221,000, and consequently that the total population of the Empire State is now upwards of two millions four hundred thousand.

From the Cincinnati Chronicle, Dec. 2.

RICHES OF OHIO.—We recently took occasion to illustrate the great resources of our country, and especially the Western portion of it, by the statistics of a part of Monroe county, N. Y.

We shall now continue the illustration of this fact, by the agricultural statistics of Wayne county, Ohio, as published in the Wooster Democrat.

Wayne county is a large county containing some 7 or 800 square miles, on the great central table land of the State.

We will now see what proportion of bread-stuffs, or what may be deemed the staff of life to man is raised in this county.

Table listing agricultural products and their values: Wheat 753,000 bushels, Rye 50,000, Buckwheat 20,000, Corn 395,000, Potatoes 132,000.

For the Herald & Expositor.

Mr. Editor.—The Executive Committee of the Cumberland County Temperance Society, beg leave to inform you and your readers, that though they stand pledged to aid in furnishing matter for the Temperance Department of your paper, they are far from wishing to monopolize the whole to themselves.

The suggestions of the first paragraph render it necessary to add, that the Committee, as such, can be held responsible only for what goes out under their express sanction; and this will in all cases be formally given.

Dec. 18, 1840.

The Executive Committee of the Cumberland County Temperance Society hereby re-notify throughout the county, of the meeting of the State Temperance Convention in Harrisburg, on the 12th of January next.

Mr. Editor.—It has been a thousand times asked, "What advantage will it be to me to sign a pledge?" Let me give an illustration, by the following anecdote, from the Maryland Temperance Herald:

THE INCH AUGER.

If any of our readers are desirous of seeing what, in the dialect of the day, would be denominated "a good one," let them read the "Inch Auger." We find the story in the editorial columns of the "Maine-Temperance-Gazette."

Hays' Liniment.

This extraordinary medicinal composition, the result of science and the invention of a celebrated medical man, the introduction of which to the public has rivaled with the solemnity of the execution of a royal warrant, has since gained a reputation unparalleled, fully sustaining the correctness of the lamented Dr. Hays' last conclusion, that "he thought not die without giving to posterity the benefit of his knowledge on this subject," and he therefore bequeathed his friend and attendant, Solomon Hays, the secret of his discovery.

NOTICE.

The Blind Piles, said to be incurable by external applications,—Solomon Hays warrants the contrary. His Liniment will cure Blind Piles. Pains are more stubborn than the cure. His advice is to consult the physicians to try it upon their patients. He will do them no harm and it is known that every physician who has had the honesty to make the trial, has candidly admitted that it has succeeded in every case where it has been used.
