is constructed altogether of iron and not so expensive to make as an undershot, and operating with about half the water and not liable to be obstructed by ice in the winter. The subscriber will devote his attention to calls for these wheels at such places as may be required.

MICHAEL M'MATH, Harrisburg.

This is to certify, that I have put in one of Howd's Patent Cast Iron Direct Action Water Wheels, in place of a Reaction Wheel, that the Direct Wheel does not flood the tail race as much by three inches as the reaction did, and that I can grind seven bushels with the direct action wheel an hour, and drive two run of stones, where I could not grind four bushels in the same time with the reaction and drive one run of stones.

EETER FAHNESTOCK.

Euphrata, Lan. co. Oct. 1838.

Alloway, Sept. 3, 1838.

This may certify that I have had in my Mill one of year. It is a five feet wheel; and I have had a reaction in the same place—I have also had Wheeler's Union Wheel, yet I think Mr. Howd's will do more business with less water than any other I have tried. It does well in back water. I have had from 5 to 6 feet head. I think we could do as much work with half the water as we used to do with the undershoot wheel, which has also been in operation in my mill.

DR. WISTAR'S BALSAM OF WILD-CHERRY DISEASES OF THE LUNGS.

NUMEROUS remedies have been offered and puffed into notice for dismensional formation of the control of the con TUMEROUS remedies have been offered and puffed into notice for diseases of the Lungs, some of which has undoubtedly been found very useful, but of all that have hitherto been known, it must be universally acknowledged there is none that has ever proved as successful as the "BALSOM OF Cessary to observe that this medecine contains the be universally acknowledged there is none that has ever proved as successful as the "BALSOM OF WILD CHERRY."

ever proved as successful as the "BALSOM OF WILD CHERRY."

Such indeed are the astonishing restorative and healing properties of this "Balsam;" that even in the worst forms of Consumptioni when the patient has suffered with the most disfressing cough, violent pains in the chest, difficulty of breathing, night sweats, bleeding of the lungs, &c. and when the most esteemed remedies of our Pharmacopias had failed to afford any relief, and even when Botanic, Homopathic, and numerous other remedies, had been used for many months in vain, this invaluable remedy has checked every symptom, and been productive of the most astonishing relief. In the early stages of the disease, proceeding tyem neglected colds, termed Catarrhal Consumption, it has been used with undeviating success, and in many instances, when this disease seemed to have marked its victim for an early grave, the use of this medicine has avrested every symptom, and ed to have marked ite victim for an early grave, the use of this medicine has arrested every symptom; and restored the lungs to a state of perfect health.

In that form of Consumption, soprevalent amongst delicate young females; commonly termed debility, or "going into a decline," a complaint with which thousands are lingering; it has also been used with surprising success, and not only possesses the power, of checking the progress of this alarming disease, but at the same time strengthens and invigorates the whole system more effectually than any remedy we have ever possessed.

have ever possessed.

1 LIVER COMPLAINT --- In diseases of the Liver, particularly when attended with a cough, indigestion or wandering pains in the side, it has also proved very efficacious, and cured many cases of this kind after the most powerful remedies had failed.

ASTIIMA.—In this complaint it has also been used in numerous instances with the most singular-success. It opens the chest, rendering the breathing perfectly free, arrests the cough, and will seldom fail to give permanent relief. to give permanent relief.

BRONCHITIS.—As a remedy in all Bronichial affections of the throat, attended with a hoarseness, cough or sore in the throat, it will also be found a very effectual remedy, and will mostly afford inmediate relief if used at the commencement of its

attack.

COUGIIS & COLDS.—In common coughs and colds, that prevail so extensively throughout the winter, it will be found much more effectual than any remedy in use, and when colds settle upon the lungs, causing an inflammation with pains in the breast, difficulty or shortness of breathing, &c., the use of this Bulsam will suppress such symptoms immediately, and at the same time prevent the lungs from becoming more seriously diseased.

CROUP AND WHOOPING COUGH.—In these complaints, so common to young children, this Bulsam will be found much superior-to-the-Paregorie Elixir Syrup of Squills, and the various cough mixtures in common use, as it is entirely free from any thing the least infurious, and may at all times begiven to children with perfect safety, and with the certainty of its affording them speedy relief.

thinty of its affording them speedy relief.

AS A FAMILY MEDICINE for many officer complaints, this Balsam will also be found particularly useful. Besides having proved an invaluable remedy in all Pulmonary affections, it exerts a powerful influence over many diseases depending on a deprayed condition of the system, and those who have suffered from the indiscriminate use of Mercury, or other deleterious drugs, that are often compounded in different quack nostruing, will find it a remedy of great value, possessing the power of strengthening and invigorating the whole system more effectually than any other medicine we possess.

certain cure for bowel and summer complaints, diar-rho, dysentary cholic, cramps, sick headache, sour-stomach, cholera morbus, and all derangements of the stomach and bowels, nervous affections, &c.--Price Also JAYNE'S SANATIVE PILLS, for Female discases, liver complaints, costiveness, fevers, inflam-mations, glandular, obstructions, discases of the skin,

Jayne's Hair Tonic, for the growth, preservation and restoration of the hair. This is an excellent article, and has, in numerous instances, produced a fine growth of hair on the heads of persons who had been hald for years.

Indicate the ads of persons who had been bald for years.

LADIES AND GENTLEMEN, —Do you wish elegant, luxuriant and beautiful bair? I know you will answer yes. Hear, for one moment, the cause of its loss, why it turns gray, rusty and course, harsh and unpleasant in its appearance, and finally fulls off. Each bair has a root in the skin, and is itself a hollow tube, through which there is a constant circulation of fine blood.—By this circulation the hair is nourished and held fast, its glossy colour is given and preserved, and it is covered with the finest oil.—Now any thing which injures the skin of the head, or diverts or takes away the blood from it, will prevent or impede the circulation through the tubes of the hair, stop its growth, and cause at to full off or turn, gray, or both. Hence it is that any cause that obstructs or weakens the circulation of blood through the skin, or that diverts the blood to other parts of the system, will take away the lively, fresh and youthful appearance of the hair, arrest its growth, turn it gray sooner or later, and in thousands of instances cause premature baldness.

Huir Tonic,--- We call the attention of those afflicted with premature baldness, to the excellent Hair Tonic prepared by Dr. Jayne of this city. Having, used it ourselves, we can speak of its virtued by expe-Are a purgative medicine, so natural to the human constitution, and withal so mild, and pleasant in their operation, that not the slightest dread of pain or sickness, need he apprehended from their use, even by the most delicate: at the same time, if used in such a manner as to operate freely by the bowels; those morbid humors, (which deposited upon the various parts of the body are the cause of every ache or pain we suffer) will most assuredly be removed; and not only will-pain, or distress of every desceription be driven from the body, but disease in any form will be impossible.

Tised it ourselves, we can speak of its virtueed by experience, and we unhesitatingly pronounce it an invaluation in the surface, and we unhesitatingly pronounce it an invaluation constitution, and withal so mild able remedy to prevent the falling off of the hair, and to restore it from a dead, to a fine, healthy appearance. We can also speak from personal knowledge of the bases of two or three friends who were predisposed to haldness, who by the use of Jayne's Hair Tonic, have now luxuriant hair. We have no disposition to puff, indiscriminately all kinds of remedies for all diseases which flesh is heir to, but when we have tested the virtue of an article, we are free to say the from the body, but disease in any form will be impossible.

only with party of the course, the perspiration is checked; and those humors which should passoff by the skin, are thrown inwardly, causing headache, nauseau, and sickness, palies in the bones, watery and inflamed eyes, sore throat, hoarseness, coughs, consumption, rheumatic pains in various parts of the body, and many other symptoms of catching cold, the Indian vegetable Pills will invariably give immediate relief.

Three or four pills, taken at night on going to bed, and repeated a few times, will remove all the above unpleasant symptoms, and restore the body to even sounder health that before.

The Indian Vegetable Pills, (Indian Purgative) are a natural, and therefore a certain cure for Costiveness because they cleanse the stomachand-bowels of those billious humours, which not only paralyze, and weaken the digestive organs, but are the cause of headache, museau and sickness, palpitation of the heart, flying pains in various parts of the body, and many other disagreeable complaints. The same may be said of difficulty of breathing, or ashma; the Indian Vegetable Pills will-loosen and carry off by the stomneh and bowels, those tough pighmy humors which stop up all air cells of the lungs, and are the cause of the above drawn of the lungs, and are the cause of the above drawn of the lungs, and are the cause of the above drawn of the lungs, and are the cause of the above drawn of the lungs, and are the cause of the above drawn of the lungs, and are the cause of the above drawn of the lungs, and are the cause of the above drawn of the lungs, and are the cause of the above drawn of the lungs, and are the cause of the above drawn of the lungs, and are the cause of the above drawn of the lungs, and are the cause of the above drawn of the lungs, and are the cause of the above drawn of the lungs, and are the cause of the above drawn of the lungs, and are the cause of the above drawn of the lungs, and are the cause of the above drawn of the lungs, and are the cause of the above drawn of the lungs, and are the cause of t

business with less water. I have had from 5 to 6 [see thead. If think we could do as much work with half the water as we ared to do with the undershoot half the water as we ared to do with the undershoot when the other hand the well as the subject to have the subject to have the hand the water as we ared to do with the undershoot than theories. He solicits all respectable half the water as we ared to do with the undershoot when has had the honesty to make the trial, has cannilly admitted that it has succeeded in every case they have known. Then why, not use it? It is the whole will do done be the business with-the same if water that the re-action, wheel, and we think that How'ds will do done business under the water. This wheel will do do as good business under water. We have the water that the re-action, and we recommend it to the attention and patronage of the public.

Which was a proprietally medicine. It will do be back-water as the re-action, and we recommend it to the attention and patronage of the public.

essay to observe that this indeeding contains the whole of their medical properties, highly concentrated, and so happily combined with several other vegetable substances, as to render it the most speedy, mild and certain remedy, now in use, for the Complaints above mentioned.

For Children, this Balsam is of inestimable value, the contained when the contained to the Wheeting Countered.

Pittsford, Monroe co., Nov. 9, 1838.

Mr. John Mr. Winslow, Druggist,

Dear Sir: I have been for a series of years afflicted with an affection of the Lungs, and a hard cough, and have many times arose in the morning as completely exhausted by excessive coughing during the night as a person would be by a hard days labor. I thave tried most of the popular remedies of the day, but never found relief until 1 met with your Balsam of Horchound. All the other remedies or palatives, that I have used, leave the bowels in a congested state, while yours leaves them soluble and free. This I consider a great desideratum. On taking a dose of your Halsam when going to bed, I rest quietly throthenight, and my sleep is refreshing. I take great pleasure in recommending your Balsam of Horchound to all those afflicted with pulmonary of the plaints or any disease appertaining to the lungs, and plaints or any disease appertaining to the lungs, and I take this opportunity to thank you for the great relief and benefit I have experienced through your instrumentality. Yours, with much respect.

WM. COGSWELL.
