ever proved as successful as the "BALSOM OF WILD CHERRY."

Such indeed are the astonishing restorative and healing properties of this "Balsam;" that even in the worst forms of Consumption, when the patient has suffered with the most distressing cough, violent pains in the chest, difficulty of breathing, night sweats, bleeding of the lungs, &c. and when the most esteemed remedies of our Pharmacopias had failed to afford any relief, and even when Botanic, Homospathic, and numerous other remedies, had been used for many months in vain, this invaluable remedy has checked every symptom, and been productive of the most astonishing relief.—In the early stages of the disease, proceeding from neglected colds, termed Catarrhal Consumption, it has been used with undeviating success, and in many instances, when this disease seemed to have marked ite victim for an early grave, the use of this medicine has arrested every symptom, and restored the lungs to a state of perfect health.

In that form of Consumption, soprevalent amongst delicate young females, commonly termed debility, or "going into a decline," a complaint with which thousands are lingering, it has also been used with surprising success, and not only possesses the power of checking the progress of this alarming disease, but at the same time strengthens and invigorates the whole system more effectually than any remedy we have ever possessed.

Or Liver Complaints above mentioned in the most speedy, middled network in the east of instance, highly occurs in the constitution of the whole of their medical properties, highly concintrate each of the west of the rediction of the whole of the instance, and hold and eretain remedy, now in use, for the Complaints of one that the same is of inestimable value.

For Children, this Balasam; is of inestimable value.
