Hays' Liniment.

This extraordinary chemical composition, the result of science and the invention of a celebrated medical man, the introduction of which to the public was invested with the solemnity of a death-bed bequest, has since gained a reputation unparalleled, fully sustaining the correctness of the lamented Dr. Gridlley's last confession, that "he dared not die without giving to posterity the benefit of his knowledge on this subject," and he therefore bequeathed to his friend and attendant, Solomon Hays, the secret of his discovery.

It is now used in the principal hospitals, and the private practice in our country, first and most cer-tainly for the cure of the PILES, and also extensive-ly and effectually as to boffle credulity, unless where its effects are witnessed. Externally in the follow-ing complaints:

Its operation upon adults and children in reducing rheumatic swellings, and loosening coughs and tightness of the chest by relaxation of the parts, has been surprising beyond conception. The common remark of those who have used it in the Piles, is "It acts like a charm."

To Plusicians and Patients.

The Blind Piles, said to be incurable by external applications.—Solomon Hays warrants the contrary to His Liniment will cure Blind Piles. Facts are morg stubborn than theories. He solicits all respectable physicians to try it upon their patients. It will do them no harm, and it is known that every physician who has had the honesty to make the trial, has candidly almitted that it has succeeded in every case they have known. Then why not use it—It is the recipe of one of theirmost respectable members, now deceased. Why refuse to use it? Because it is sold as a proprietiny medicine? Is this a sufficient execuse for suffering their honest patients to linger in distress? We think not. Physicians shall be convinced that there is no humbug or quackery about this article.—Why then not alleviate human suffering? If they won't try it before, let them after all pher prescriptions fail. Physicians are respectfully requested to dothemselves and patients the justice to use this article. It shall be taken from the bottles and done up as their prescription if they desire.
