We publish the following remmendations from some of those who are using the stove, to encourage others to try it.

Carlisle Sept. 12, 1841.

I have in use in my kitchen one of Hathaways patent Hot Air Cooking Stoves, and can recommend it as a very superior article. The one I have is No. 3. It has 5 boilers and an oven sufficiently large to bake its loves of bread. The baking, roasting and broil-ing can all be done at the same time and with meuh less word than is required for any store which we This size appears to be peculiarly calculated for Farmers, and for their benefit I invite them to call and see this stove in use, as I shall take pleasure in showing this stove to all whom interest or curiosity may induce to examine it.

Bargains may yet be had in these articles of merchandize by calling soon.

SIMON WUNDERLICH. Carlisle, Sept. 11, 1841.

Messrs. E. Robinson & Co.—Gentlemen, I have during the few days I have had your Hathaway's Hot Air Stove in use, become convinced of its great superiority over all other stoves I have used or seen. I find by the trial that boiling, roasting, baking and broiling may all be done at the same time, in a. most perfect manner, and with less than one fourth the fuel I have ordinarily used for the same purposes. I have heretofore been of the oningon that purposes. I have heretofore been of the opinion that bread could not be well baked in a cooking stave, but I am convinced upon trial that it can be done as well in your stove as in a brick oven.

I believe that the general introduction of your work stove into use will be very beneficial to the public, fashiotherefore I shall take pleasure in recommending it.

Car to my friends. Yours respectfully, WILLIAM MOUDY.

Carlisle, Sept. 10, 1841.

Messrs. E. Robinson & Co.—Gentlemen; I have fairly tested the "Hot Air Stove" which you put up fairly tested the "Hot Air Stove" which you put up at my house, and can recommend it as possessing principles of economy and convenience far surpassing any other stove which I have ever seen.

The boilers coming in immediate contact with the fire gives it great facilities for boiling, and the oven is heated on such a principle that bread is baked in as fine a manner as in a brick oven. I find it also a great saving of fuel and labour, and would advise all to adopt it.

DR. SPOHN'S

Davies Panacea Blood Pills,

For the cure of comsumption, diseased wind-pipe, ulcerated, sore throat, lungs and liver complaint, night sweats, flushes of heat, burning in the stomach tightness across the chest, pains in the breast and side, inward enneers, piles, sore eyes, sore legs, ulcers of every description, swellings, rheumatisms; they stop the spirting of blood and heal the part affected. The Panacea Blood pills are prepared expressly for the stignificant of every part of the system and healing all ulcers and sores, purifying and removing all bad humors from the blood, which is often brought on from too much sitting or standing, or by exposure from sudden heat to cold. Weakly debilitated persons are particularly advised to use them, as they strengthen the body in a superior manner; they are not intended to operate on the bowels so much as on the blood, as too much purging will destroy any weakly constitution, and has carried off its thousands to a world unknown to us. Take the advice of one who studies to save life and not to kill; weakly and debilitated persons should not purge more than once a year as it often times brings on costiveness.
