I have in use in my kitchen one of Hathaways patent Hot Air Cooking Stoves, and can recommend it as a very superior article. The one I have is No. 3. This size appears to be peculiarly calculated for Farmers, and for their benefit I invite them to call and see this stove in use, as I shall take pleasure in showing this stove to all whom interest or curiosity hay induce to examine it.

I find by the trial that boiling, roasting, haking and broiling may all be done at the same time, in a most perfect manner, and with less than one fourth the fuel I have ordinarily used for the same purposes. I have heretofore been of the opinion that bread could not be well baked in a cooking stove, but I am convinced upon trial that it can be done as

Messrs. E. Robinson & Co.—Gentlemen, I have fairly tested the "Hot Air Stove" which you put up at my house, and can recommend it as possessing principles of economy and convenience far surpassing any other stove which I have ever seen.

The boilers coming in immediate contact with the fire gives it great facilities for boiling, and the oven is heated on such a principle that bread is baked in as fine a manner us in a brick oven. I find it also a great saving of fuel and labour, and would advise all to adopt it.

fittal and distressing disease. It is indeed a mainted to the truth, that thousaids fall victims to Consumption evelry year from no other cause than neglected colds. Yet we find hundreds, my thousaids who treat such complaints with the greatest midifference, and let them run on for weeks and even months without thinking of the danger. At first you have what you may consider a slight cough or cold; you allow business, pleasure or carelessness to preventy ou from giving it any attention; it then settles upon your breast, you become hourse, have pains in the side or chest, expectorate large quantities of matter, perhaps mixed with blood, a difficulty of breathing ensues, and then you find your own foolish neglect has brought on this distressing complaint. If then you yalte life or health, be warned in time, and don't triffe with your Cold, or trust to any quack nostrum to erre you, but immediately procure a bottle or two of that famous remedy, the "Baisast or With Cherry?" which is well known to be the most speedy cure ever known, as thousands will testify whose cure ever known as thousands will testify whos lives have been saved by it.

To Dr. WISTAR—Dear sir, it gives me great pleasure to say, I have found much relief from your Balsam that I have to send to you for more. I have only used three bottles out of the half dozen I purchased, yet it has done me more good than all the medicine I have ever taken before. A neighbour of mine whose wife was very low with Consumption, persuaded me to let him have some of it, and bought three bottles, which she has taken also. I saw her a few days ago, and she told me she believed it was the only thing that had saved her life. She had tried every thing before, but nothing didher any good, and when she commenced taking it was sick in bed, but is now up, and looks better than I ever saw her before. As for myself: I am sure it will cure me entirely, for I feel better every day. Send me six bottles more by the bearer, as my neighbor wants three more. Williamsburg, Sept. 4, 1841.
