

FARMER'S CORNER.

Irregular shoots displaced, so as to give shape and form to the heads.

WORK FOR JUNE.

June, the first of summer months, with its clear sky and warm sun, has come, bringing with it its joys, its toils and its pleasures.

Upon the Farm.

Wheat.—Owing to the openness of the last winter, and the favorable condition of the weather throughout the spring, the wheat crop is well advanced.

In the Garden.

Potatoes.—Weed and hill up your early potatoes, and be sure to get them well covered with soil.

Water Melons, Cantaloupes, Musk Melons, Squashes and Cucumbers.

Water melons, cantaloupes, musk melons, squashes and cucumbers, must all be thinned now.

Small Salads.

Small salads, such as lettuce, endive, and other greens, should be sown now.
