The bill relative to cancelling the Relief Notes: &c. was returned from the House, with amendments, and it was ordered to be printed, and made the order for the following day. The bill for the reduction of the stock of the Western Bank of Philadelphia, passed final reading. The result of the debate was a very general disapproval of the amendments.-Among those non-concurred in were the follows ing, viz: The allowance of 30 days to the Banks to say whether they will accept the provision to redeem the Relief Notes in gold or silver, (The Senate proposes 60 days,) To suspend all work on the unfinished lines, and employ but one Engineer, &c. To sell the stock held by the Commonwealth in private corporations, This Bill wil most likely be returned to the House on Monday, with a message apprizing it of what the Senate has done. When, I anticipate, a pretty warm discussion on the subject, and 'particularly in reference to the retention of the Senate's provision that the work shall be progressed in on the unfinish. ed lines. I am very much mistaken if Mr. Stevens ed lines. I am very much mistaken if Mr. Stevens are moderate and stocks at present light. Rye at least, won't have something to say. Mr. Sherwood offered a resolution, which was adopted, viz; that the Judiciary Committee in quire into the expediency of bringing in a bill authorizing the Treasurers of the several counties to put up at public sale any of the unseated lands rate from stores, although some refuse to sell at within their respective Counties for taxes due and less than \$6.50 per bbl. City Mills has sold generunnaid, and limiting the time for redemption ally, but moderately, at \$5 621; and under some to one year. The resolution for the payment of the Domestic Creditors was again under consideration and discussion up to the hour of adjournment. An amendment offered by Mr. STEVENS, was agreed to—that all payments heretofore made to Contractors shall be applied to work done prior to the 4th of May, 1841. Mr. Boone's amond. ment was also agreed to, "not to allow pay, at this time, for work done after the 4th May, 1841." The impression on my mind is from all I can learn in the Houses and out of them, that no bill can be passed at the present session, making provision for those contractors who went on with their work after the 4th May, 1841. They will, most probably, be doomed to wait until the Treasury is in a more flourishing condition As for those to whom money has been owing for years, for to whom money has been owing for years, for ance passed on eastwardly. HARRISBURG, June 20th, 1842. In the Senate, Mr. Spackman reported a bill to peal the act passed at the last session, to enable of its effects. Mr. Farrelly reported a bill to authorize Canal Commissioners to place passenger cars on the State rail roads, with a recommendation that it be negatived. Mr. Maclay offered a resolution for the appointment of a committee of eleven on the subject of the apportionment of the State into Congressional Districts, with leave to confer with the Committee appointed by the House on the subject; adopted. Mr. Gorgas offered a resolution calling upon the Auditor General for a statement of the condition of the Banks on the 1st of May last. The Bill to recharter the Farmers' bank of Reading was lost on third reading .- Yeas 14.

In the House, Mr. Snyder presented a petition to compel the Susquehanna Canal Company to take their own notes in payment of toll. Mr. Deford presented a memorial from the Bank of Pennsylvania asking for relief. Also, a petition from Fayette, Washington and Green counties comallege that he interferes most unwarrantably in of Cumberland County at the ensuing general matters of trial by jury, and ask an inquiry into the abuses, &c. Mr. Gamble presented the proceedings and memorial of the Convention of Domestic Creditors held here last week .-

Messrs. Hill and Johnston presented petitions to rohibit brokerage in this Commonwealth. Mr. harswood presented a remonstrance from James Dundas and others, of Philadelphia, against the such notes were held by the debtors at the time of the assignment. The resolution offered a few days since, asking information of the Canal Con ssioners as to the alleged conspiracy of persons control the business done on the State works, was taken up, amended and then adopted. The resolution to prevent persons from travelling free of just recei expense on the Rail Roads and Canals of the State, and for other purposes, which was vetoed and re urned to the House, was taken up, and a question of consideration was agreed to, and then the Yeas and Nays were called, in pursuance of the Constiution on its passage. The vote stood 42 to 47, so the bill was consequently rejected. Mr. Straub offered a resolution, which was adopted, to inquire into the expediency of reporting a bill for revising the statutes on Writs of Habeas Corpus. The rest of the day was occupied with the bill-for-thepayment of Domestic Creditors, which passed second reading at 6 o'clock this evening. Z.

THE CAUSE OF CONSUMPTION.—Simple as these complaints are usually considered, as one can deny their being the most common cause of this fatal and distressing disease. It is indeed a melancholy truth, that thousands fall victims to Cousumption every year from no other cause than neglected falds. Yet we find hundreds, nay thousands who treat such complaints with the greatest indifference, and let them run on for weeks and even months without thinking of the danger. The baking, reasting and broiling can all be done at the same time and with much less wood than is required for any stove which we have used. "This size appears to be peculiarly calculated for Farmers, and for their benefit I invite them to call and see this stove in use, as I shall take pleasur in showing this stove to all whom interest o curiosity may induce to examine it.

SIMON WUNDERLICH. CARLISLE, Sept. 11, 1841.

Messrs. E. Robinson & Co.—Gentlemen, I have during the few days I have had your Hathaway's Hot Air Stove in use, become convinced of its great superiority over all other stoves I have used or seen. I find by the trial that bolling, roasting, baking and broiling may all be done at

CARLISLE, Sept. 10, 1841.

Messrs. E. Robinson & Co.—Gentlemen, I have fairly tested the "Hot Air Stove" which you put up at my house, and can recommend it as possessing principles of economy and convenience far surpassing any other store which I have ever seen.

The boilers coming in immediate contact with the fire gives great facilities for boiling, and the oven is heated on such a principle that bread is baked in as fine a manner as in a brick oven. I baked in as fine a manner as in a brick oven. I find it also a great saving of fuel and labor, and would advise all to adopt it. MITCHEL McCLELLAN.
