COUGHS & COLDS,

THE CAUSE OF CONSUMPTION.—Sim. ple as these complaints are usually considered, no one can deny their being the most common cause of this fatal and distressing disease. It is indeed a melancholy truth, that thousands fall victims to Consumption every year from no other cause than naglected colds. Yet we find hundreds, nay thousands who treat such complaints with the greatest indifference, and let them run on for weeks and even months without thinking of the danger. At first you have what you may consider a slight cough or cold; you allow business, pleasure or carclessness to prevent you from giving it any attention; it then settles upon your breast, you become hourse, have pains in the breast, you become hoarse, have pains in the side or chest, expectorate large quantities of matter, perhaps mixed with blood, a difficulty of breathing ensues, and then you find your own foolish neglect has brought on this distessing complaint. If then you value life or health, be warned in time, and don't trifle with your Cold, or trust to any quack nostrum to cure you, but immediately procure a bottle or two of that famous remedy, the "Balsas or Wild Cherry," which is well known to be the most speedy cure ever known, as thousands will testify whose lives have been saved by it.

The very particular when you purchase to task for "Dr. Wistran's Balsas or Wild Cherry," as there is also a system of this name in use.
