N. B. Old carriages, or any kind of trude that most reasonable terms,
In addition to all other varieties of stoves, which they will constantly have on hand, they have purchased of Mr. J. G. Hathaway, the exhaust of the country of the clusive right to manufacture and sell, in the counties of Cumberland and Dauphin

Hathaway's Patent "Hot Âir Cooking Stoves."

And being aware that the people in this place and vicinity, have been much imposed upon by the introduction of new and highly recommended articles which they have been induced to purchase, and which have been so slightly made, and of such bad material, that in a short time they have failed and become useless. We, therefore, do not intend offering stoves for sale until they are fairly tried in this community, and pronounced more durable in their construction, better adapted to the purposes of boiling, baking and ill the varieties of cooking than any other stove. the varieties of cooking than any other store; also, that they are a great saving of fuel as well

mend it as a very superior article. The one I have is No. 3. It has 5 boilers and an oven sufficiently large to bake six loves of bread. The baking, roasting and broiling can all be done at the same time and with much less wood than is required for any stove which we have used.
This size appears to be peculiarly calculated for Farmers, and for their benefit Linvite them to call and see this stove in use, as I shall take pleasure n showing this stove to all whom interest or

curiosity may induce to examine it.
SIMON WUNDERLICH. CARLISLE, Sept. 11, 1841,

**Messrs. E Robinson & Co.—Gentlemen, I have during the few days I have had your Hathaway's Hot Air. Stove in use, become convinced of its great superiority over all, other stoves I have used or seen. I find by the trial that boiling, reasting; haking and broiling may all be done at the same time, in a most perfect manner, and with less than one fourth the fuel I have or dinarily used for the same necessary. I have heretofore been of the opinion that bread could not be well baked in a cooking stove, but I am convinced upon trial that it can be done as well in your stove as in a brick oven.

I believe that the general introduction of your delphia or Baltimpre, according to the direction therefore I shall take pleasure in recommending it to my friends. Yours respectfully. WILLIAM MOUDY.

CARLISLE, Sept. 10, 1841 .. Messrs, E. Robinson & Co.—Gentlemen, I hava fairly tested the "Hot Air Stove". which you put up at my house, and can recommend it as possess. ing principles of economy and convenience far surpassing any other store which I have ever seen.

The boilers coming in immediate contact with the fire gives great facilities for boiling, and the oven is heated on such a principle that bread is baked in as fine a manner as in a brick oven. I find it also a great saving of fuel and labor, and would advise all to adont it

MITCHEL McCLELLAN. CHAMBERSBURG, Sept. 6, 1841. I do certify that I am now using one of Hatha-vay's Patent Hot Air Cooking Stoves, No. 3, and lo recommend it as superior to any stove I have seen, the great saving of fuel, and the variety that
