GROUP IN CHILDREN.

This is the season when this destrictive complaint attacks your interesting little children, often robs you of those you fondly doat on, and carries hundreds to the grave. Every mother should therefore, know its symptoms, watch them closely, and always be prepared with a remedy as many are daily sacrificed by such neglect. At first the little patient is seized with a shive ring, it grows restless, has this he of heat, the eyes becomered and swollen, it breathes with difficulty, and then comes that fearful Copen that will surely terminute in convulsions or death unless something is mmediately given to check it. In this complain the "Balsam of Wild Cherry" is well known to be the most speedy ever dicovered. It is indeed a precious remedy-mild, safe and innocent, and sure to give the sufferer immediate relief, and ther who loves her children, should always keep this medicine in the house and give it to them carly, by doing so you may often save the life of one you fondly love. Remember this is the famous remedy of this distinguished physician, Dr. Wistar, which has carred thousands of CROPP, WHOOPING COUGH, ASTHMA, CONSUMP.

TION, &c., after every other medicine has failed.
