

THE HOUR HAS COME!

AROUSE, WHIGS! Push on the Column!

FREE MEN OF CUMBERLAND COUNTY! By the time this paper reaches the majority of you, the second Tuesday of October, the day of Election, will have arrived.

EVERY MAN TO THE POLLS!

Let none remain behind—if your neighbour is infirm with age, assist the gray-haired patriot to the polls—if he is unwell, procure him a conveyance—if he is in health, appeal to him by all that may move to the performance of duty.

We ask you not to take arms for a deadly battle—strife—not to any field of sanguinary conflict. We ask you to act in a peaceful Revolution, effecting by the simplest means the mightiest ends—producing by the quiet effort of the ballot, results as great as those which have kept the sword bared for years in blood.

There is a weapon firmer set, And better than the bayonet; A warfare that comes down as still As snow flakes fall upon the sod, But executes a freeman's will As lightning does the will of God; And from its force no bars nor locks Can shield them—'tis the BALLOT-BOX!

RALLY TO THE BALLOT BOX, Voters, on Tuesday next! Give that day solely to your Country! Push on the column to the Polls! Vote the Whig Ticket—THE WHOLE WHIG TICKET—and a glorious and triumphant VICTORY will crown your exertions!

TO THE FREEMEN OF CUMBERLAND COUNTY.

FELLOW CITIZENS: At the Whig County Convention held in August last, through delegates selected from the body of the people, we were nominated and placed before you as candidates for the State Legislature.

The Convention which nominated us adopted and published a creed embracing the principles and measures to be carried out and advocated by the opponents of MISRULE and TAXATION in Cumberland County—all of which were published with the proceedings of the Convention, and have our hearty approbation.

But to leave nothing in the dark, and to take from our opponents the opportunity of saying we "avowed no principles for the public eye," we here DECLARE, that, seeing nothing but Debt, Embarrassment and Increased Taxation before us, and knowing all to be the result of bad legislation and the most reckless extravagance in every department of the Government and on the Public Works,—should you see proper to elect us to the Legislature, we will, so far as in our power, most strenuously advocate and vote for the following measures of Reform—to wit:

1st. To limit the Sessions of the Legislature to 90 days at most, by paying the per diem allowance only during that time, or by giving an annual salary, not more than equivalent to the daily pay during that time.

2d. To pass a law requiring the Clerk of each House to note upon the journal, every day, the names of all absent members, and to disallow the pay of such absentees in every case, except in that of sickness and inability to attend. And also wholly to abolish the practice of paying members during holiday adjournments, and other recesses of the Legislature.

3d. To pass a law defining the contingent expenses of the legislature, and all other departments of the government, and confining the same to Stationary, Fuel, Furniture of the Halls, and to Postage on letters and documents sent to members during the session.

4th. To repeal the law which authorizes each House to draw for all their expenses through their respective speakers, and to pass a law requiring all accounts of each House, and every department of the government to be settled by the Auditor General and State Treasurer, in as case of other expenditures of the public money.

5th. To pass a law consolidating the offices of Surveyor General and Secretary of the Land Office, so that one head, and half the number of clerks, will perform the duties of these departments.

6th. To pass a law giving out all the public Printing of the Commonwealth for a term of three years at a time to the lowest bidder, with ample security for faithful performance, to be approved by the governor.

7th. To dispose of, for State Stock, in payment of the State debt, or for completion, all the branches of the Public Works to companies, under such proper restrictions and reservations as will effectually guard and protect all the interests of the Commonwealth and those of her citizens.

8th. To dispose of in a similar manner, and for State Stock, the Main Line from Pittsburg to Philadelphia, unless the legislature shall have clear and undoubted evidence that under the future management thereof the Commonwealth will derive some reasonable amount of revenue beyond the expenses of repairs and management.

9th. To repeal the Act of the 10th of July, 1839, which increased the salaries of the judges, by adding to some \$400, to others \$500, to others \$600 per annum. By the constitution the salaries of judges cannot be diminished below the sum fixed by law at the date of their commissions, but as few commissions have been issued since the passage of this act a large sum can be saved by withdrawing this addition improperly made, from all the judges whose commissions bear date before its passage, and from all hereafter appointed.

10th. To repeal all laws making useless and unnecessary appropriations to objects of no value to the People or to the Commonwealth.

11th. To repeal the infamous, unjust and oppressive double Tax Law passed by the late Legislature.

These measures—with all others calculated to bring about a wholesome reform in the management of the affairs of our State, and ease the people of the oppressive burthens now hanging upon them, as well as to lessen the State Debt, shall have our most hearty support.

Fellow Citizens: Fellow Tax-payers! You have here, our principles, and our determination to carry them out, should you see proper to clothe us with the power. We leave the whole matter in your hands—pledging ourselves to serve you with fidelity in the event of our conferring upon us the honor of a seat in the councils of our State.

Respectfully, your fellow-citizens, JAMES KENNEDY, GEORGE BRINDLE.

HERALD & EXPOSITOR.

E. BEATTY, EDITOR AND PROPRIETOR, CARLISLE, PA. Wednesday, October 5, 1842.

FOR PRESIDENT HENRY CLAY. Subject to the decision of a National Convention DEMOCRATIC WHIG ANTI-TAX TICKET.

James Kennedy, Newville, George Brindle, Monroe, COMMISSIONER, Robert Laird, Frankford, DIRECTOR, Melchoir Breckenman, N.Mid'n, AUDITOR, Robert C. Kilgore, Newton, PROTHONOTARY, Thos. H. Criswell, Shippensburg, REGISTER, Jacob Breitz, Carlisle, RECORDER AND CLERK, Robert Wilson, Mechanicsburg.

To my late Patrons. The subscribers' books can be found at the Herald office. Having contracted few debts in Carlisle, he would feel obliged if those indebted to him would call as early as convenient and enable him to "square accounts" with his creditors.

The Last Appeal. We make to-day our last appeal to the voters of Cumberland before the Election. We shall not issue again until after that event, when, if the spirit of the "same old song" which carried the county triumphantly for the late and good old patriot, HARRISON, in 1840, still exists among the enlightened voters of this county, we shall have the proud satisfaction of trumpeting a victory, and proclaiming to our sister counties that "old mother Cumberland" has promptly responded to their call and saved, from further misrule our noble and beloved, but mis-governed Pennsylvania. Our friends—who have the power to avert it—will take care that we come not out "in sackcloth and ashes!"

Tickets! Tickets! The Whig Tickets for the county are ready for delivery and can be had at our office. They are the "right stripe," and we should like to see about three thousand of them voted!

Mr. Brindle our Candidate for Assembly has a communication in another column, to which we direct attention.

LETTER FROM GEN. SCOTT.—A letter from this distinguished gentleman, written to friend in Ohio, will be found in to-day's paper, to which we refer our readers.

No Congressional candidate is running in this district, unless the Locos have one under cover to be let out on Election day. By the way, the People should recollect the important fact at the Polls, that the extra session of the Legislature last summer, which swallowed up just about \$50,000 of their Taxes, was called exclusively to form a Congressional apportionment bill, and that it performed this duty, but that our enlightened and economical Governor has given the bill the pocket veto because it was not shaped so as to give his nephew, A. Porter Wilson, a district in which he could be elected!

LARGE PRODUCTIONS—HERE AND TO COME!—Mr. Michael Fishburn, from the "Middlesex Farm" in this neighborhood, showed us on Monday, an enormous Sweet Potato, raised by him, which is eleven inches in length, five inches thick and weighs three and a half pounds! It is a regular anti-tax production, Mr. F. informs us, although it must certainly have taxed the richness of the soil considerably for its immense proportions. Like loco focos, it was most likely profaning one thing and practicing the opposite!

Next week we expect to publish the dimensions of another anti-tax production, for the especial delight of our loco foco friends, in the way of a big lettuce!

Mr. Webster's Great Speech. The long looked for speech, was delivered according to appointment in Faneuil Hall, Boston, on Friday afternoon last. It is of course a great speech of a great man, but it will very much disappoint the majority of Whigs who read it. Mr. Webster avows himself still a Whig—a Massachusetts Whig—he praises the Whigs for the passage of the Tariff Law; one good effect of which is that it destroys the "Compromise" principle of 1832—he next censures the Whigs for neglecting the Currency, and avows himself in favor of the Exchange plan of President Tyler, which he says ought to be passed—the man who now advocates a National Bank, pursues in his opinion, an obsolete idea. Mr. Webster next speaks of the Veto power, against the indistinct and written more than he, and in the exercise of which in every case by Mr. Tyler he advised against. Mr. Webster thinks there are still other important matters to be settled with England, and intimates pretty clearly that he intends to stay in the Cabinet to arrange them.

We shall endeavor in our next to give copious extracts from this most interesting speech of Mr. Webster, possessing as it does deep interest for every eye, though the reader may not acquiesce in all its opinions.

A Benedict! It will be seen by reference to our Matrimonial department, that our late Representative, WILIAM BARR, Esq., is "a widower." We feel gratified at the fact. We presume it became evident to Mr. Barr, (getting sharp about this time), as it is to every one else, that his political aspirations were about to be disappointed, and he therefore in the true spirit of philosophy, as he needs must spend the winter at home, set immediately about procuring himself a suitable companion, without whose attractive society and trusting affection, home could not be so cozy and pleasant. He has shown himself infinitely more sensible and sagacious in thus doubling himself this winter, than he did the last in doubling the Taxes. We cordially wish the happy pair a long life of domestic enjoyment, with its calmness and sunshine marred by few cares and shadows as could fall to the lot of the most fortunate.

Address from Messrs. Kennedy & Brindle.

The address in to-day's paper from the candidates for the Legislature on the Whig ticket, Messrs. KENNEDY and BRINDLE, to the people of Cumberland county, deserves the serious attention of every voter. It will be seen, that honestly and sincerely devoted to the cause of Reform, our candidates boldly and fearlessly avow their principles and state specifically and clearly the various measures they are in favor of, and will firmly support if they are elected. This address should be read by every voter in the county. Let the work of Reform be commenced in this manner and faithfully carried out, and our Commonwealth will soon be relieved from her embarrassments, and the people no longer groan under OPPRESSIVE TAXATION!

We ask particular attention to the address, it will speak for itself.

If it should Rain on Tuesday Let no good Anti Tax Whig be kept from the Election on that account. Better by far endure that for one day, than the reign of this loco foco Taxation government for years!

ONE VOTE! Let no Anti Tax Whig be absent from the Election on Tuesday, thinking that his single vote will make no difference. Geo. Darric, Esq. a member of the Senate, was elected last year by a majority of only one vote! Marus Morton was elected Governor of Massachusetts, two years ago, by a majority of only one vote! Recollect that on one vote may hang the fate of our ticket in this county. Let every man vote, and vote the Whole Ticket!

Vote the Whole Ticket! NO SCRATCHING! We hope that no true Whig, who is sincerely attached to, and values the prosperity of his party, will on any account, "scratch" or omit any of the candidates on our ticket, either for the Legislature or County Offices. They are, we know, men of intelligence, capability, integrity and business character, all the qualifications that are necessary to the faithful discharge of their trusts, and should therefore be firmly supported by every Whig voter. It would be strongly reprehensible in any Whig who should at this juncture strike off the name of any candidate on our ticket, and vote for an opponent. They received our pledge of adherence in the County Convention, and their nominations should therefore be abided by and faithfully supported at the Election with our whole and undivided party strength. Vote the ticket—THE WHOLE TICKET—A N D NOTHING BUT THE TICKET!

THE CITIZEN SOLDIER.—Messrs. J. R. & A. H. Diller have issued proposals for publishing in Philadelphia a weekly newspaper, under this title, devoted to military matters. A number of distinguished military gentlemen will contribute to its pages. Terms \$2 dollars per annum. The first number will appear in November, if sufficient encouragement is previously offered.

Mr. Webster, thinks it would be very impolitic in the Whigs, as Mr. Tyler has three years of his term yet unexpired, to have a full and final separation from him and the Whigs. It is the prudent reflection with the Whigs that in the last nine months, they have followed the dictates of right, regardless of policy.

Mr. Silas Moore, an extensive mail contractor, died on Friday last in Hollidaysburg.

Mr. Webster's speech viewed in whatever light it may be is undoubtedly a powerful counter attack upon Mr. Clay.

Mr. Joseph Bailey, loco foco candidate for the Senate in the Montgomery, Delaware and Chester district, gives a public pledge of adherence to Gov. Porter!

The Guillotine at Work! The Madisonian promises an early removal now that Congress is out of the way, of all office holders whose political affiliations are not agreeable to the President. Many friends of the Administration, says the official paper, "were manifested much impatience at the delay," which, it adds, is now nearly terminated. It is further suggested that "NEW ARRIVALS should have their friends on the spot—to be represented by those whom both they and the appointing power can rely on!" The Newark Daily Advertiser says, this bold, semi-official notice by the organ of the Administration to the office seekers, to stand in proposals, exceeds anything that has yet occurred in the history of official bribery!

MISERABLE POLICY.—The whig delegation of the county of Philadelphia, have resolved not to vote a ticket for members of the Legislature and county officers. The temporizing course of the Whigs in the county for some years past, has increased the loco foco majority to such an amount that they are at last compelled to back out of the fight altogether. Such consequences always follow a such a course. The loco focos are running two tickets in the county—the Regular and the "Incorruptible."

From England. The steamer British Queen arrived at New York, on Thursday last, with six days later intelligence from England. The intelligence is not of great importance.

The English papers are congratulating the country upon the amicable arrangement of the difficulties with the United States. The strike among the colliers has closed, and the workmen have returned to their duties, the proposed reduction in prices having been abandoned. The Manchester workmen, both spinners and weavers are at work at the old prices; while the southward and outward—especially at Ashton, Stalybridge, Glossop, Hyde and Stockport—all are still at a stand, and without any reasonable prospect of a speedy resumption of employment. In Manchester the spinners are all, or nearly all at work, while the weavers are generally idle. Altogether, the number of power looms now standing is supposed to be nearly 60,000.

The Queen on the 9th left the Royal Palace at St. James, accompanied by her Royal Highness Princess Albert, on a visit to Scotland.

The news from the east of Europe, is not of any importance. It appears that the Secret Society in Paris are still meditating insane projects against the government of France.

RALLY TO THE POLLS

WEDNESDAY! VOTE THE WHOLE WHIG TICKET!

TAXPAYERS OF CUMBERLAND! FARMERS, MECHANICS, LABORERS! Rally to the Polls, on Tuesday next! Give that day to your country, and poll every Whig Anti Tax vote that can be found in the county! Do this and success is certain—without it we cannot hope to succeed. Do this and it may secure to yourselves and your children innumerable blessings. Cumberland county must speak out in thunder tones her hatred to MISRULE and DOUBLE TAXATION! To the POLLS, then, Vote for Kennedy and Brindle, the WHIG ANTI-TAX CANDIDATES for the Legislature!

Would you have the TARIFF LAW, lately passed by the Whig Congress, and which has already relieved thousands of suffering Laborers—saved from the REPEAL threatened by the Loco Focos if they get the power? Vote then for KENNEDY and BRINDLE, the Whig candidates for the Legislature!

Would you have the DISTRIBUTION OF THE PROCEEDS OF THE PUBLIC LANDS, that glorious measure of the Whigs, which would in a few years if carried out, pay off entirely the great debt of Pennsylvania and relieve her people altogether of TAXATION, again renewed, and Pennsylvania's share received into her Treasury? Vote then for Whig members of the Legislature, who will demand its passage by Congress, and unlike the last loco foco Legislature, will vote to receive our share!

Would you have the Congressional, Senatorial and Representative Districts of the State, fairly and justly apportioned, that our party may have a voice equal to its popular strength, in Congress and the Legislature?—Vote then for Messrs. KENNEDY and BRINDLE, who will see that your interests are well taken care of!

Would you have the infamous bill of DOUBLE TAXES, passed by the last loco foco Legislature, and which will be fastened upon you for years to come, if they continue in power—REPEALED at the coming session? Go to the polls, then, every taxpayer, and vote for the Anti-Tax candidates, Messrs. KENNEDY and BRINDLE, who are pledged to vote for its repeal!

Would you have the PUBLIC IMPROVEMENTS DISPOSED OF—the profligate and wasteful management of which is the cause of our Taxation and embarrassments, and of the corruption which so alarmingly prevails? Vote then for the Whig candidates for the Legislature, who are pledged to advocate and vote for the sale of the Public Works!

In short, would you introduce a general and thorough system of Retrenchment and Reform in every department of the Government—in the Legislature where so many abuses are practiced—in the Judiciary, with its high salaries,—in the departments connected with the administration at Harrisburg, where sinecure offices have been so long tolerated—in the State Printing, and in many other places, where the pruning knife of retrenchment would find much to do in lopping off abuses,—you must go to the Polls, and vote for Messrs. KENNEDY and BRINDLE, who, in their address to voters in this day's paper, pledge themselves to the unremitting advocacy of these necessary and wholesome Reforms.

The issue is now with the people—it remains now for them to say whether they will; any longer tolerate these wide-spread abuses, or by a bold and decisive stroke on Tuesday next, put an end to them forever. Tax-payers of Cumberland! The Victory is within your grasp! Will you fold your arms and permit it to be lost through your own apathy, or will you not rather arouse, and with one good, strong and manly effort RALLY TO THE POLLS ON TUESDAY NEXT, cast off the men who have brought us to our present embarrassments, and relieve yourselves now and forever of OPPRESSIVE TAXATION!

Look out for handbills, circulars, &c., containing false representations, intended to injure your candidates, which possibly may be circulated through the County by the Taxists just on the eve of the election. The best proof of the falsity of these charges made against candidates just before the election, is the fact that they are retained and not put out until the eleventh hour!—Never believe any such representations however speciously made—if they were true they could not remain in the dark until just the day before the election. Look out and be prepared for them, we repeat.

The Way the People's Money Goes! \$15,000 SQUANDERED! The Harrisburg Chronicle, says—JAMES MADISON PORTER, the Governor's brother had the contract for rebuilding the dam at Easton allotted him by the Canal Commissioners at thirty thousand dollars, in the face of the fact that it was first built for sixteen thousand dollars! Here is a difference of fourteen thousand dollars in the Estimate of the fact, besides the important consideration that all the materials were on the spot, furnished by his hand, all of which the first contractor had to supply! Thus the money of the people is squandered by this vile favoritism! Who can tell us of an instance of a dollar of money having been paid from the Treasury since the present State Treasurer, who was elected by Whig votes, has been in office, except to the minions of David R. Porter? Point them out!

A Few of the Votes OF BARR AND CULVER, IN THE LAST LEGISLATURE.

The Journals of the Legislature have at length been received, but too late for examination by the people before the election. After considerable trouble we procured the use of a copy—through the politeness of Capt. Sanderson, having been denied one by the Clerk—but toole late an hour to take more than a hasty glance over a portion of its contents, and to make the following selections:

Page 53, Mr. Barr and Mr. Culver voted for one copy each of the new edition of Purdon's Digest for the members of the House—one hundred copies of which at eight dollars per copy would amount to EIGHT HUNDRED DOLLARS!

Page 62, Barr and Culver voted to have a large additional supply of the Governor's Message printed, merely to throw several hundred dollars to one of the Porter printers at Harrisburg!

Page 144, Culver voted to postpone the consideration of a resolution to amend the Constitution, so as to limit the State Debt!

Page 147, Culver voted against the consideration of a resolution relative to a Protective Tariff!

Pages 239, 240 and 241, Barr and Culver voted against wholesome resolutions relative to the State Ship-plasters!

Page 279, Both voted on second reading against the appointment of a committee to investigate the charge of bribery by the Banks against the Governor and others! On the final passage of the resolution Culver voted with 12 others against it!

Page 567, Barr voted against the consideration of a resolution staying executions until the Banks resume specie payments—thus going for the Banks and against the people!

Page 364, Barr and Culver voted against resuming the consideration of resolutions relative to a Protective Tariff!

Page 364, Barr and Culver voted against resuming the consideration of a bill "suspend the collection of money on executions and to protect the common welfare of the citizens of this State,"—thus avowing their hostility to poor men unable to pay their debts!

Page 305, Barr and Culver voted against the second reading of the Act limiting the State Debt!

Page 374, Barr voted against compelling the Banks to resume specie payments on the first of August last—thus being against the Banks at home, and for the Banks at Harrisburg!

Page 397, Barr and Culver voted to postpone the second reading of the bill to sell the Public Works!

Page 630, Barr voted to postpone indefinitely, a resolution for stopping the work on the North Branch and Erie canals, and reducing the number of officers on the public works!

Page 698, Culver voted against abolishing the office of Appraisers of damages, and transferring their duties on the Canal Commissioners.

Page 785, Barr and Culver voted against making the stockholders of the Wisconsin Canal Co. liable in their individual capacities for debts due by said company.

Page 816, Barr and Culver voted for a resolution to allow additional pay, to that fixed by law to the Clerk, Sergeant at Arms, Door Keeper, &c. amounting to several thousand dollars!

Page 873, Barr voted against a provision to stop the work on the unfinished lines of the public improvements, and providing that not more than one principal engineer shall be employed on the public works.

We have no room for further extracts, owing to the late hour at which we received a copy of the Journal. These, however, are sufficient to show the Tax-payers of Cumberland the utter recklessness which characterized nearly all the votes given by Barr and Culver! Nor must it be forgotten that Barr and Culver both voted for Gamble's bill INCREASING THE STATE DEBT ONE MILLION AND A HALF OF DOLLARS! and that on the last day of the session Barr voted for the INFAMOUS BILL DOUBLING THE TAXES, already too heavy for the people!

Tax-payers of Cumberland! one and all to the polls and vote against such reckless and foully-hardy men—who have evinced no consideration for either your rights or your property!

Facts to be Remembered by Voters on Tuesday next! That the State Debt of Pennsylvania is about FORTY-FIVE MILLIONS of Dollars! That the yearly interest on the same is over one million and a half!

That the interest due on the 1st of August, amounting to \$800,000 is still unpaid!

That this debt has been INCREASED from about \$24,500,000 since Jan'y. 1, 1836, by David R. Porter, to keep up the Public Works of the State!

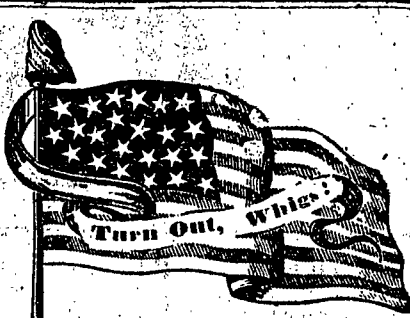

That whilst the State has thus become deeply involved in debt, D. R. Porter has become IMMENSELY RICH! Many of his office holders have also been enabled to buy SPLENDID FARMS, etc. BAUTIFUL PALACES, and boast of their THOUSANDS OF DOLLARS IN READY CASH!

That for all these things—and to "save the credit of the Commonwealth"—THE PEOPLE ARE DOUBLY AND TREBLY TAXED!!!

For proof turn to the Tax Collectors' receipts.

MEMORANDUM of the Herald, and his auxiliary CHAS. of the Statesman, still continue their abuse of Judges Hopburn and Stuart, and other prominent members of the Democratic party! Volunteer!

Undoubtedly! Col. R. M. Johnson, the powerful rival of Mr. Buchanan in Pennsylvania, for the Presidency, was to have arrived at Harrisburg on Monday, where after a good deal of ceremony and in his proper reception, he was to start for our tour through Northern Penna., commencing with his participation in a great celebration of the anniversary of the battle of the Thames, at Danville, Pa. on the 14th of October.

Push on the Column!

Under this inspiring title, the Editor of the Harrisburg Telegraph thus energetically and eloquently discourses. We wish it could be sounded in the ear and thrill the heart of every lagging Whig in Cumberland, on Tuesday next, where to achieve a glorious victory nothing is now wanted but to boldly and unitedly push on the column to THE POLLS!

When the victor of Waterloo, saw by the wavering lines and broken ranks of his opponent, that the moment had arrived to decide the fate of the battle—he sent an aid to the reserve, with the order "PUSH ON THE COLUMN!" Such is the present crisis in the political contest, where THE PEOPLE ARE THE RESERVE, and loco-focoism the common enemy, against which all are contending; and all we have to do, to ensure success, is to

PUSH ON THE COLUMN! Let the FARMERS of our State—the great conservative power—who think much, but do not engage actively in politics, call to mind the various afflictions to which they have been subjected, under the iron rule of loco-focoism. Let them look at TRASHY SHIP-PLASTERS which have taken the place of specie—the IMMENSE INCREASE OF THE STATE DEBT; the imposition of a DOUBLE TAX, the proceeds of which are not to be used for sustaining the credit of the Commonwealth, by paying interest on her stock debt—the value of which in the market, is the true standard of a state's credit and correct government—but to satisfy RAPACIOUS PARTIZANS, and induce them to work at the elections or to be squandered upon public works, which under the present system of management, must continue yearly to make the state poorer and the office-holders richer. Let them remember these things, and be prepared on the 11th of October, when the word is given, to

PUSH ON THE COLUMN! Now is the very time to charge! The elements of corruption among our components are working their disunion—they are fighting among themselves for the spoils, like Brigands over the plunder of a murdered traveller, and rather than relinquish them, they will destroy each other! There is not a citizen of our State who, is not aware of the RECKLESS EXTRAVAGANCE, SELFISH RAPACITY, and INDISCRIMINATE PLUNDER OF THE LOCOFOCO PARTY IN THIS COMMONWEALTH. It has beggared our Treasury; ruined the credit of the State; brought its once proud name into disgrace, and made it a by-word and reproach throughout Christendom. Now is the very time to drive the spoilers from their prey—to send the train bands of corruption, the myriads of power and the various plagues of "lice and locusts" entailed upon us by loco-focoism, back to their former insignificance with the contempt of an outraged people ringing in their ears. We have now a chance to thoroughly redeem the State, and administer such a rebuke to those in high places, that they will hardly dare to outrage the people, by longer opposing their wishes. With the prospect of such a glorious consummation before us, who will be laggard, or refuse to lend his assistance to

PUSH ON THE COLUMN! For your dearest rights as citizens—for the love you bear the good old soil you tread—for the sake of bleeding liberty and down-trodden justice—for the hopes you indulge that our country may remain forever FREE, and not become the heritage of demagogues—for the perpetuity of our sacred institutions, our rights of "thought, speech and action"—for your detestation of loco-focoism and its attendant evils, and your love of PURE, PATRIOTIC, SINCERE DEMOCRACY, we ask you to lend your might, your energies and all your zeal and assist to

PUSH ON THE COLUMN! Sentence of John C. Colt. We learn from the New York papers, that Jno. C. Colt, convicted in March last of the murder of Samuel Adams, has been sentenced by Judge Kent to be hung on the 18th of November next.

Previous to receiving his sentence, Colt read a paper, the substance of which was that he wished his case might be carried to the Court for the Correction of Errors, and application was made to that effect by his counsel. He also requested the Court, if sentence were passed, to omit the usual remarks made upon such occasions, as being unnecessary in his case.

Judge Kent having made an allusion to the jurymen who heard the testimony and gave the verdict, Colt rose as firm and self-possessed as ever—the man showed himself in such a situation, and said that he did not intend to cast the slightest reflection on the jury—he doubted not they acted conscientiously. But, he said, public opinion had changed, and he believed that nine-tenths of the community were convinced that he had not committed a willful murder. "I have never committed an action in my life," continued he, "which under the same circumstances, I would not do again. I was insulted in my office, and presented it then as I would do now, which led to this case. Throughout the whole scene, Colt exhibited his usual firmness of character, and during the delivery of the sentence did not seem to betray the slightest emotion.

A Boston paper says, "Mr. Webster's speech has disappointed the hopes and wounded the feelings of a large proportion of the Whigs of that city." So it will every where.
