named Tyson, who com in New York to a large amount since, died at Staten Island, on Friday evening last, The police have been in search of him during all this time, but no cluc could be traced of him until a few days previous to his death. He was living with his modiler for the past year, on Staten Island.

DE Dr. WAYLAND, President of Brown's University Providence, Rhode Island, a clergyman of the Baptist persuasion and distinguished for his writings on Ethics, has signified his entire concurrence in the late decision of the Hon. Ellis Lewis, which has attracted so much attention A suit was commenced against a Baptist clergyman for immersing a young lady, a minor, con-trary to the wishes of her father, and Judge Lowis sustained the uncontrolled power of the parent over the moral education of the child.

Changellor Kent, Judge Grier, and other eminent jurists, have concurred with Judge Lewis.

HENRY CLAY. The New Orleans Tropic of the 14th inst. says :- A letter from this distinguished statesman was received by a gentleman in this city last Saturday. Mr. Clay states that he shall leave Louisville for the South, next Saturday, the 18th inst. He will remain two or three days at Natchez, and then proceed directly to Attakapas, on a visit to Alexander Porter. It is his intention to be in New Orleans about the 20th or 25th of December.

### The British Treaty.

Mr. Cushing, in a letter published in the Newburyport Herald, says, the new treaty is fairly engressed in a thin volume of folio ruled paper, bound in crimson velvet, with ribbons to tie the covers together, when closed; depending from which two silver or silk cords, with large tassels of the same materials, is the scal, five or six inches in diameter, and an inch thick. The scal is contained in a silver box-or case, stamped on the cover with a beautiful raised impression of the British arms, and represents Queen Victoria on horseback with a page holding the horse, and surrounding the figures the legend "Victoria, Dei Gratia Britanniarum Regina, Fidei Defensor." in a large and bold hand, "Victoria R."

Can this be true? The Westchester Pa. Examiner contains the

following extract from a letter dated October 1st. in Harrison County, Ohio. If it is true it exceeds in villainy any thing we ever before heard of: "One of the most wicked acts was committed last week that I ever heard of. There was a Whig meeting held at St. Clairsville, and there being no spring near the spot, water was conveyed there in casks. Into one of the casks was put a quantity of arsenic, of which more than two hundred persons drank before the alarming fact became known. Three men and one woman have since died, and a physician told a neighbor of mine yesterday that there-were within his knowledge, one hundred and sixty persons then laboring under the effects of the poisonous drug, many of whom he was apprehensive would not recover."

ETMR. CLAY AMONG THE QUAKERS. A COTTON pondent of the Richmond Whig, writing from Indianapolis, in speaking of Mr. Clay's visit to Indiana, says:- "He made a most decided impression, especially among the very respectable Socicty of Friends. The wavering have been confirmed, and the confirmed made enthusiastic in his support. A delegation of Friends waited on him to invite him to attend their church on the 2d, (Sunday.) When retiring from his room, the ESSENCE OF HOARHOUND CANDY, should spokesman of the delegation-a venerable old man -took Mr. Clay by the hand, and said, 'F ere thee well, Menry; God be with thee, and we will."

Calhoun against a Convention! The prospect is every day growing strongerthat the locofocos will have at least two candidates in the field at the next Presidential election. A letter from Charleston, in the N. Y. Union, written, apparently, by one who knows, remarks that those in favor of State-rights are equally in favor of State conventions and State nominations, and

"You will see by the Charleston Mercury that Mr. Calhoun; from the strong demonstrations throughout the whole country in his behalf, will not consider it necessary to submit his pretencions to a National Convention., This may be considered in a measure as departing from Demo cratic usuges; but the truth is that it is a system shown to be, of late, unsafe if not unsound, and the people are, in every direction, giving it up, re-'lying more on State nomination and popular de- from the Manufacturer. monstrations, than mere Conventions, the machinery of which is every way defective.

This novel, which is dedicated to the Temperance Societies and the failed the deficient of the Temperance Cause throughout the Union, will create a sensation, both for the ability with which it is written, as well as the interest of the subject; and will be universally read and admired. It was written expressly for the New World, by one of the best novelists in this country, with a view to aid the great work of Reform, and rescue Young Men from the demon of Intemperance. The insidents of the plat are wrought out with great effect, and the excellence of its moral, and the heneficial influence it will, have, should interest the fiends of the Temperance Reformation in giving this Tale the gulest possible circulation.

Profligacy of English High Life. Prince George of Cambridge has had a tioson with the oldget daughter of a Duke, related to the royal family. The lady will soon become a mother. The Prince is willing to make reparation, but the consent of Queen Victoria must first be obtained by the British laws. This she refuses, because contingencies might arise which would call the lady to the Throne, and her issue legitimatized by marriage, might also become a monarch! This appears curious reasoning for a Queen, who ubtless boasts of her direct descent from William the Conqueror, the Norman bastard!

Loco Focoism!

A- most important investigation is now going on in New York, being the trial of several justices or magistrates, for having discharged number: of convicts: from the Penitentiary a Blackwell's Island, that they might vote the Loco Feco ticket, at the late election in that city for Mayor. A number of these men have been exmined, and they all prove that they were taken from prison, supplied with provisions and drink, until the day of election, and then had to vote the Loco Foco ticket with R. H. Morris on it for Mayor. And it is by such means the Loco Focos carry elections in New York. Into what hands have the destinies of the Empire State fallen!

The Hon. John Quincy Adams has published a card, in which he states that it is impossible for him to write answers to all the requests sen him to deliver lectures.

## PEASESSOANDY

This pleasant Medicine is formed by a combin tion of twenty different ingredients, all celebrated for the cure of Colds, Coughs, and Pulmonic Complaints; and by its combination, if one of these articles should be used separately and afford no reliet, in the EXTRACT OF HOARHOUND they are so amalgamated, that the benefit of the whole is ex-

periènced in one Compound. About three years and a haif ago, this article was first brought before the public. It was heralded with no previous announcement of its merit or value; but was introduced by the proprietors to the community The signature to the ratification by the Queen is to stand by their decision, as regarded its beneficial in a large and bold hand, "Victoria R." influence. That decision has been attained in a manuner altogether unexpected. The unsought acknowldgement of its worth has proceeded spontaneously rom thousands, who have experienced its benefits throughout the country. And why is it so? Beloarseness, Irritation of the Throat Croup, Whooping Cough, Asthma, Catarrhs, Palpitation of the Heart, Liver Complaint, Night Sweats, difficult or profuse Expectoration, and all diseases leading to consumption, has given it it value that no other sim llar medicine has ever reached.

Complaints of the lungs are the most dangerou nd at the same time most prevalent of all diseases. Our climate is most peculiar; it changes suddenly rom extreme warmth to extreme cold, from wet to ley, and it is from this change in the climate that iseases are ant to arise. --

When the blood is in an unbealthy state, and the constitution naturally delicate, if a cold sets in and no immediate relief takes place, the chances are altogether against the patient attacked; it is when remedies are taken in time, that disease is checked and life saved. There is no disease but may not be suffered to go such a length that no medicine or physician in the world can save the person attacked. This should be remembered by all; the safety of life is, to be prepared in time. Heompound Balsamic preparation of the Prunus in Siminaia or "Wild Cherry Bark," combined with extract of Tar, prepared by a new chemical occess, approved and recommended by the most stinguished physicians, and universally acknowledged the most valuable medicine ever discovered NO QUACKERY!!! NO DECEPTION.

In setting forth the virtues of this truly great medicine, we have no desire to deceive those who are laboring under affliction, nor do we wish to eutogise it more than it justly deserves. Yet when we look around and see the vast amount of suffering and distress occasioned by many of the diseases in which this medicine his proved so highly successful, we feel that we cannot urge its claims too strongly, or say too much in its favor.

Various remedies it is true have been offered and pulled into notice for the cure of diseases of the Lungs, and some have no doubt been found very useful, but of all that have yet been discovered, it is admitted by physicians and all who have witnessed its effects, that none has proved as successful as this. Such, Sir, is truly my case. I have been a victim to that terrible disease Consumption, for many months, and have suffered so much, that I had become almost weary of my life.
