What should be done?

The answer is plain. Give this vermifuge, which

THE CAUSE OF CONSUMPTION—Simple at these complaints are usually considered, no one can deny their being the most common cause of this fatal and distressing disease. It is indeed a melancholy truth, that thousands fall victims to Consumption every year from no other cause than neglected colds. Yet we find hundreds, nay thousands who treat such complaints. NO QUACKERY!!! NO DECEPTION.

In setting forth the virtues of this truly great medicine, we have no desire to deceive those who are laboring under affliction, nor do we wish to enogise it more than it justly deserves. Yet when we look around and see the vast amount of suffering and distress occasioned by many of the diseases in which this medicine has proved so highly successful, we feet that we cannot urge its claims too strongly, or say too much in its favor.

Various remedies it is true have been offered and puffed into notice for the cure of diseases of the Lungs, and some have no doubt been found very, useful, but of all that have yet been discovered, it is admitted by physicians and all who have witnessed its effects, that none has proved as successful as this.
