Be, xe purified in your Blood,
And health will attend you.

The great principles advocated by Dr. Leidy, and in which he is supported by scripture, are
1st. That vitality is contained in the Blood.
2d. The Blood, becoming vitiated or impure gives rise to numerous diseases of the organs of the body, the stomach, the liver, the heart, &c. &c.
3d. That whatever has the effect of purifying the Bloot, possesses the power of re-establishing healthful action to the body.

4th: That Purgation and Starvation, or, in other 4th: That Purgation and Starvation, or, in other words, purging to the extent that is too frequently do se, and at the same time enjoying low diet, and abstinence from food almost entirely, are productive of much more mischief than is generally supposed, and in proof of it will only remark, that

By Purgation—The human system is more or less debilitated, for the very simple reason that in the process of purging all is carried off from the stomach from which nourishment is derived and distributed throughout the system.

By Starvation—Nourishment is absolutely withheld from the system so necessary to it, both for sustaining vital action and aiding nature in bearing up against that progress of disease.

Hence the consequences of too much purging, and a continued det must be to produce such a condition of the system as will caable disease to make more rapid progress, and extend itself the more casily, and

of the system as will enable disease to make more rapid progress, and extend itself the more easily, and in a brief time throughout the system.

Admitting the foregoing, it becomes necessary to inquire how is the Blood to be purified? and in employing the means, how is the system to be guarded against any scrious consequences?
