Sale of the Main Line.

ITA synopsis of the bill passed by the last Levislaturd for the sale of the main line of our State Improvements, will be found in to day's paper. Although it is three weeks since the bill was passed, and although not a single dissenting voice has been heard against it from among the people, decision whether it shall become a law or not!-We consider the juggling of the Governor with regard to this bill as the crowning act of base duplicity from one of the most reckless political desperadoes of the age.

It will be recollected that the Governor visited Philadelphia two days after the adjournment; annually four other directors for the said company during his stay in the city the Public Ledger. which is a kind of semi-official organ of Porter- thousand shares are subscribed for. n would positively become a law. Immediately was excited and the rate of state stock rose in the withstanding this authorized declaration, the bill is not yet signed, adding another to the many infamous deceptions which have been practised vania by one of the most abandoned demagogues that ever disgraced the Executive Chair of the State!

Delaware Canal Company.

The Philadelphia Ledger says that the Commissioners appointed under the act "to authorize the Governor to incorporate the Delaware Canal Company," &c., met at the Merchants' Exchange on Saturday evening and resolved that the books for subscription to the capital stock of the Company he opened at the Exchange on the first day of June next. This work having paid to the State last year several thousand dellars over and above all expenses, will doubtlessly be taken according to the terms of the Act authorizing its disposal.

The Clinton County Whig, published at Lock Haven, states that Mr. Wilber, Collector of Tolls at Dunnsburg, Pa., is a defaulter to the "State for the last year alone, of three thousand dollars. Here is another evidence of the manner in which the office holders along the canal have aquandered the people's money.

Richard S. Elliott, the "Tyler party" of Dauphin county, has been appointed one of the legion of Aids to the Governor of Pennsylvania! If Dick is golyg among the Pottawatamies what does he want with the Aid-ship? Is the office he lately got from the Accident to be filled by proxy? But such an appointment at any rate!

Three years ago under Mr. Van Buren, the minual expenditures for the support of the United States Government were, in round numbers 89, 000,000 This year they will not exceed 918, 000,000

SALE OF THE PUBLIC WORKS.

COne of the most important measures of the last session of the Legislature, is the not author-izing a conditional sale or least of these works, and also authorizing the Governor to incorporate Pannay Ivania Canal and Rail road Company, from Philadelphia to Pittaburg.

The bill itself being too long for Insertion in our columns, we give in lieu of it the following ondensation of its provisions: The first section of the act appoints a number

When one hundred and thirty thousand shares shall have been subscribed for the Commissioners are required to give public notice of that fact, and that the subscribers will be required within ninety days from the date of such notice, to pay to the State Treasurer the amounts respectively subscribed by them, or to transfer to the Commonwealth of Pennsylvania, certificates of the State Loan, which will be received at par value in payment of the stock subscribed for. When one hundred and thirty thousand shares are thus subscribed and paid for, the Governor is authorized, by the second section of the act, to incorporate the subscribers into a body politic, corporate in D'Those of our subscribers who did not pay deed and in law, by the name style and title of bur collector in his late excarsion through some the "Pennsylvania Canal and Rallroad Compa-

The Legislature may at any time appoint a ommittee to inspect the books and examine into the proceedings of the company, to see if the charter has been abused or violated; and if the committee report that it has been violated, the Governor may cause a writ of scire facias to be issued out of the Supreme Court, calling on them to show cause why the charter shall not be forfeit. ed; and if sufficient cause be not shown, the State may take possession of the works, upon payment, to the stockholders the amount of their meg . investments.

Doings in High Life.

The robbery of the Western Insurance Company, at Columbus, Geo., turns out to be a high life affair. It is said that several thousand dollars of the money has been found at the bottom of a flower-pot in the office of T. C. M'Kean, an emineht lawyer of Columbus who confessed his guilt, and gave the names of other hitherto respectable persons as his accomplices ! There was Tire Sporttary of State The editor of the a great excitoment in Columbus, 10 consequence

Locologo National Convention. The "democrace have their own troubles, says the Cancaster Examiner, in regard to all matters relating to their proposed National Convention. It was the duty of the "democratio" members of the late Congress to fix the time, place, &c. &co. for holding sugar Convention; but sine party" for rates at which the Company issue policies of throughout the Union being very particularly ex. had along sine well senting the attention of farthe purchasers or lesses, under the little of the for holding such Convention; but the party

Idential nomination:
The "democracy" of Indiana, becoming vety mpatient in the matter, addressed certain queries to the various Locofoco candidates for the Presilency, several months mince, and have received and published answers from Mesers. Calhoun, Case, Johnson and Buchanan, Mr. Van Buren has not condescended to reply to these queries although three months have clapsed since they were addressed to him. This is very disrespect ful to the Indiana "democracy," and is supposed to be a silent rebuke for permitting the vote of the State to be cast for General Harrison. The subject of most interest in the raplies of these gentlemen, is that of the binding force of the Na.

tional Convention. Mr. Buchanan says: "I shall abide by the decision of a National Convention of the democratic party, in the selec-tion of a candidate for the Presidency; and shall give my support and influence to the election of e nominee of said Convention.

Governor Cass answers as follows: "In the summer of 1841, in answer to an a plication from a committee appointed by a demo-cratic meeting in the city of Philadelphia, I stated ermination not to suffer my name to used in this matter, unless nominated by the Na-tional Democratic Convention. To that declaration I yet adhere: and I add, in the terms of your questions, that I shall give my support and influence to the nominee of that Convention. Colonel Johnston thus responds :

"I will abide by the decision of a National Convention of the democratic party, in the selection of a candidate for the Presidency of the U States, and will give my support and influence to the election of the nominee of said Convention, it ot myself nominated by said Convention.'

Each of these is very explicit and satisfactory to the committee: The reply of Mr. Calhou clearly indicates his intention not to be bound by Not a word is said about the sub-treasury, nor is of the latter remains at 84 06. the Convention unless it shall be constituted upon the basis and shall be holden at the time agreed tariff is also passed over with the silence of the upon by the various conventions of his friends. It is not the light in which I regard myself, or desire to be regarded by the public. My name has been presented for that high office by no agency or solicitation of mine; and it belongs to the friends who prefer me, and have presented in y name to the strength of the state of the strength of the people, to decide upon the course proper to pursue, in reference to this question. I have, however, no reason to donot, but that they will ministration during its first year, and that the special problem is the second of the present administration during its first year, and that the special problem is the second of the present administration during its first year, and that the special problem is the second of the present administration during its first year, and that the second of the present administration during its first year. heerfully abide by the decision of a Convention fairly called and faithfully constituted: that would allow ample time for the full development of pub. were just about half the average of the Van Bulic opinion, and would represent fully, equally, ren appropriations, course as near to a downtight and fairly, the voice of the majority of the party. In reference to this subject, the Georgia Argus guage would sllow. takes the same ground as Mr. Calhoun's organ,

the Charleston Mercury. It says: " We have put the name of Mr. Callioun at ficad of our column this week, as our choice for the Presidency. We have said nothing about being subject to the decision of a convention, because we do not know whether we shall submit to it of not. We have no great faith in conven-tions, of which, more hereafter."

-Ladies' Fashions.

N. P. Willis, in a letter from the Astor House published in the Lady's Book, gives a few brief hints on the prevailing modes of the Manhattan

" Bonnels," he says "leaning more to the lip we shall soon come to the degage hat so captivating in the pictures of Greuze, with the rim just playing before the eyes and set connetishly playing before the eyes and set conductions the tride of the organs of benevolence. As to the cardinals, or jerkins or pea-jackets, or capes, or Methodist Church, and many of the best dwellshort cloaks or whatever they are nominated, made of silk, and pierced with arm holes, they are certainly "worn" with a prodigality which will soon bring the fashion to a close. They wear will ston bring the lashion to a close. They wear curls again, long curls, thanks to the gods who appreciated Hyperion; and that terribly tight and ready to be scalped look is, I hope, forever passed away from the feminine temples. "A head like hair sofa is my holy horror!"

It is currently reported that the National Administration meditates the negotiation of extensive commercial treaties with England, and perhaps France, with the view of arranging the ties. This movement, if carried out at all, will be by the enemies of a Protective Tariff. No arangement can be entered into between the U. S. and Great Britain that will be permanently advantageous to both countries, and Great Britain blage comprised enty persons in all! will not be satisfied unless she gets held of the longest end of the rope. Murder of Four Persons!

On Monday nightlast, at Changewater, Warren county, N. J., about 10 miles from Belvidere, Mr John Castner, his wife and child, about two years old, and John Parke, a bachelor who lived with Castner, his brother-in-law, were all brutally mur. barque Niago dered. It is supposed that the object of the murder was to obtain Parke's maney, as he was rich and known to have a large amount of specie and notes in his trunk; which, however, from som cause, was not taken. A tall stout man, in green pectacles, with black whiskers, who had been een for some weeks in that neighborhood, without any apparent business, is suspected, and per ons are in pursuit of him.

The association is composed of active bus iness men, and we doubt not their praise worthy

efforts will be crowned with abundant success. The Company, we understand, in order to facilitate operations, have agents employed in nearly all the different towns and villages of Cumberland and Adams counties. The locality of the Company is more particularly confined to Dickinson township in this county; but we believe, each individual, without regard to his place of res idence, upon taking out a policy of insurance becomes to all intents and purposes, a full member of the association and entitled to all its privileges and immunities.

Luco Foco Address.

The Locofoco members of the Legislature held meeting on the 13th ult, at which Judge hampneys, from the committee appointed for that purpose, read an address to the Democracy of Pennsylvania:

"Addresses put forth upon occasions such as his, says the Lancaster Examiner, generally contain expositions of the measures advocated by the party, and their views of public policy, but in the address before us we find nothing of the kind. A few vague generalities and unmeaning declarations of principles, comprise the sum total of the positive portion of the address; whilst the negative side of this comprehensive manifesto of democratic principles," ventures so far as to tilt. at the ghost of the U. PEASE'S VANDE.

This pleasant Medicine is formed by a combin ion of twenty different ingredients, all celebrated for the cure of Colds, Coughs, and Pulmonic Com plaints; and by its combination, if one of these articles should be used separately and afford no relief. in the EXTRACT OF HOARHOUND they are so amalgamated, that the benefit of the whole is ex erleated in one Compound.

About three years and a half ago, this article was first brought before the public. It was heralided with no previous announcement of its merit or value; but was introduced by the proprietors to the communito stand by their decision, as regarded its beneficia influence.. That decision has been attained in a man ner altogether unexpected. The unsought ficknow edgement of its worth has proceeded spontaneously from thousands, who have experienced its benefits throughout the country. And why is it so? Be cause the trial of its qualities in Coughs and Colds Hoarscness. Irritation of the Throat. Croup, Whoop naturally gold eyes, of account of the endeavors ing Cough, Asthma, Catarrhs, Palpitation of the ofuse Expectoration, and all diseases leading t Consumption, has given it a value that no other sim-

lar medicine has ever reached. When the blood is in an unhealthy state, and the onstitution naturally delicate, if a cold sets in and no immediate relief takes place, the chances are altogether against the patient attacked; it is when rem edies are taken in time, that disease is checked and life saved. There is no disease but may not be suffered to go such a length that no medicine or phyician in the world can save the person attacked. This should be remembered by all; the safety of life is, to be prepared in time. At the symptoms of a Cold, Cough or Chilliness, THE CLARIFIED ESSENCE OF HOARHOUND CANDY, should be freely used according to directions; and in ever case where it is so used in proper time, the Cough o Cold will be broken up or eradicated. We feel it our duty to impress this upon every one—all remedies must be taken in time.

—Complaints of the lungs are the most dangerous
