COUGHS & GOLDS.

THE CAUSE OF CONSUMPTION.—Si ple as these complaints are usually considered no one can deny their being the most comm cause of this fatal and distressing disease. It is indeed a melancholy truth, that thousands fall rictims to Consumption every year from no other cause than neglected colds. Yet we find hun dreds, nay thousands who treat such complaint with the greatest indifference, and let them rui for weeks and even months without thinking of the danger. At first you have what you may onsider a slight cough or cold; you allow bus ness, pleasure or carelessness to provent you from giving it any attention; it then settles upon you giving it any attention; it then settles upon your breast, you become hoarse, have pains in the side or chest, expectorate large quantities of matter, perhaps mixed with blood, a difficulty of breathing ensues, and then you find your own foolish neglect has brought on this distessing complaint. If then you value life or health, be warned in time, and don't trifle with your Cold, or trust to any quack nostrum to cure you, but immediately presure a hattle or two of that for immediately procure a bottle or two of that fa-mous remedy, the "Balsam of Wild Cherry," ocure a bottle or two of that fawhich is well known to be the most speedy cure ever known, as thousands will testify whose lives ave been saved by it.

NOTHERS, BE ON YOUR GUARD!This is the season when this destructive complaint attacks your interesting little children, often robs you of those you foully doat on, and carries hundreds to the grave. Every mother carries hundreds to the grave. Every mother should therefore, know its symptoms, watch them closely, and always be prepared with a remedy as many are daily sacrificed by such neglect. At first the little patient is seized with a shivering, it growsrestless, hasfinshes of heat, the eyes become minate in convulsions or death unless something is immediately given to check it. In this complaint the "Balsam of Wild Cherry" is well known to be the most speedy ever dicovered. It is indeed a precious remedy—mild, safe and innocent, and is sure to give the sufferer immediate relief, and quickly restore it to safety and health. Families residing in the country and indeed every most the safety and health. ther who loves her children, should always keep this medicine in the house and give it to them early, by doing so you may often save the life of one you fondly love. THE EXTRAORDINARY SUCCESS THE EXTRAORDINARY SUCCESS
Attending the use of this medicine in diseases of the Lungs, and the many singular cures it has effected, having naturally attracted the attention of many physicians, (as well as the whole fraternity of quacks) various conjectures and surmises have arisen respecting its composition; some physicians have supposed it to contain Iodine, other ignorant pretenders say it must contain Intercury, and to some such substance they each attribute its singular efficacy.—As such opinious are altogether erroneous, and calculated to prejudice many persons against it, we related to prejudice many persons against it, we PLEDGE OUR HONOR

That it contains nothing of the kind, or any thing That iteontains nothing of the kind, or any thing the least injurious; on the contrary, it is composed of the most simple substances, the principle of which are the extracts of TAR and Hild Cherry Bark, and the whole secret of its efficacy consists in the mode by which they are prepared.

As we have already published numerous certificates from the highest authority, which prove its virtues beyond all doubt, we consider it unnecessary to exhibit a long list of them in this place; and will only mention a few cases, to show what it has done.

A SURPRISING CURE.—Among the many singular cures which this medicine has effected, there is perhaps none in which its powers are so fully shown as in the case of Mrs. Austin.

This lady had been consumptive for several years, and during the greater part of this time had received the best medical attention, and tried all the most valuable remedica, yet nothing could be found to arrest its progress. She became subject to violent fits of coughing, expectorated large quantities of matter occasionally tinged with blood, and step by step this fearful disease continued its course, untit all hope of a recovery was entirely despaired of.—While in this distressing situation, lingering upon the very verge of the grave, she commenced the use of this Balsalm, which, to use her own expression, operated almost like a charm. In a few days she expectorated freely, the coigh was gradually suppressed, and every day appeared to add fresh vigor to her looks, and now, in the place of that emaciated form withering to decay, she is seen mingling in society, in better health than she has chipo, ed fo years.

DISINTERESTED TESTIMONY.—Having witnessed the surprising efficacy of Dr. Wistar's Balsalm of Wild Cherry, in the case of Mrs. Austin, I cheerfully acknowledge the above statement to be true and correct.

Robert Hoynan,

Read the following from Dr. Jacob Hoffman, a physician of extensive practice in Huntingdon county in the procured one bottle of Dr. Wistar's Balsalm of Wild Cherry, from Thomas Reed, Esq of this place, and tried it in a case of obstinaty Asthma on a child of Paul Schwebie, in which man other remedies had been tried without any relief. The Balsalm gave sudden relief, and in my opinion the child is effectually cured by its use.
