Carlisiu, Pa.

Tuesday Morning, July 4, 1843. D'VOLNEY B. PALMER Esquithe Philadolphia Agent for this Journal, has removed from

Declaration of Independence. This being the anniversary of Independence which made us a free and independent people. They should be read by all.

Celebrations.

There will be no formal celebrations to-day, as we learn except by the two divisions of the "democratic" party in town. Besides these we have heard of several social parties on a smaller scale, who will observe the day in their own style. "This evening the Union Philosophical Society of Dickinson College, celebrate their anniversary, to which the public is invited.

Tribute of Respect. In obedience to an order from the War De.

General of the United States

Operations for Strabismus. A large number of operations for Strabismu or equinting, have been performed in this borough within the last two weeks, by Dr. JAMES McCLIN-TOCK, formerly of Philadelphia, but now Professor

of Anatomy in Castleton College, Vermont. The subjects have been generally young person and we understand the operations have in every case proved successful in rustoring the eye to its proper position and thus remedying obliquity of vision.

Biblical Cabinet.

: IF The June number of this work is on ou table, containing a part of Neander's History of the Christian Religion, during the three first centuries. This history is considered one of the Her death was such as the christian would most dehighest character of Theological works. The Cabinet is published by James M. Campbell & Co. when not a cloud observes the horizon.—Columbia Philadelphia, at twenty-five cents per number.

Union Philosophical Society.

13.We have been presented with a register of the members of the Union Philosophical Society of Dickinson College, which society was founded in 1789. The roll of the Union Society in former years presents the names of men who now occupy the most exalted stations in our countrysome upon the bench of our Supreme Courts, othersein our National Legislature, where-their cloquence commands the applause of listening Senates; while the names are not a few of " U. nions" who now contribute largely to adorn the pulpit and bar of the United States. On every page of their catalogue the present members may find names of distinction to inspire them with Rev. Dr. Berneve, of Philadelphia, on Wednesday, fresh incentives to action, and give them "courage and consolution" in moving upward and log at 10 o'clock, A. M.

The Fourth in Shippensburg. * TWe observe by the proceedings of a meet-ing published in the "Valley," that our neighbors of Shippensburg will observe the day by a suitable celebration, without distinction of party; which is the only correct mode. A civic procession, with music, &c., to be formed in the publie square of that town, at 10 o'clock, which is to proceed to a grove at the "head of the Spring." There a collation is to be prepared, and an oration delivered by Mr. Joseph Mirrian, preceding which the Declaration of Independence will be read by Mr. John M'Curdy. The day will no doubt be passed to the gratification of all,

The Weather.

The weather last week was of the most melting order: The mercury ranged for three or four days at a heighth of from 94 to 96 de grees in the shade. On Sunday afternoon the at mosphere was cooled and purified by two severe thunder-storms; since which it has been quite pleasant.

Our farmers afe generally engaged in hay-mak ing. The grain crops in this county. will, as far as we can learn, give a plentiful yield, though not perhaps so large as those of last year.

The Carlisle Springs, about four miles from this borough, are a beautiful resort during the excessive warm weather.

15 The Loco Foco State Convention of Maine, recently held, declared its preference for Martin Van Buren for the next Presidency. The Convention was of the most turbulent kind,

The attention of housekeepers, builders and others is directed to the advertisement of Hammond's patent upper and improved lower Win dow Sash Springs. They are certainly a great improvement.

The Lancaster Examiner of Wednesday says-The Wheat crop has so far advanced that a pretty correct estimate may be made of its yield at the coming harvest. In many parts of the county the crop never was better—while in several of the best wheat growing districts, the ravages of the fly and the severe winter, together, have been so destructive that the crop will be quite light. An intelligent friend from the country, who takes note of these matters, says, that the crop, though it may be called a good one, will fall below the average of the Lancaster county wheat crops

SENSIBLE GIRLS.—A New York paper says that mote than one hundred and fifty of our prettiest girls left off their corsets after hearing Dr. Lambert's lecture on the lungs and the elements of female heauty, &c.
