School Examinations. The attention of parents and citizens gen erally is called to the notice in another column announcing the examinations of the several Public Schools in our borough

Dickinson College.

n strong interest in an institution than which our borough could have to higher brannent; that the resources of the College for the past year have been fully sufficient to meet its expenses; and as the pecuniary affairs of the country are slowly improving, it may be safely anticipated that the next College year, commencing on the 15th of September next, will be still more pros-

perous. The officers of the College remain as heretofore. The Grammar School is now under the charge of Rev. Gronge R. Chooks, whose success formerly as Tutor in College and the last session as Principal of the School, furnishes a sufficient guarantee of the efficiency with which that department will be conducted.

We are informed that the Trustees at their late meeting, reduced the price of boarding in the College to \$1 50 per week, which it is hoped will be an additional inducement to many persons to avail themselves of the facilities for procuring a liberal education. Indeed, we learn, that even during the past year, under the operation of the new financial regulations, the expenses of the students generally have been very much reduced. No institution in the country, we believe, offers greater inducements to parents than Dickinson College; it's location is one of the most healthy in the Union, the course of study is as extensive as that of any other College, and the general correctness of deportment in the students afford the best evidence of the good government of the In-

no insurance upon it. Persons wishing to insure their property would do well? to call soon upon Dr. John J. Myers, Agent for the North American Insurance Company of Philadelphia, or Charles P. Commins,

CFThis is the title of an excellent military paper, published in Philadelphia by the Messrs. Dillers. It is devoted to the interests of the citizen soldiers, and labors hard for a reform in our present defective militia system. Besides its military articles, it contains the news of the day and a large amount of sterling literary matter. It should be in the possession of every soldier.

Since his death a scaled paper was bund among his effects, written about a year ago, in view of the declining state of his health, that breathes all the high and melancholy fervour of a young heart, where the arrow was quivering that haid it low; and yet where the balm was resting to heal the poison. Among other resolutions, this paper contained a determination to devote conscientiously a stipulated part of his income to be nevolence, and to observe weekly and yearly seasons of fasting and prayer. He promised to be a burning and shining light in the Church of God.
