# Wednesday Morning, August, 2, 1843. CTVOLNEY B. PALMER, Esq., the Phila-

delphia Agent for this Journal, has removed from his late Office in Third near Walnut Street, Philadelphia, and is now located at No. 59 Pine Street below Third, two squares south of the Exchange Persons in Philadelphia desiring to advertise with us, will please call on Mr. PALMER, who is authorized to act as our Agent.

Temperance Lectures.

It will be perceived by a notice in our advertising columns, that Col. Wallace, a Reformed Drunkard from Philadelphia, proposes to deliver a series of lectures on Temperance in this coun to be a powerful and successful advocate of the good cause.

#### Ladies' Harvest Home.

The Ladies of Shippensburg/as will be seen by their notice in our advertising columns, pro pose giving an entertainment in that borough, on the 10th inst., with the object of raising a fund to furnish the Church lately creeted by the Presbybe scarcely able to deny-ourself-the pleasure of were delivered. witnessing the "concentration of beauty" which a friend there informs us will be present, and who kindly invites us to mugle with the throng. The inducement is a powerful one, but beauty, it must not be forgotten, has sometimes a very dangerous influence—too frequently it "leads to bewilder and dazzles to blind"—and we tremble as we think of

"Some dreadful colds we've caught of late, While shivering in the shade of Beauty's frown!

First Presbyterian Church. The first Preshyterian church, in this bor ough, under the Pastoral charge of Rev. W. T. Sproke, will be reopened for service on Sabbath next, the 6th inst.

This fine old edifice, which has been closed for the last three weeks, has, in the interim, undergone a the rough renovation. The walls in the interior have been painted a light blossom colour the pulpit has been repainted; and all the other wood work in the Interior of the church corres pondingly improved, giving the whole a very light, beautiful and airy appearance. This church was built a number of years previous to the Revulution; it is constructed of finished limeston and its thick and massive walls bid, fair to resist the tooth of Time for centuries to come. Long may its devoted and eloquent Pastor survive to minister to the spiritual wants of his people, and seventh magnitude. the old sanctuary remain as a strong watchtower upon the walls of Zion:

We observe, also, that the Lutheran Church Rev. J. N. Hoffman, Pastor, is undergoing ex. linghuysen, of New Jersey, on the list of Whig tensive repairs and improvements, which will octripy a considerable length of time to complete. That congregation will, in the meantime, we un derstand, worship every Sabbath afternoon; in the first Presbyterian Church.

Resumption of Specie Pityments 15-We understand that by a resolution of the floard of Directors at a meeting last week, the Carlisle Bank will herenfter redeem its notes in specie on demand. We annuttee this step as the that we believe will gratify the public, and prove belieficial to the institution

# Concerts by the Blind!

Several Musical Conterts have been given in bur borough during the last week, by a party of pupils, composed of three young ladies aild five gentlemen, from the Pennsylvania Institution the education of the Blind. They are travel ling under the direction of the Principal of that Institution, Mr. David B. Towen, and a principal object of their tour and public exhibitions is stated to be, that of demonstrating the practicahility and advantage of educating the Blind. If such be the design we are sure that no spectator ever leaves their Concerts, without feeling, in the high gratification he has enjoyed, how fully they have accomplished their object. The skill and correctness with which they perform on the several instruments, and the sweetness, power and cultivation of their voices in singing, cunnot fuil to strike the audience with equal wonder and delight; while the calm, screne, and almost joyous expression of their countenances, speaks a deep seated contentment which is rarely enjoyed by many who are in the full possession of every sense but who, seeing, are blind to the true sources of

happiness. But perhaps the most interesting member of the party, is a little Chinese girl of fills years of age, who was Brought to this country by Mrs. GUTZLAFF, wife of the celebrated Missiohary In that country. This little girl, though she is entirely destitute of sight and has been in this country but a few years, reads with a correctnoss, fa-cility and ease that asionishes all who hear her,

The Pennsylvania Institution for the Blind is one of the noble charities which Is under the endowment of, and does honor to our State. No one, we are certain, will want stronger testimony than that afforded by these pupils, of the highly beneficial results which have followed the attempts of this institution to educate the Blind, nor can its appeal to the public sympathy be resisted by a commutity possessed of common sensibility of liberality.

IT The U.S. Gazette does not understand how the beautifying the public squares and repairing 2 621; we quote at 2 521 to 2 75; Rye Flouring improvement in the morals of our youth ;" as was urged by the friend who occupied our editorial chair last week; in a paragraph upon this subject. Well, if we cannot fully establish the correctness of the position with regard to morals there is at any rate no luck of other good reasons for having better pavements:

- OTA correspondent by the York Republican noticing the story relative to the death of a man near Wrightsville, from poverty and exhaustion denies that the citizens of that place generally knew of his situation. The correspondent says had his case been known there would have been Reveen C: Bares to Miss Ananda Bones, all of no want of attention to the sufferer.

The Hon T. P. Marshall has been louds on Temperance, through Kentucky:

John Quincy Adams,

This venerable patriot is on a summer tout o the North west. A splendid reception was given hith at the city of Buffalo, New York, on places in Cumberland and Franklin counties, or the 26th ult. Hon Millard Fillmore addressed him on behalf of the citizens, to whom Mr. Adams teplied, in which he said he took their kind atentions not as an evidence that they agreed with him in all his public acts and opinions, but as a ribute of respect to his motives, in his endeavors o serve them and their fathers!

We really cannot see what there is in our little notice of the Chambershift Times, last week, to excite the ire of the Editor so awfully: We would inform him that it is flart of "our own business" to attend to Franklin as well as to Cum. berland county, as far as the election of Congress. man is concerned; so that political tribkery shall be disappointed when it attempts to foist an advocate of the Free Trade humbug into Congress from a district so thoroughly friendly to the Tarlff as that of Cumberland, Franklin and Perry. And as there will be an endeavor made to give Mr. ty, during the month of September. He is stated McLanahan the nomination, it would be well for people of this district to call upon him to "define his position" without delay on the subject of the Tariff. No opponent of American Industry ban be elected from this district, Mr. Times.

Improvement in whatever regards the happiness

and welfare of our race is concumily on the march

to perfection, and with each succeeding day some new problem is solved, or some profound secret revealed, having an important and direct bearing over man's highest destinies. If we take a retrospective view over the past twenty years, how is the mind struck with wonder ! What rapid strices has science made in every department of civilized life ! partimarly in that which relates to the knowledge of the numan system in health and disease. How valuable and indispensable are the curative, means recently discovered through the agency of chemistry ! : How does the imagination kindle and our admiration glow at the ingenuity, the near approach to the standard of perfection, of the present time! Through the laborate investigations of Physiology, or the science . of Lire, and the Pathology of prevalent diseases, much valuable practical knowledge has been gained, In consequence of becoming acquainted with the organization, the claments of the various tissues and structures of the system, remedies have been sought after and discovered exactly adapted to combine with, neautralize and expel morbile matter, the cause of, isease, and substitute healthy action in its place.-The beautiful simplicity of this mode, of treatment s not only suggested by the pathology of diseases,. not only grateful to the sufferer, but perfectly in conmance with the operations of Nature, and satisfactory to the views and reasonings of every intelligent, effecting mind. It is thus that Sand's Sarsapavilla, scientific combination of essential principles of the most valuable regetable substances, operates upon the stem. The Sarsaparilla is combined with the most alutary productions, the most patent simples of the vegetable kingdom; and its unprecedented success in the restoration to health of those who had long pined under the most distressing chronic maladies, has given it an exalted character, furnishing as it does evidence of its own intrinic value, and recommending it to the afflicted in terms the afflicted only can know. It has long been a most important desideratum in the practice of medicine to obtain a remedy similar to this—one that would act on the liver, stomach and bowels with all the precision and potency of mineral preparations, yet without any of heir deleterious effects upon the vital powers of the
