

HERALD & EXPOSITOR.

E. BEATTY, EDITOR AND PROPRIETOR.
No. 110 N. 2nd St., PHILADELPHIA, PA.
Published weekly, August 16, 1845.

FOR PRESIDENT
HENRY CLAY,
Subject to the decision of a National Convention

**DEMOCRATIC WHIG PRINCIPLES,
SPECIALLY FOR THE PUBLIC EYE.**

OUR CREED.

1. A sound National Government, regulated by the will and authority of the Nation.
2. An adequate Revenue, with fair Protection to American Industry.
3. Just restraints on the Executive power, preventing a further restriction on the exercise of the office.
4. A faithful administration of the public domain, with an equitable distribution of the proceeds of sales.
5. An honest and economical administration of the General Government, leaving public officers perfect freedom of thought and of the right of suffrage, but with suitable restraints against improper interference in elections.
6. An amendment to the Constitution, limiting the power of the President to a single term.

These objects attained, I think that we should cease to be afflicted with bad administration of the Government.—HENRY CLAY.

COUNTY MEETING.

The Democratic Whigs of Cumberland county, are respectfully requested to meet in the Court House, in the borough of Carlisle, on
Wednesday Evening, 16th Inst.,
for the purpose of adopting measures to have Cumberland county represented in the Whig State Convention, which meets at Harrisburg on the 6th day of September next, to nominate candidates for the General Election, under the new law electing these officers by the people.

It is expected that two delegates will be appointed to said Convention by this meeting. A large turnout of the friends of Retrenchment and Reform is anxiously desired.

By order of the Standing Committee.
Carlisle, August 9, 1845.

The Meeting to-night!

We trust there will be a plentiful outpouring of Whigs tonight at the Court House, to give their voice in the meeting to appoint Delegates to the Convention at Harrisburg, on the 6th of September next. Let no one neglect so important a matter.

A number of shares of Harrisburg Bank stock sold lately for \$35 to \$37 a share. The price is \$35.

Thomas Williams, his son and another person named, of Mercer county, Penna., were drowned in the Malheur wreck near Edenburg, on Saturday evening the 6th inst. Mr. W. has left a large family to mourn their loss.

The Richmond Whig says that Tyler's chances for the Presidency resemble a dog running round after his tail! An apt idea.

John Quincy Adams has returned home after his long triumphant journey.

Mr. McLean Gardner, who struck the P. M. General with a knife on board the New York boat a few days since, was examined and declared insane by the jury. He was placed in the Baltimore Hospital, by order of the Court.

A new Episcopal paper called the Protestant Churchman has been started in New York in opposition to Puseyism.

President Quincy, of Harvard College, has thought proper to contradict the ridiculous rumor started by the New York Sun, that John Tyler received the degree of L. L. D. from that institution, during his recent visit to Boston.

An interesting employment it would be for certain officers in this State, to turn over their old files and read their elaborate vindications of Gov. Porter's honesty!

The members of the Bar of the State of New York have lately tendered a petition to the venerable and beloved Chancellor Kent, as a mark of their respect and admiration. The honor was respectfully declined.

The Hon. John Q. Adams arrived at Boston on Saturday from his recent tour. He has been everywhere received with most marked respect and attention.

Monsieur Blin, the celebrated Belgian giant who some years ago visited this country, died at Paris, recently, in his thirty-sixth year. An Englishman had challenged him to a boxing match, but on the morning of the contest, Blin was found dead from aneurism.

The brain has recently been tapped with success in a case of hydrocephalus. In the Dublin Medical Journal Dr. Butcher gives an account of an interesting case.

Two men were arrested in Lancaster, on Thursday, for passing two dollar counterfeit bills out on the Western Bank of Philadelphia. One calls himself Hugh Green, the other John Thompson.

First Debate in Pennsylvania.—Gen. T. M. Jolly, of the 22d District, is the first Delegate appointed in Pennsylvania, to the Whig National Convention, to be held in May next; and is instructed to support Henry Clay for President.

In the Philadelphia County Congressional District, of the family in flagging among the 10th district, where Charles Brown has been arrested, from the fact that he is a member of the Pennsylvania Convention, and has been arrested by the Philadelphia Police, for passing counterfeit bills.

First Debate in Pennsylvania.—Gen. T. M. Jolly, of the 22d District, is the first Delegate appointed in Pennsylvania, to the Whig National Convention, to be held in May next; and is instructed to support Henry Clay for President.

Speaker H. H. Wright.

The readers of the Herald will recall the eloquent speech he published last winter, made by Mr. Wright, then Speaker of the House of Representatives, at Harrisburg. The cause of Retrenchment and Reform had not more powerful advocates than the gentleman who handled the Administration and the Canal Commissioners without gloves, and exposed their corruptions and pecuniations with the skill of one who knew perfectly the *modus operandi* of getting rich through a public office. We have no doubt that all he charged against the Administration was true to the letter—no one had better means of knowing than this same Mr. Wright. He had himself been hanging like a leech upon the Treasury, and like the great mass of the party only became an Anti-Porter man because he was disappointed in getting a large enough share of the spoils! Mr. Wright's speech, therefore, told the truth, though it was given like that of the criminal who has turned State's evidence.

But the Administration has now a story to tell of him, and it is quite as bad as one any he told of the Commissioners. One of the Canal Commissioners, Mr. Overfield, has lately published a statement in relation to the cause of Mr. Wright's opposition to the Administration, which exposes the rascality of the leaders of Locofisecism in Pennsylvania. The people of this State should learn by this that there will be corruption in the Administration as long as a party has control of the public works, and the only remedy for this state of things is a sale of the improvements. Let this measure be urged by the people, and petitioned for continually, until the sale of the public works is effected.

But to the statement. When this gentleman was, some time ago, mentioned as a candidate for Canal Commissioner by a contemporary, says the Philadelphia National Forum, who wished to reward him for his denunciation of Porter and the Canal Commissioners, "We said that Mr. Wright had been actuated in his course by no patriotic motive, and that his opposition was the result of disappointment and malice. That we were right in this suggestion, is clearly shown by a recent publication emanating from William Overfield, of Luzerne, one of the Canal Commissioners. He says, in 1841, Wright was in favor of the late mode of appointing the Board, and strenuously opposed any change. But within about three months after the close of that session, Mr. Wright presented a petition to the Board, which, from its character and propositions, could not be otherwise viewed by any unprejudiced mind, than as a claim for reward for political services. In that petition, he prayed for the creation of a bridge over the canal on an out lot belonging to him near the town of Wilkesbarre. He stated that the cost of the bridge, according to the estimate of one engineer, would be about \$1000—and according to that of another engineer, it would be over \$700; but he would waive his claim to the bridge if the Board would give him SIX HUNDRED DOLLARS! When it is known that even Mr. Wright had been the owner of this out-lot at the time of the location of the canal, he would not have been entitled to a bridge; but the application was made by him shortly after the termination of a session of the legislature, in which he had been the open and avowed advocate of the Commissioners, ten years after the completion of the canal; and that he offered to release his claim to a bridge to which he had no title, he was not entitled, on the payment of the sum of \$600—the true character of his petition cannot be mistaken. That it was merely a cunningly contrived scheme for political services, no man will doubt. That it was viewed in that light by the Board of Canal Commissioners, may be inferred from the fact that they never acted upon it, but turned it over, among other unfinished business, to their successors. When the present Board of Commissioners came into office, Mr. Wright reminded them of his application, and on the 5th of July, 1842, they took the subject into consideration, and unanimously rejected the prayer of the petitioner.

The loss of this claim of \$600 for political services rendered in his representative capacity, was the first cause of his irreconcilable opposition and vile attacks.

But the pure and incorruptible representative standard he has established arising from his grievous disappointment, nullified the improper influence which might be wielded by a corrupt occupant of the Speaker's chair, some time after his elevation to that station, he declared to more than one member of the House, that if the Canal Commissioners would appoint his friends whom he should recommend, to offices on the North Branch Canal, he would not only defend them in the House of Representatives, but would give them any committee they might want! But that if they refused to do so, he would give them a young H—l, or words to that import. Accordingly he recommended Messrs. McKinnon and Dean for re-appointment as Supervisors, when he well knew that the Board, in their system of retrenchment, had determined to place but ONE SUPERVISOR on that line. The Board did not consider either of those applicants as possessing the requisite efficiency for that station, and appointed another person whose qualifications had previously been tested. He likewise recommended his friend Willets for Collector, when he had the positive evidence that Willets was a defaulter, as Collector at Wilkesbarre, to the amount of over \$4,000—for it has since been ascertained from the statement of Willets, that at the time Mr. Wright was urging this appointment, he had TWELVE HUNDRED DOLLARS of this delinquency in his possession for his own purposes. The Board, however, refused to appoint his defaulter friend, and turned to his threat, he commenced his warfare upon the Administration, and the Canal Commissioners in particular. The base slanders which he concocted and circulated under the protection of his legislative privileges, are well known; but it is not so generally known that whilst he was falsely charging corruption upon others, and hypocritically prating about the purity and patriotism of his course, in scolding the Commissioners, he had in his pocket TWELVE HUNDRED DOLLARS, identified from the public treasury, and loaned from the defaulter whom he urged most strenuously for re-appointment.

Of course, there are two sides to this question; but several weeks have elapsed since Mr. Overfield's statement appeared, and Mr. Wright's silence, who proclaims that he will be continued in office, shows that he has no other side to his case. This I believe, is partly occasioned by the length of days required by exercise in vocal music, which constitutes a part of their education. The music master of our academy has furnished with an obedient will more in favor of this option; he informs us that he had heard several instances of persons who, were strongly disposed to censure upon who were strongly disposed to censure by the exercise of their lungs in singing.

LAST LOGOFOO LEGISLATURE.

Testimony of Van Buren Press as to its Plundering the Public Treasury.

The New-York Bureau paper started in Harrisburg, "The Commonwealth," a Liberator, and the following articles, the Harrisburg Telegraph, some containing, are going to show that the last Legislature was a robbery in its entirety for the first time for years—scraped its self no little in taking advantage of its joint session to plunder the Treasury of the State in a style exceeding all precedent. Behind the smoke raised by their cries of "reform," the CONTEMPORARIES of a session of 106 days, amount to FOUR THOUSAND EIGHT HUNDRED AND NINETY DOLLARS MORE than the session of 1830-31, consisting of about 155 days! The postage bill, it will be seen, is also enormous. Among the items are SILVERSMITH'S BILL for one hundred and thirty dollars! What was this for? It is rumored also that the wife of a distinguished Locofoco leader in the House, wears a gold chain which she people's money bought! And this is Locofocoism! The party and the principles of the party are responsible for these porters. It is folly to charge them upon the Porter or Anti-Porter sections; for they both participated in them. The amount of the plunder is the more remarkable considered in view of the notorious fact that the Democratic Harrison interest, carefully avoided receiving any of the presents which were circulating continually from that public centre, the Clerk's desk. Mr. Craig, of Allegheny, and others indignantly spurned them from them, and paid besides most of their own postage bills! Yet the contingencies of the House alone reached the sum of more than twenty seven thousand dollars! Besides a postage bill of over thirteen thousand dollars, all exclusive of the printing and the pay of the members! Let the tax payers lay these facts by in their memories for action upon at the next election day. It must be evident to them by this time, that the only way to bring about true reform is to sweep Locofocoism of all factions, from the Halls of Legislation.

Take a look at the expenditures of the House, where's a member could make a speech on any subject, without talking about reform!

On pages 91, 200, 717, 673 of the 2nd volume of the English Journal of the House, there will be found various details of the amount of \$28,774.44 for contingencies, such as candles, paper, hardware, &c. On page 857 of the same volume, document No. 147, there will be found immediately before Speaker Wright's name, in the account of pay of members, the remarkable entry—amount due for receipts, \$5,629.22! What item this was, we have not yet been able to ascertain. Neither have we yet been able to ascertain who drew the money. It is a part of the report says that warrants shall be drawn in favor of the persons for the sums set opposite their respective names. There is no name to this. And, says the Speaker Wright, "It is a part of the contingencies, but who got the money we do not yet know. Add this sum to the other and the contingencies for candles, paper, &c., amount to \$30,775.56. This would give each member as his share, \$27,673.73. This is a large sum, but the report says that warrants shall be drawn in favor of the persons for the sums set opposite their respective names. There is no name to this. And, says the Speaker Wright, "It is a part of the contingencies, but who got the money we do not yet know. Add this sum to the other and the contingencies for candles, paper, &c., amount to \$30,775.56. This would give each member as his share, \$27,673.73. This is a large sum, but the report says that warrants shall be drawn in favor of the persons for the sums set opposite their respective names. There is no name to this. And, says the Speaker Wright, "It is a part of the contingencies, but who got the money we do not yet know. Add this sum to the other and the contingencies for candles, paper, &c., amount to \$30,775.56. This would give each member as his share, \$27,673.73. This is a large sum, but the report says that warrants shall be drawn in favor of the persons for the sums set opposite their respective names. There is no name to this. And, says the Speaker Wright, "It is a part of the contingencies, but who got the money we do not yet know. Add this sum to the other and the contingencies for candles, paper, &c., amount to \$30,775.56. This would give each member as his share, \$27,673.73. This is a large sum, but the report says that warrants shall be drawn in favor of the persons for the sums set opposite their respective names. There is no name to this. And, says the Speaker Wright, "It is a part of the contingencies, but who got the money we do not yet know. Add this sum to the other and the contingencies for candles, paper, &c., amount to \$30,775.56. This would give each member as his share, \$27,673.73. This is a large sum, but the report says that warrants shall be drawn in favor of the persons for the sums set opposite their respective names. There is no name to this. And, says the Speaker Wright, "It is a part of the contingencies, but who got the money we do not yet know.
