The following resolution was passed : Resolved, That the Democratic Whigs of Cumbeiland county be requested to meet at the usual places of holding borough and township elections, on SATURDAX the 9th day of September, at 2

o'clock, P. M., and elect two delegates to represent each borough and township in a County Convention, to be held in the County Hall, in the borough of Carlisle, on TUESDAY the 12th of September, at I o'clock, P. M., to nominate a county ticket.

JAS. POSTLETHWAITE, Clon. JOHN OFFICER, Secretary. E-00111-101 New Papers.

We have quite a number of candidates for the patronage of the community in the shape of

new papers, on our table this week. We hope bey may all meet with the success they deserve The Semi-Weekly Gazette and Lancaster Penny Advertiser is the title of a new penny paper just commenced in Lancaster, by Messrs, Pearsoll & Wiley. The "Standard," is the fitle of a very spirited mer just commenced at Hollidaysburg, Pa., by John Dougherty. It opposes with searching a bility the Tyler, Porter and Butler party. Another "Standard " has been planted in Ge tysburg, by J. T. H. Bringman. It is very neat

y got up, and intends opposing political parties und advocating Temperance. We hope its Edi tor's efforts will bring men in thousands to rally around the standard of total abstinence.

The Public Works IF The result of the system of retranchment upon the Fablic Works introduced by the Board of Canal Confrissioners, and of their efforts to reduce the prin of freights and consequently to ingrease the amount of tenage, we leave from the Harrisburg Arges, (locofoco,) has been most satsfactory. Insight of being a burthen upon the Treasury, it is now satisfactorily shown that the in which it is viewed by the public. At the them for worth and integrity of character. Mr. J. Main Line has been made a profitable source of same time we also corrected an error which is W. Patton of this borugh has also been mention. evenue: "The increase of the receipts of the toll generally held with regard to the character of our ed, and with very great favor by those who were ac upon the Main Line, in the month of July, 1843, foreign creditors : who are generally supposed to quainted with him as superintendent of the Al-

\$33,662,94; and the whole amount of receipts ing retired officers, ministers, anthors, widows following communication which we find in the for the month, is \$98,615,28. The Philadelphia and Columbia Railroad has also, by judicious management, been made to

yield in the last five months, a clear profit, over all expenditures and habilities, of \$108,848,95, These results are attributable to the late judi nous revision of the rates of toll, and to the enouragement given to Individual enterprise and

competition in the carrying trade. The increased nott profits is the result of retrenchment in the management of the motive power as well as of the increased amount of business. From present indications there is no doubt that the main line now more than pays the interest of its cost, be-An adequate Revenue, with fair Protection to sides paying current expenses and repairs. We have been informed, from what we deem good authority, that the main line of our improvements will pay into the Treasury this year, after majn taining themselves in operation, between eight hundred thousand and a million of dollars. This is a sum equal to half the annual interest on our funded dobt, and may well account for the rise of State Stocks.

As the election of Canal Commissioners is aproaching, the Argus, which is the organ of the Administration, may have made up the above very satisfactory statement to operate in favor of the present Board, who will endeavor to be placed in nomination for refelection. The statement should therefore be received with caution and a

large degree of allowance. But let it be true or not, our experience within the past seven or eight g. Committee of Cumberland county, held at years ought to be sufficient to convince the penthe public house of Mr. William Brown, in the ple, that to entrust the State Government with the management of the public works is a wrong and unsafe policy. The mere fact that the Commissioners have at length found out that the improvements can be so managed as to produce a revenue bove their expenses, only shows how villainously the State has heretofore been robbed and Mandered. During Governor Ritner's Administration the Philadelphia Railroad, under the very excellent management of Mr. Mehaffey, was made to yield a surplus of \$30,000 per annum, but in the very first year of Porter's term it fell more than that amount behind, and has continued so ever since to the present time. We believe that sound policy would suggest a sale of the public works.

so as to reduce the State Debt to a manageable am, and so believing shall continue to advocate their disposal to companies.

The Whig Prospect. The National Intelligencer has an excellent article on the subject of the "prospect ahead." The falling within their reach. emarks of the Intelligencer are full of the sound

sense which has always characterized the course of that paper, and we wish it were convenient on to General Scorr: to copy them 'entire into our columns. This,

however, is not the case. We' content ourselves with the following extract : "For purselves we have not the least doubt that the Whig Party is at this moment stranger than it was four years ago; more powerful because-more united and compacted; and better prepared than ever it has been for conflict with its advac

and accomplishing good for the country. We look forward, then, with cheerful and abiding con-jidence to a victory for the Whigs in November, 1831, hardly interior in builliance and decisives iss to that which it won in November, 1840. ness to that which it won in November, 1840..... We do not now doubt, and we never *have* doubted of this result."
