effect which is produced, but altogether in the power of virtue in the soul; in the energy with which God's will is chosen, with which trial is borne, and goodness is loved and pusued."

LIFE AND DEATH OF THE SEXES.-The laws of life and mortality between the sex-

1. In the present condition of the white a pocket-book. Every discovery in sci- tilan shall be the husband of one woman. -2. At 20 years of age the females exceed the males. This proves that between hirth and 20, the mortality among the boys

> 3. From 20 to 40, the men again much exceed the women, which shows that this is the period of the greatest mortality a-

4. From 40 to 70, the difference randty diminishes, the females, as in the early part of life, gaining on the males. This shows that this is the period of the great-

pension-every election or appointment; est daliger, and exposure to men, and the least to women. 5. From 70 onwards: the women outnumber the men. This shows conclusively that relatively speaking, in comparison with men, the healthiest period of female life is at the close of it. Absolutely, however, no period to either sex is so healthy

boyhood and girlhood. The above deductions of statistical tables correspond with every day observa-

tions of human life. Women are exposed to neculiar hazards in the middle of life; but in the long run, too much to say that the jest which has far the greatest part of this exposure, danbeen uttered in Boston or Louisville is, in ger, and risk, in civilized nations, fall on FA steamboat cantain, after hearing warmin of the sun-beams, the healing cool. One feels one's self near this ocean of pow- dom or the pleasantry; the ribaldry or the John Quincy Adams speak, is said to have coarsenees exhibited in one of the Halls of made the following quaint remark :Oh?

An elderly gentleman travelling in a
