WE HAVE STILL SOME HOPE. A SURPRISING CURE, — Among the many -singular cures which this medicine has effected, there is perhaps none in which its powers are so fully shown as in the case of Airs. Austin. This lady had been consumptive for several years, and during the greater part of this time had received the best medicine, such thing could be found to arrest its progress. She became subject to violent fits of coughing, expecterated large quantities of matter occasionally tinged with blood, and step by step this fearful disease continued its course, until all hope of a recovery was entirely despaired of.— While in this distressing situation, lingering upon the very terge of the grave, she commenced the use of this Balsalm, which, to use her own expression, operated almost like a charm. In a few days she expectorated freely, the cough was gradually sup-pressed, and every day appeared to add fresh vigor to her hooks, and now, in the place of that ensacted form withering to decay, she is seen mingling in society, in better health than she has enjoyed to years. meet them.
