Although no ticket was placed in the field by the Whig County Convention last week, it is Canal Commissioners, by the Democratic Harri-Convention, we are sure, contemplated no such he Whig candidates for Canal Commissioners,-

The Whig County Convention gave no recom plunderers no abettors. They are men whose lives mendation of either of these tickets. But it will and characters are a guaranty that, if elected, one who is in the slightest degree acquainted with and devoted public servants.

#### Judge Black's Position!

A pretty Well-grounded opinion exists in judgment, unbending integrity and firmness of his district among all parties, that Judge Black, | character. licitation of many friends, JOHN RUPP, Esq., of Perry county, the lately nominated candidate of E. So the peo. | their election. man, we are free to say, is better qualified than ple seem to think, and so widely has this feeling no true sense of the word be called a supporter of his Administration at this time. Any one can see that these are very soft terms to use toward a Governor who has so entirely lost the confidence of the people as Porter has. There is nothing in this equal to the manly stand taken against the ty of the Union." Mr. Wise made his forty-fifth halloon as. Governor by General Miller and other Anti-Porter cension from the borough of York, Pa., on the men in this county, and we opine that Judge 2d instant, and landed near Lancaster city, as per Black's letter will fail to convince the people that he is that stern, uncompromising opponent of the Governor that every candidate who wants the votes of this district should be. Merely to express "decided disapprobation" of the Governor's course with respect to the "lumber" transactions and other things, is too gentle a way of dealing, when the people are every where talking of arraigning the Governor at the bar of the Senate for gross malversion in office!

### Something Strange--very!

Titis wonderful to see the concern manifestee by some of our "Mormon" opponents at the course of the Whig Convention, and many of our good Whigs have been not a little surprised at the very great anxiety evinced by the Locos for the prosperity of the Whig party! It is something new and altogether unaccountable. We are informed that several leading loco focos in the lower end of the county actually promised to a Whig in that section, that if a Whig ticket could be settled they would give it their hearty support! How kind-how magnanimous! but how green they must have thought this whig to be! The "Mormons" support a Whig ticket! That's the last

attempt at Humbug! Now we can put some confidence in the Anti-Porter party. They have been standing out from their party a year and a half and have given some evidence that they are really and truly seeking to introduce Reform into the administration of the government. We know them to be good and true Anti-Porter men. But the "Mormons" with their milk-and-water resolutions --- sort-o'-Porter and sort-o'-not-cannot be trusted-the Whice can have no connexion with them. ### Dreadful Railroad Accident. A disastrous accident occurred on the Balti

more and Susquehanna Railroad, on Tuesday morning, by which a number of persons were seriously injured, and, it is feared, several will lose their lives.

When the first train from Baltimore, says the American, which left at 7, A. M., with a large party of Defenders, Military, and Citizens. on their way to the celebration at York, (Pa.,) had reached a point about eight miles from York, the front axle-tree of the first passenger car broke, throwing the car and the two following it off the track, and splintering all three cars, the first one being almost entirely demolished. The cars being crowded with people, a scene of confusion and

dismay ensued which may be readily conceived A number of persons who were imprudently standing on the platform in front of the cars were thrown off, some of them being caught between the cars, and others forced under them. Many, Petersham, Massachusetts, who has heretofore we are happy to say, escaped unhart; but thirteen persons were found to have been more or less in- and integrity. He was arrested, and pleads

was the enormous sum of upwards o SEVEN HUNDRED THOU SAND DOLLARS lost to the State in a single year, by the mismar igement of the public officers, or by the outrage ous system of WHOLESALE PLUNDER pract tised by those officers on the public works. This sum, properly appropriated, would have been sufficient to have paid nearly the half of the interes of the public debt, and relieved the people of one year's taxation. It cannot be pretended for a moment that this enormous expenditure was nessary to carry on the works. It is clear that he money was squandered upon political favor-

ites as a reward for partizan services. Now the question is an interesting one to the cople of Pennsylvania at this time-under whose anagement were the public improvements at the ine these enormous abuses were practised?-Why, the same James Clark of Indiana, who is now the Locofoco candidate for the same office was then the President of the Board of Cana; Commissioners!

What confidence can the people have in the ibility or integrity of a public officer under whose administration of the public works such astounding corruption and plunder was permitted? Will they -- can they reinstate him in the same office, to revive, perhaps, the same system again, at a time when the Commonwealth is bleeding at every nore, and when every dollar of public revenue ought to be carefully husbanded and appropriated to the payment of the interest due to the innocent and suffering holders of her State bonds, her domestic creditors, and-the poor, but honest laborers who have toiled in her service, and have been cheated by her dishonest agents? We greatly mistake the feelings and temper of the list as the candidate for the Eastern portion of the people of Pennsylvania on this subject, if they do

For this purpose they have taken the appoint, nent of the Commissioners from the Governor, Col. Armstrong Noble, N. But will the people submit to this party dictation? No! The election of Clark and Foster would defeat the very object they had in view in making the Commissioners elective. They desired by that act to take the management of the Improvements out of the hands of the old efficers, altogether, for TWEED, WEAVER and GUIL. This they can accomplish by voting for the men placed on the Democratic Whig Ticket. The Columbia Protector gives the following instance of Mr. Freed's conscien tions honesty. It is really refreshing to hear of such noble conduct in these days, when conduct so much the reverse is daily practised. With American, as much as agriculture, and far more such men for Canal Commissioners our State Treasury would be safe.
