CORRESPONDENCE,

#### Carlisle, 22d September, 1843. TO GEN. THOMAS C. MILLER.

DEAR SIR :--- The Whig party is placed in the beculiar position of having no licket of their own for the approaching election. Their delegates came to the conclusion that the political interests for the approaching counter came to the conclusion that the political interests of the party would be best promoted by permitting the tickets thready presented by the respective portions of the democratic party to carry on the contest. —Perhaps they concluded wisely—but whether tor not, they were the delegates of the party, and as good Whigs we are bound to ac-divise on in their decision. But our party professes to be guided by " principles and men," and if I know it, if will not cast its vote blindly for any one whose opinions are either unknown or op-

posed to the great leading interests of the country. I trust, sir, you will not deem it intrusive or in-I dust, any you win not adon't it intrusive or in-tended to prejudice your political prospects, that I ask for the information of Whigs, for your opinions on the following subjects: I. Are you in favor of a Tariff for the protection of American Inducers?

1. Are you many and f American Industry? 2. What are your opinions respecting the Dis-ribution of the Proceeds of the Public Lands? 3. What views have you with regard to a Cur ency, fit for the necessities and business of the untry ?

These are questions which enter into the poli tical creed of the Whig party, and no man can command its support whose belief differs widely from it. But there is one other subject about which I desire to make an inquiry: What is the meaning of the designation of "Anti-Tax Demo crats" which has been given to your party ? Respectfully, your friend, FRED'K. WATTS.
