

Remember the Poor! The severely cold and inclement weather of the last few days, should press this important injunction upon the hearts of all who are in wealthy or comfortable circumstances.

First Presbyterian Church.—We are requested to state that Rev. Dr. CARROLL, of Philadelphia, will preach next Sabbath, in the First Presbyterian Church of this borough.

To New Subscribers! Being desirous of increasing the list of subscribers to the Herald, we renew our offer made last week, to send our paper one year to all new subscribers who will pay CASH in advance for ONE DOLLAR AND SEVENTY-FIVE CENTS per annum.

We would respectfully ask our Whig friends, especially from Cumberland county, to give us their assistance in increasing our list, and thus give a wider diffusion of the light of whig principles and whig measures among the people.—We would ask each one of our present subscribers to endeavor to procure us at least one name in addition to his own. Should this be done we promise that our paper shall be made of increased usefulness to its readers and such improvements added as shall make it worthy of the increased patronage. Will our country friends think of it, and use their exertions?

The Coming Court Will furnish an excellent opportunity to those of our subscribers who have just paid last year's subscription, to settle the amount due from them. Those who are called here on business at Court, will, we hope, not forget us. No business, more than that of publishing a newspaper, requires prompt and punctual payments.

Our Borough Notes. We understand that a majority of the merchants and traders in town, have resolved not to receive the borough notes hereafter, except at a discount of twelve and a half per cent. It is to be hoped they will now be entirely banished from circulation.

We also learn that the funding of the borough notes is rapidly going on. About eight thousand dollars have been withdrawn from circulation by this means.

Campbell's Magazine. Campbell's Semi-Monthly Magazine for November, is published.

It contains a beautiful Mezzotint of Espartaco, late regent of Spain, with a memoir; a full biography of Sir David Wilkie; a memoir of Gen. Suwarow, which by its way is a condensed military history of Russia, from the Empress Catherine to the present day; No. 3 of the Recollections of Napoleon at St. Helena, so interestingly told by Mrs. Abell; besides several articles, and a condensed summary of general foreign intelligence.

It is published twice a month, and costs only five dollars a year.

There was a considerable fall of snow in this section of the country, on Saturday afternoon last, being the first of the season. The bright flakes fell thick and fast for some time, but as they melted on the ground with equal rapidity, the anxiety of many young persons especially, who perhaps feared that there would be sleighing were speedily dissipated! The weather-prophets predict that there will be an unusual quantity of snow the ensuing winter.

Another heavy fall of snow took place yesterday. The signs are ominous of a severe winter. We learn from the "Statesman," that in addition to other counsel, THOMAS STEVENS, of Lancaster, has been engaged on the part of the defence in the trial for alleged Libel upon Judge Hepburn. If this be so, the fine array of legal talent on both sides will make the trial one of national interest. The case will be tried before a Special Court, commencing on Tuesday next, the 14th inst.

Melancholy Accident. We learn that on Tuesday the 24th ultimo, Mr. WILLIAM RHINEHART, of North Middleton township, having ascended a large chestnut tree on the North Mountain, for the purpose of gathering the fruit, lost his balance, and was precipitated to the ground, by which he was almost immediately killed. Mr. Rhinehart was about 60 years of age, was a worthy man and good citizen, and has left a wife and family to lament his loss.

New Clay Paper! Messrs. McCarty & Knabb, of Harrisburg, announce their intention to publish a new Clay paper for the great Campaign of 1844, to be called "THE CLAY BUGLE." The first number will be issued on the 1st of January next. Turns One Dollar per annum. The great length of their prospectus prevents our publishing it. It will no doubt be an active and efficient auxiliary in the great cause.

The Philadelphia "Forum" has passed into the hands of B. H. Badger, Esq. The Editorial control of it will remain in the able hands of James S. Wallace, Esq. We are glad to see a goodly portion of Sherif's advertising in its columns.

Our readers should not be deterred by its length from reading the article entitled the Tariff and the Presidency, on the opposite page.—The subject is never of greater importance than now.

We are gratified to learn that the loss experienced by Mr. Baker, of the "Perry Freeman," in the late fire at Bloomfield, is not so great as we were led at first to believe. The "Freeman" will be issued this week and regularly hereafter.—Success to it.

The Philadelphia and Columbia railroad is to be thrown open to passenger cars from the 1st of January last, and the present arrangement discontinued.

We learn from the Philadelphia Inquirer, that the Bank of Pennsylvania has commenced discounting again and resumed active business operations.

The Philadelphia has been doing suitable honors to General Bertrand, the soldier and bosom friend of Napoleon. He is now in Baltimore.

The less free papers are now rallying their forces in favor of their own candidates, but to oppose Henry Clay! Shows their increasing alarm.

John Quincy Adams led, an enthusiastic reception at Erie, Pa. on Tuesday last, by the military and citizens of that place.

It is said that G. W. Tyson, of Philadelphia, has received the appointment of Assistant Post

Important from England. The Standard Briton arrived at Boston on Saturday last. The most important intelligence in it is the English list of late James' stand against the Irish Repeal agitation.—Daniel O'Connell, has been arrested on a charge of conspiracy and sedition, but subsequently released on bail. It has produced some consternation among the Repealers, and changed their tone considerably. We shall give further particulars in our next.

Union and Harmony! We clip the following from the Lancaster "Union" of the 24th ult. We observe it is copied and endorsed by the Pittsburg "Gazette," Gettysburg "Star," and other Antislavery journals, indicating the disposition of those papers to cordially unite for the proper time, in the support of Henry Clay for the Presidency: "The old Harrison party is beginning to arouse from the lethargy into which it had been thrown by the treachery of Tyler. The prospect of a new becoming fair; and by prudence and union and harmony, at the proper time, 'Old Tip's Army' will be found in 'solid column' marching to the rescue of the Union. Our opponents may find us disarmed before us, and good and wise men are elected for the Presidency and Vice Presidency, they will find us all united—all questions of a local nature, for the time, cast aside, and every eye will be turned to the success of correct principles. Clear up! Let each man say to his neighbor: Arouse the day begins to dawn; arm your self for the fight; the hour has come when your Country needs you. Let us not exchange the work of destruction in still going forward, and I have no hope of its ceasing till this brave people are finally crushed, and their independence is gone. What will be the end of these things no one can tell."

The Nestorian Massacre. In a letter, dated July 28th, Doct. Grant, the American Missionary, considers the complete subjugation of the Nestorians inevitable. "The work of destruction is still going forward, and I have no hope of its ceasing till this brave people are finally crushed, and their independence is gone. What will be the end of these things no one can tell."

The Rochester Daily Democrat quotes the following passage from a speech delivered by the Hon. Henry Clay, at a colonization meeting, in 1837: "If I could be instrumental in eradicating this deepest stain (slavery) upon the character of our country, and remove all cause for reproach on our national name, I would not exchange the proud satisfaction which I should enjoy for all the honor of all the triumphs ever decreed to the most successful leader."

The influence of the present Tariff in restoring prosperity to the country, is not unperceived; and this circumstance (justly) observes the Philadelphia Forum in opening the eyes and convincing the understandings of thousands who have heretofore opposed that policy and advocated free trade. The light of experience has become too intense for them longer to remain in darkness, even the willfully blind can scarcely fail to see what has been accomplished by the passage of the Tariff Act.

"The Liberator" has, on the first page, of the most terrific war articles that we have lately seen. As it is not credited, our curiosity is aroused to know where it was taken from and who is the author. "War with England will be a blessing to mankind," says this ardent warrior, whoever he may be. But the cause and the provocation for her does not seem proper to give, and these are generally considered indispensable to its declaration! Do explain, neighbor. Our military must brush up!

The State Election in New York, for members of the Legislature, took place yesterday. We shall have returns on our next.

The Massachusetts Election takes place on Monday, the 13th, for Governor and Legislature. We look for old Massachusetts to redeem herself from Jacobinism.

Elections also take place this week in Mississippi and Michigan.

On Monday night last, in Augusta township, Northumberland county, a young man named James Van Dine, was beaten in such a dreadful manner with clubs, by two men named Hunter, and another whose name was unknown, that he died soon after. The villains have been arrested, and lodged in the jail at Sunbury.

Dr. George L. Fane, an amiable and intelligent gentleman who had represented Adams county in the Legislature several times, and was one of the Secretaries of the Reform Convention, died in Berlin, Adams county, last week.

Section.—Charles W. Hopburn, exchange broker, Philadelphia, has been held to bail, for the seduction of a young girl in that city, under circumstances of a most villainous character. Indeed, if the testimony of the girl be true, it was a rape. Amanda Barney alias Simmons was also held in bail as a participant criminal.

The First Woolen Factory.—We learn from the Cincinnati Gazette, that the first Woolen Factory erected in the United States, was at Hartford, in 1790, and it is said, that Washington delivered his inaugural address to Congress, in a suit of broadcloth from this factory.

William Fleck, a carpenter of Lancaster, committed suicide, by cutting his throat, on Wednesday the 25th ult. and died on the following Friday.

A man named Joseph Gracy has been committed to jail in Lancaster, charged with the murder of Frederick Clark, a German woman, in Columbia a few weeks since.

The suggestion of the New York Courier, that Mr. Webster should be nominated for the Vice Presidency by the Whig party, appears to meet with general disapprobation.

Rev. Abel Brown, anti-slavery lecturer, was mobbed on the evening of the 6th ult., at Ballston, N. Y., while attempting to speak upon the subject of slavery.

The Rev. Mr. Fowler, late pastor of a Presbyterian church in Utica, N. Y., has quitted his sacred office and been admitted to practice at the bar.

Of the two regiments of U. S. troops stationed at Jefferson barracks, Missouri, five hundred of the men have signed the temperance pledge since the first of last month.

A young lady of sixteen, daughter of a merchant of Wilmington, Delaware, lately married with a journeyman chemist.

DR. RUSH'S INFALLIBLE HEALTH PILLS. TWELVE AND A-HALF CENTS A BOX. The proprietor of this invaluable legacy of a great man, has for some time failed to present them to the public in an advertisement. To reason is a fine one. So much has their use given satisfaction, and so strongly have they been recommended to one another, that the demand, both here and for foreign agents. During the present month, more than a hundred gross of these pills have been ordered, and are being sent to all parts of the city and vicinity, and supplied to Agents throughout the United States; and many orders have been on hand weeks before they could be filled. In fact, it is a very rare article for the day when the pills in use will be that which is the most valuable. THE HEALTH PILLS, late of Carlisle, were cured several well knowing individuals who had returned to perfect health, and who had long languished in the arms of pain they have operated like a charm, when all other medicines failed even to afford relief; they have given comfort to the sufferer, and hope to the despairing; they have restored the life of the young and given back youth to the aged. Indeed, they seem to possess the properties ascribed by the physicians of former days to the most valuable medicine, that conquerer of infirmities, to discover which they passed long days and weary nights of labor and study.
