## LAOTLEO TEL S. CLARER

the solution of the solution o CAREESER, FA.

Wednesday Morning December 13, 1843

CTV, B. PALMER, EEq., No. 59 Pine street, be-ow Third, Philadelphia, is authorized to receive absort ptions and advertisements for the "Herald & Expositor," and give receipts for the same.

We are requested to state that the Rev. WM. R. DEWITT, of Hartisburg, will supply the pulpit of the First Presbyterian Church of this borough, on next Sabbath. Services to commence at the usual hour.

The first page of our paper to-day is wholly occupied with the President's Message, but these of our readers who are not politicians and who look upon such documents as very great "bores," will find on the fourth page some good poetry and, an interesting sketch of Thanksgiving as it is observed in New England. A 19 /

OF A call for a State Convention of the Dem. ocratic Harrison party of this State, signed by the State Contral Committee, will be found in to. day's paper, to which we ask attention.

pr We are indebted to Hon. James Black, of the U. S. House of Representatives, for a copy of the President's Message. An attentive friend in Washington, to whom

we are indebted for several favors within the last week, will please accept our thanks.

Dreadful Casualty.

IPAn exceedingly distressing accident occur red on the Valley rail road, on Friday morning, last, between Newville and Shippensburg. It appears, says the Shippensburg "Democrat," that a young man named David Pague, was employed to accompany the Löcomotives that morning, to assist in clea ring the snow from the Rail Road track. He was scated on the "bumper" of the

front Locomotive and by some accident fell off, and melancholy to relate, the wheels passed over him, terribly mangling both legs and an arm .---He died in the evening of the same day.

OpA fine fall of Snow took place here on Thursday last, reaching a depth of from eight to twelve furmers, their law makers, and their frinters -- all mches. Sleighing has of course licen "all the go" for the last week. The enterprise of our rail road companies, prevented the delay of the mails for any great length of time.
