The proprietor of this invaluable legacy of a great man, has for some time failed to present them to the public in an advertisement. The reason is a plain one. For years, both in summer and winter, the only mitigation of my suffering was found in pouring upon those parts cold water. From my limbs the pain extended over my whole body. There was literally for me no rest, by day or by night. Upon lying down these parts would shoot through my system, and compel me to arise, and, for homestogether, walk the house, so that I was almost entirely deprived of sleep. During this time the Erystpelas continued active, and the ulcers enlarged, and so deeply have these caten, that for two and a half years they have been subject to bleeding. During these almost twenty years I have consulted many physiciaus. These have called my disease—asir was attended with mobstinate cough and a steady and active pain in my side—a dpopsieal gonsumption; of many instances almost daily heard for its but one of many instances almost daily heard of Reading, March 3, 1839.

This certifies that my wife Mrs. Deen, had for nearly cleven years suffered from a scrofulous cruption resembling tetter which ate deep holes in her face, neck and arms, the constant discharge of which destroyed her health, and frequently confined her for different periods to her back, during which time her sufferings were very great. The best nedical attendance was obtained, and all the known remedies were tried with but an alleviation of her complaint, which advava returned with increased malignity. as it was attenued within nostmate cough and a steady and active pain in my side—a dropsical gonsumption; and though they have been skilful practitioners, they were only able to afford my case a partial and temporary relief. A single bottle gave me an assurance of health, which for to enty yearst had not once felt. Upon taking the second my en largement diminished, and in twelve days from the 8th of October, when I commenced taking your Sarsaparilla, I was able to enjoy sleep and rest, by night as refreshing as any I ever enjoyed when in perfect health. Besides, I was, in this short time, reflexed from all those exerciating and unalleviated pains that had afflicted my days, as well as robbed me of my night's repose. The ulcers upon my limbs are healed, the Erysipelas cured, and my size reduced nearly to my former measure.

Children suffer much, of times, from so many things being given them for worms, without any elfect. Much medicine, given to children, has a tendency to destroy their general health, and they are more or less delicate ever after.

To avoid the necessity of giving medicine unnecessarily when you are certain your children have worms give them at first Dr. Leidy's Worm Tea. It is all that is necessary.

Reference might be made to several hundred parents in Philadelphia city and county, of the efficacy of Dr. Leidy's Worm Tea. Try it and you will be convinced.
