In setting forth the virtues of this truly great medicine we have no desire to deceive those who are labouring under affliction, nor do we desire to eulogize it more than it justly deserves. Yet when we look a found and see the vast amount of suffering and distress occasioned by many of the diseases in which this medicine has proved so highly successful, we feel that we amanot urge its claims too strongly or say too much in its favor.

Such, indeed, are the

This certifies that my wite Mrs. Deem, had for nearly eleven years suffered from a serofulous cruption resembling tetter which ate deep holes in her face, neck and arms, the constant dischavge of which destroyed her health, and frequently confined her for different periods to her bed, during which time her sufferings were very great. The best medical attendance was obtained, and all the known remedies were tried with but an alleviation of her complaint, which always returned with increased malignity.—Having lost all hopes of recovery, she had almost determined to give up the use of any other medicine; she was however, by persuasaion, induced to try Oakeley's Deparative of Sursaparilla, the use of five bottles of which has removed the disease, and restored her to perfect health.
