#### GEN. JOSEPH MARKEE!

OUR NEXT GOVERNOR We take from the Harribling Intelligen-eer, the following brief narralles of the patriotic services of Gen. JOSEPH MARKLE in the last

The recent Democratic Whig State Convention ving presented to the people of this Commonrealth, the name of Gen. JOSEPH MARKLE, of Westmoreland county, as the Whig Candidate for Governor of Pennsylvania, it is meet that the public should have some account of his public services to the country. These services have been of a character so valuable and patriotic, that all that is wanting to make him the general favorite the people, is to let them know who and what he is, and what he has done to entitle himself to their regard, confidence and support.

Gen. Markle is a plain, honest, common sense Furmer of Westmoreland, to which county he removed in early life. He cultivates the soil with his own hands, and his manners, habits and prinples, recommend him to the support of the Farmers of this State. Throughout the West, where lie is known, he is universally esteemed as all honest and intelligent Pennsylvania German, of sound judgment, great experience, and enlightened views of National and State policy. We are
assured by those who know him best, that although he never had the good fortune to receive
a, collegiate deducation, he is in EVERY RE.
SPECT WELL QUALIFIED FOR THE OF.
FICE to which he has been nominated. He is
moreover a sound and consistent Whig of the
good old Republican school, a man of undoubted
integrity, and moral worth, whose character is above suspicion of reproach. He was moreover Delegates to the Convention that met in this borough in 1830, that nominated Gen. Harrison for

the Presidency. He made use of every honorable exertion for the elevation of his brave old Comnander to the Presidential office, and when that was accomplished, and the President elect was on his way to Washington to assume the duties of the distinguished Etation to which he had been called by a gruteful people, he was met by Gen. Markle in Monongahela city, in Washington county, and though many years had passed since hey had last seen each other, Gen. Hartison instantly recognized his old compatriot in arms, and embraced him with emotions of the most lively interest, while tears of joy bedewed their manly checks that had never blunched upon the buttle field.

To enter into a history of the military services f Gen. Markle, would require much more space han we have room at present to devote to this subject. We shall therefore content ourselves in this brief statement with a notice of one or two of the nore prominent incidents connected with his mil-

When war was declared in 1812, Ohio was for the most part an unbroken wilderness, densely populated with hordes of hostile savages, who were spurred on to deeds of rapine and bloodshed by their own savage natures, and the encouragement of an imprincipled civilized foc. The disgraceful surrender made by Hull on the 19th August, 1812, of the North Western army, left the whole of the frontier exposed to the incursions of the Indians and their British allies, and terror seized upon the unprotected inhabitants. The torch and the bloody tomaliawk and scalping knife of the ruththe thinly settled outposts of our enterprising western emigrants, and our whole western popuwere determined to wage upon their pale faced in Harrisburg, says of the nomination:

At this crisis, Gen. Harrison having been appointed to the command, immediately issued his celebrated 'appeal for Volunteers,' which was rended to with spirit and enthusiasm, by the citizens of western Pennsylvania. This was the summons which first called forth the energies and patriotism of Gen. Markle, "He was at this time extensively engaged in lucrative businesssuperintending his farm, an extensive paper mill, and merchant grist mill. He had, too, at the time, a young and helpless family. But all this weighed not a feather in opposition to the demands of his country. In a few days he had raised a troop of cavalry, and was on the way to the scene of action. But unexpected difficulties met him at this place. The munitions and supplies expected were not to be had.

What was now to be done? was the important question. Wait until something could be heard from the Government agents, and the supplies obhomes again? Never; their duty pointed them tonward,"-they had not their hands to the plough and would not look back. But still one or the South Carolina. ### THE LOCO FOCO CONVENTION

OPINIONS OF A SHUNK PAPER The Volunteer is very anxious to make it appear that there was much violence and irrecon able feeling in the Whig State Convention .-Although this is not the fact, let him give a fair in the loco foco Convention. We venture to any that more violent altercation, angry debate; and brawling denunciation were never heard in a Convention in Pennsylvania, than that in which the majority of the loco foco party were cheated out of the nomination of Francis R. Shunk ! Gov. Porter's whole influence was exerted to defeat his late Secretary, and every exertion of the Van Boren leaders and wire-pullers put in force to break down the voice of the majority of the party. The Harrisburg correspondent of the U. S. Gazette. thus describes the example in the organization

of the logo foco Convention: Before the Court House bell had censed ringing, Mr. Frazor of Lancaster, moved to place in the chair for temporary organization, Mr. Beatty, of Butler, (a Shunk man, Mr. Lowry, of Crawford, moved forthwith to substitute Win. F. Cop-lan, a Mullenberg man, The two motions were put simultaneously, by their movers, and both were declared agreed to. The two temporary

This was finally settled by a compromise upon the tried friend of Gen. Harrison with whom he a delegate instructed for Judge Elder. After the formed an acquintance while both were fighting organization the disputed sets of delegates came the battles of their country, and was one of the up for settlement. Of two sets from Schuylkill county, the Muhlies got theirs admitted, and thus securing them a majority they afterwards rejected both sets in every other disputed district! All this business occupied two entire days, amidst the greatest confusion and wrangling. As a last resort on Wednesday morning a Chaster county delegate seeing that the Shunk cause was hopeless moved a preamble and resolution in favor of drop-ping both Shunk and Muhlenberg and taking up as they were to the support of Joseph Riner. a third man! We call particular attention to the following extract from this gentleman's pream-

" Whereas, it must be admitted, that ist all prob ability, Pennsylvania will be the battle ground on which the Presidential issue will be decided, and that the Gubernatorial nomination by this Continuous the whole statement. That Gen. And more than this, at a large Farmer! a defeat, which would bring after it the most dis astrous results to the State and Union."

The reader can judge from the above the hope leseness which had fallen upon the spirits of the loco focos. The proposition was, however reject. ed by a vote of yeas 61, nays 70.

Mr. Muhlenberg's friends now feeling perfectly sure of his nomination, the ballotting was at last gone into, and on the fourth baltot Mr. Muhlenberg received a majority of all the votes. But less savage spread devastation and death among so gallingly did the Shunk men feel the gross in justice that had been done them, that many a curse "not loud but deep," escaped them after lation appeared to be doomed to the bloody war of this result had been effected. ## Disgraceful!

He, however, got into a right position of last, and in a vote some three weeks since nobly ranked himself or the side of Freedom and voted for the rescinding of the odlous rale. This was on the 27th of Febrnary, at which time the house decided by a vote of 106 to 86, to strike out of the new rules reported, the 23d, which was the same as the old 21st

Keep the important office of collecting thirt and pin statistics! But it seems to be even so, and here is the first report of the collector! But Mr. K. has omitted part of his duty if he has not ascertained whether the "democrats" had any shirts on at all, or not, because if shirts are to be the test of "democracy" it would be important to know! We tremble, too, for the fate of those three unlucky 'democrats' who were chught in a Mr. K. They are not to be trusted!

But the character of any Convention is best shown by its acts; let us judge the two Conventions by this standard. ROCHESTER is again redeemed from the bondage

Taoy increases her Whig, majority from 184 (last year) to 400. ITHACA has elected Whig Charter officers by 25 najority, last full 100 Van Buren majerity! Utica rives only 21 majority for the "Barn-

Burners" where they had 130 two years ago.-Next fall she will go for Clay by hundreds. The township elections are severely contested and everywhere show great Whig galas. Mondemocratic Convention wearing those gauds of roe county last full was balanced—this spring 800 Mulford & Alter aristocracy, breast pins! Braud them at once, Clay majority!! Most of the counties have not vot voted but if they go as Broome, Monroe, Steuben, Fulton, and others have already gone.

New Orleans Election.

to Our loco foco opponents are crowing most lustily over a "democratic" victory in New Orleans, by which the Whigs were beaten in an election for Senator, on the 26th ult. Well may Berlin

The New Orleans papers say that this victory was obtained by fraud and violence of the most outrageous character.

A corrupt Judge, named Elliott, granted a Middleton number of certificates of naturalization without Tiffuny & Co. uny of the requisites provided by law to qualify applicants to be naturalized. The number of ave a majority of over twenty in the House, is a certificates granted by him was about eighteen Same hundred! The number of votes cast by virtue of Beatty these fraudulent certificates may be inferred from the fact that the aggregate vote was nearly double Brie what it was at another special election held last Litle December.

In one ward where the judges of the election refused to receive these fraudulently naturalized votes, the ballot box was broken to pieces, and the Commonwealth vates scattered, and the judges compelled to leave the ground. In this way, by naturalizing eigh teen hundred foreigners not legally entitled to voter, and breaking up ballot boxes and driving off the officers of the election, has Van Burenism gained a victory! When could they not gain it by such means?

Instructs and Consumption.—It is indeed a met ancholly truth that thousands fall y letims to consumption every year, from no other cause that neglecte Colds; yet we find hundreds, may thousands, who treat such compaints with the greatest indifferent and let them run on for weeks and even months without thinking of the danger. At first you eateh a slight cough or cold, you allow business, pleasure or carrieganess to prevent you from giving it any attention; it, then settles upon your breakt you become hearse, have pains in the side or chest, expectorate large quantities of matter, perhaps tolked with bloods a difficulty of breaking ensues, and then you find your own todish, neglect has, brought and this complaints. Tax Pathonnian's Stone—In other words a panacea for all discases—was diligently sought for, but never found, by the old alchemiat. In these modern days, however, one medicine has been invented which his specific for all least a dozen discases. We mean sayine's Tonic Vermitting, which is excitified by ment of the highest standing in accrety to be a specify cure for worms, intermittent fereity dyspepsis, piles, dysentery, acidity of the atomach, and all other complaints affecting the stomach and bowels. Its stomachie, as well as alterative qualities, are highly banefail in all cases, where discase is accompanied by a partial prostration of the bodily powers. While it removes obstruction, it imparts tone and vigor to the digestive functions.

LIPE AND HEALTH BEFORE EVERYTHING .- Thi INFE AND HEALTH BEFORE EVERTHING.—This maxim cannot be disputed. There would be no enjoyinent in this world without health, and nothing should be left undone to preserve it. Slight Colds are the origin of more fatal discases and death than all other complaints combined in the United States. A poculiarity of climate which attacks the lungs with fatal certainty, unless attended to in time, causes a cough and then terminates in consumption. No excuse can be offered for allowing these attacks to germinate in the system. PEASE & SON'S Clarified Essence of Hoarhound Candy is a certain cure for any old if used in the commencement. In this restate the grand secret, and should not be forgotten.— It is put up in handy and portable packages, and can be carried in the pocket, whether at home or
