Red Ochre & Ploughs, FILE Subscriber having obtained the FIG. Subscriber having obtained the right for Cumberland county, of the ATTHERNOY PREMIUM PLOUGH, is now manufacturing these and other ploughs which he has now for sale, at Cumberland Furnace. He designs by the first or middle of March next, to distribute a number of them through the different towns, and to other public places of the county, where farmers can judge of their excellence. The prices will be low, in accordance with the times.

THE RED COME

he also designs to put a supply of, in many of the public places, in and ont of the County. A trial of its quality, will cost but little. Like all other paints it does best with flax seed oil; but for weather beaten it does best with flax seed oil; but for weather beaten timber, or bruck it amswers very well with fish oil, milk, or even water. It adheres more closely than lime, or any other paint. Several gates, See, in the neighborhood have been painted flora year past; some with milk, others with water, and are now as bright as when it was first put you. In either way it is t, great preservative of timber possessing great tenacity.

Dr. Steelling's Pulmonary Syrup, Contains the most extraordinary curative. properties for Coughs, Colds, Consumption, Asthma, Spitting Blood, Croops, Measles, Hourseness, Difficulty Breathing, Pains in the Breast, Side, and all Discases of the Pulmonary

Organs. 1 THIS remedy has been used, and its astonishing curative qualities testified to by many of the most respectable citizens of the United States. We do not--only efficient glaim, as does the BRAZEN FACED QUACK, infailibility for our mediciness but having tested the medicinal qualities of the "Pulmonary Syrup?" in an extensive and varied medical practice for many years, with remarkable success, we unhesitatingly pronouncer it due of the very best Panaceas in the world for Pulmonary Discusses. A single trial will thoroughly satisfy any one that it is not one of the common Quack Nostreums of the day---but that it is a medicine of real value, worthy to be in every family. Its unprecedented low price is another strong recommendation, while other Cough or Pulmonary Medicines are selling for \$1.00 and more, STILLING'S PULMON-ARY SYRUP, sells for only 50 ets, per battle.

DR. RUSH'S INFALLIBLE HALTH PILLS. TWELVE AND A-HALF CENTS A BOX.

The proprietor of this invaluable legacy of a great man, has for some time failed to present them to the public it an advertisement. The reason is a plain one. So much has their use given satisfaction, and so strongly have they been recommended to one another, that it has been unterly impossible to supply the demand, both here and for country agents. During the present month, more than two hundred gross or nearly THRTY THOUSAND BOXES, have been sold in this city and vicinity, and supplied to Agents throughout the United States, and many orders have been on hand weeks before they could be filled. In fact it needs not the spirit of prophecy to forestell the day when the only Pill in use will be that invented by the immortal Dr. Benjamin Rush, the greatest physician America ever saw.

THE HEALTH PILLS have cured, were cure seemed well nigh impossible; they have restored to perfect health hundreds who had long languished on beds of pain; they have operated like a charm, when all other medicines failed even to afford relief, they have given comfort to the affected, and hope to the desparing; they have removed the ills of the yons g and given back youth to the aged. Indeed, they seem to possess the properties ascribed by the alchymists of former days to that Exixia, that Sovergies Bald, that conquerer of infirmities, to discover which, they nassed lone days and weary nights of TWELVE AND A-HALF CENTS A BOX.

Ninetech years ago last April a fit of sickness left me with an early sipelus cruption. Proposed collections immediately took place over the entire surface of my body, causing such an enlargement that it was necessary to add a half yard to the size of my dresdis. Any person applying for insurance must give his premium note for the cheapers at the rate of fave per entum, which will be \$50 on the \$1000, for which he will have to pay \$2,50 for five years, both and \$1,50 for sirvey and policy, and an more is less be sustrimed to a greater amount than the funds on bends will cover, and then no more will be required than a pro-rata share. These rates are much cheaper than those of other companies, except such as are incorporated on the same principles.

Insurance is effected in the following manner. A presson applying for insurance for property of the cheapers class of risk for \$1000 will be cheaped \$5 per cent for five years, a note amounting to \$50 must he given by him, on which he will be required to pay and will have no more required of him unless losses occur and the funds on hands are not sufficient to meet them.

Agents will be appointed as soon as possible in different places to attend to insurances, and any persons wishing immediately to apply can do so by signifying their wish to the officers of the company.
