Wednesday, October 23, 1844.

The Young Men's Convention in Rochester, New York, was probably the largest gathering ever seen in this country.—The New York Tribune estimates the number at not less than 100,000 persons! New York is safe for Clay by 20,000 majority.

VIRGINIA.—The accounts from every quarter of Virginia, says the Richmond Whig, are first rate. Guard what you call the "Citadel," gentlemen Locos!—We know the State better than any man in it, and we promise you that we expect to drub you.

POPULAR VOTE IN INDIANA.—The South Bend Free Press, a reliable paper, says published in Indiana, or elsewhere, has compiled with much care a table of the votes cast in Indiana at the recent election, showing the majorities given in each county, where there were opposing candidates. The Whig majority in these counties is ascertained to be 2,965, and the "anti Whig gain since last year 3,102. Making a liberal allowance for the counties (Democratic and Whig) in which there no opposing candidates, the Press sets down the Whig majority of the popular vote at the recent election as over 2000.

A SINGLE VOTE.

We have all some time or other realized the importance of a single vote. The following instances have fallen under our notice.

ONE vote in the city of New York, gave the Republican members in the Assembly, which made a majority in the Legislature of that State, for Thomas Jefferson, and gave him the vote of New York, without which he could not have been elected. The policy of the United States during the Jefferson and Madison administrations, a period of sixteen years, hung on that *one* vote.

ONE vote elected Marcus Morton Governor of Massachusetts in an aggregate popular vote of nearly 100,000.

ONE vote elected William Allen in the Chillicothe district to Congress in 1834, and *one vote* subsequently made him United States Senator for six years afterwards.

ONE vote elected Mr. White to Congress from Vermont in 1822, and a member was also chosen from New Jersey in 1824 by a single vote, in a canvass where about 6,000 were polled.

The following case of the kind is still more remarkable:

In 1830 Dan. Stone, of this city, was a candidate for the State Legislature. Walking up Main street on the morning of the election, he overtook an acquaintance going to the polls, who intended to vote the opposite ticket. Stone solicited his vote.—"We are old friends," said he, "and I know you will show a friend that mark of kindness." Party spirit was then comparatively quiet. The voter replied, "Well Dan, your a pretty clever fellow—I don't if I do." That vote elected Stone, and gave a majority of one in the Legislature, which made Thomas Ewing United States Senator. Mr. Ewing's vote on the question of continuing the appointment of Martin Van Burin as Minister Plenipotentiary to England, enabled the Vice President to give the casting vote against it, and recalled Mr. Van Buren home. It enthroned Mr. Van Buren first Vice President, and then President, and determined the general policy of the country for four years.

One vote accomplished all this.

One vote gave James J. Fisher a seat in the Legislature, and made him subsequently Senator, and may possibly result in sending him to Congress as Representative from the Hamilton County District.

We have always been impressed with the great importance of attending the polls and exercising one of the most glorious rights of a *freeman*, the right of suffrage. The above named cases show what *a single vote* did, and what great results might have been effected by an opposite one. What Whig in view of the momentous necessity for *all* to vote will quietly remain at home on election day, when duty, patriotism, and the country's welfare call upon every one to appear promptly at the polls?

The Democratic paper at Pittsburg, in its issue of the 14th inst. has the following heading to a column of its paper:
