

E. BEATTY, EDITOR AND PROPRIETOR. CARLISLE, PA. WEDNESDAY, July 30, 1845.

Mr. R. Hall, of Indiana, has actually performed a lecturing tour on anti-slavery, through eight counties in Virginia.

Commander Frederick Engle has been appointed commander of the United States steamer Princeton in place of Capt. Stockton, who will remain at home to attend to the repairs and alterations of the U. S. frigate Constellation.

Part VI of Dr. Lardner's Lectures on Science and Art, published by Greely & McClrath, of New York, is our table.

A writer in the National Intelligencer, in speaking of the alarming prevalence of intemperance in Virginia, notices the noble stand taken by Gov. McDowell, the present Executive of the State, on the side of temperance, in strong terms of approbation.

It will be seen by the following from the Baltimore Patriot of Thursday afternoon last, that the administration has commenced an attack upon the Tariff.

A Washington correspondent of the Daily Chronicle says: "Do not be surprised to hear of the re-estabishment of the Globe. If the Democratic members of Congress cannot, as is very probable, agree on Rights for public printing, they will give it to Blair and Rives, and they will set up the Globe on its axis."

Professor Morse, says the Washington Union, is about to sail for Europe in August, but he will return in time for the session of Congress.

It is estimated that, in America, three hundred thousand drunkards have been reformed, and that more than five hundred thousand occasional and confirmed drinkers have forsaken their cups, since the commencement of the Temperance reform.

A large majority of the best wines drank in this country, are manufactured in New Jersey. The claret particularly, is made by men who know a thing or two about wine.

The Holcomb's Grove Affair. We have been pelted the Volunteer into a notice of something which has lately transpired amongst the democracy, the Captain does not say exactly what it is, he does not once mention the 4th of July, or Holcomb's Grove, or Mr. Graham's speech, or Judge Stearn's humorous expostulations, but something or other which it seems he dares not speak boldly out upon, more than to assert that the main part of the story is a sheer fabrication.

But it is rather too severe a stretch of the truth in the Captain to say, that the main part of the story is a sheer fabrication. The Captain knows that our statement of the loco foco quarrel on the 4th is strictly true.

The administration at Washington is evidently not getting along smoothly. A late number of the Union, the official organ, admits Mr. Polk's failure to buy up friends by means of the government patronage.

The Tariff. The letter of R. J. Walker, to the editor of the Mississippi, in which he says, THE TARIFF MUST BE REDUCED, will open the eyes of many a hitherto blind, though honest supporter of the Federal Locofoco party.

CONVICTION AND SENTENCE OF GREEN, Henry G. Green, who has been on trial at Troy, New York, for a fortnight past, for the murder of his wife, was on Saturday afternoon, found guilty by the jury, and sentenced by the Court to be hanged on Wednesday the 10th of September.

GRAVE FEAT AT CHADLING. The greatest feat of Cradling we have ever seen chronicled this season, says the Charleston Free Press, was done by Mr. W. Benson, of Beaver Run, Hampshire county, Va.

Feeling the Party Pulse. Our readers will have seen, says the Baltimore Patriot, that our Washington correspondent, Potomac, has insisted that Mr. Polk was looking to re-election.

There is, however, one result which must follow any dissections between the supposed Calhoun and Van Buren wings of the party. The people—the patriots—will fly to the constant side, and, as they all may, once more under the banner of James K. Polk.

I know Col. Polk has said that he would not be a candidate for re-election, and I know that he voted, while in the House of Representatives, to limit the services of the President to a single term of six years.

The course of these eminent men has never been censured, and if Col. Polk follows in their footsteps, he will enjoy the plaudits that followed them.

ONIONS CAPTURED. GREAT EXCITEMENT.—On the evening of the 9th, says the Cincinnati Gazette, three men from Ohio, Mr. C. Lorraine, Mr. Garner, and Mr. Thomas, all of Washington county, were seized on the Ohio shore by a body of men from Virginia, and lodged in a jail at Parkersburg.

THE POTATO BRIGHT.—The Massachusetts Spy has the following notice of the appearance again of the potato blight.

FRIVOLITY OF POSTMASTERS.—The following extract from a letter from the office of the Postmaster General, under date of July 12th, is furnished by the New York Tribune.

FLORIN IN BALTIMORE. At \$4.37 to \$4.40. When at a Dollar to 95 for white.

Letters from A. P. Willis. Our Working Classes in England.—The following graphic picture of the misery and degradation of the working classes in England is extracted from Willis' first letter to the New York Mirror, dated from Liverpool.

Another contrast strikes, probably, all Americans on first landing—that of female dress. The entire absence of the ornaments of any thing except decent covering for all classes below the wealthy, in particular English and particularly un-American.

My second letter from Mr. Willis gives the following notice of an American girl who is making a sensation in London society.

I made a couple of calls before I went home. The chief topic of conversation at both houses was the charms and eccentricities of an American belle who has lately married into a noble family.

The New York Daily Evening Mirror and the weekly Mirror, will contain these letters, which promise to be the most interesting series that ever Mr. Willis has written.

IT is very evident, says the Zancovio (Ohio) Gazette, that the elements of discord are rife among the loco foco party, and that sooner or later they will break out in open strife.

M. Dugre is said to have made a discovery almost as wonderful as that which his name has been given. It consists of a process by which he can give to a young tree in three months the same development as in a state of nature requiring many years.

Flour in Baltimore at \$4.37 to \$4.40. When at a Dollar to 95 for white.

For the Herald and Expositor. My First Vote.—Mr. Beatty, having arrived at the age when I may enjoy the great right of freemen, that of voting, I found it necessary to examine for myself into the principles and practices of the two great political parties, in order that I might decide which I should attach myself to.

My first inclination was to join the locofoco party; but I could occasionally hear from strong partisans, some things I did not like.

The account of Edward Bard Administrator of Allan Bard late of Shippensburg township, deceased.

DIAMOND POINTED PENS. A very valuable article for pens is generally used, together with many other articles in his line of business unnecessary to mention.

NOTICE. Application is hereby given, that application will be made by the undersigned and others, to the next Legislature of the Commonwealth of Pennsylvania.
