Important!---to Ourself! We wish to impress it with all possible force upon the recollections of a considerable number of our patrons that the third year of the Harald and Expositor," since it has been under our charge will expire on the 10th of September, next. The persons whom we wish most distinctly to remember this, are those who are in arrearages for all that time.. Now, gentlemen, this is rather too long a credit to extort from a printer, as we doubt not you will readily admit. We must have the money, and we trust that all who know themselves indebted to this amount, will " fork over " forthwith. The approaching term of Court will furnish an opportunity to many of our friends, who are in arrearages for lesser amounts, also, to "call at the Captain's office and settle, has they say of the steambeats. Do not neglect it, kind friends.

Carlide Iron Works. We are informed that at the sale of these works which was advertised for the 19th inst., the property was sid up to \$81,000, after which the bidding was stopped and the sale postponed

to the let of October next.

We hear it rumored, and presume it is true, that Capt. Sanderson has disposed of the 'Volun teer' to Messrs. Bratton & Boyer, of Harrisburg. It tears our heart strings to part with the Captain, who, we can't help thinking, in a great fool in descending from the dignity of the editorial tripod to go into the petty business of keeping a Post Office! We cordially welcome his successors into the corns editorial of Carlisle, and would congrat. ulate them, too, if we could do so in strict compliance with the truth. But the truth is, loco foca aspirants to popular favor have but a small chance now in Cumberland county-the times "aint as they used to was"-some years years ago old Mother Cumberland used to turn up her six or seven hundred loco foco majority, " just as easy as rollin' off a log' -but those times have gone by -the spirit of "old Billy Ramsey" would be poworless to produce such a result now. The scenthe Whigs mean to have things their own way, in spite of the new Court House, John Irwin's residence in Wormleysburg, and every other in-Mesers. Bratton & Boyer, but these are facts they ought to be acquainted with. We bid the Cap-Main an affectionate good-bye, and cordially greet is successors.

## Distressing Accident.

We learn that the boiler of a steam Distillery, owned by Abraham Haldeman, about two miles from Shiremanetown in this county, explod: ed with terrible force on Friday evening last .-Besides the injury done to the machinery, we are pained to learn that the owner and the two men who were in the building with him, were so severely scalded, that one of them named Tobics Shireman, died the next morning. The others still survived at our last accounts.

We are glad to see by the last number of the 'Union Star,' that that establishment has been purchased by our friend Jos. S. Casey, Esq., formerly of Bloomfield, but who lately removed to to New Berlin, Union County, Pa. Mr. Casey introduces himself to the public in a well written address, in which he maintains the truth and nocossity of whig principles with a force and spirit. in the true political faith. - We wish him happiness and prosperity in his new career.

As many of our citizons have been deferred from making pleasure excursions to Papertown and vicinity on account of the rumored prevalence of a malignant discuse almilar to the Black Tongue, we are requested to state that the facts c have been greatly exaggerated in relation to this Lunatic Asylum, at Lexington, for insanity .disease. But one or two cases have really occur. The indisposition which affected Mr. Clay was red, and these some wooks since; there is now no temperary the entirely recovered in a few days, trace of the disease left, and the public liave no and is perfectly restored to health. tracasen to apprehend any danger.

Decidedly the most splendid Agricultural jour ul ever issued from the American press, is the Farmer's Library and Monthly Journal of Agriculture," published by Messrs. Greely and McElrath, of New York, the first number of which has just appeared. These enterprising publishers have laid the Agricultural community under a weight of obligation, in securing to American renders so valuable a periodical. They deserve rich reward, which for the credit of the agricultural public we hope they will receive. The Journal is under the editorial charge of John S. Skin-NER, Esq. one of the ablest journalists in the country, and the first editor of the American Farmer, vhich was the first paper of that kind ever started is the United States.

The number before us is embellished with a splendid engraving on steel of the late Gen. Van Rensselear, of New York, a distinguished friend of Agricultural improvement, which is accompar ied by a biography of that gentlemen. Besides this there are several plates of South Down Sheep, and agricultural productions. The reading matter in this number is made up of a large portion of a large portion of Petzholt's Lectures on Agricultural chemistry, to which is added a great tre has departed from locofocoism here-last fall variety of articles valuable to the Farmer, from the pen of the Editor and others. We wish this work were in the hands of every intelligent Far. lars a year in advance, and at will make in a year two royal octavo volumes of six hundred pages each. Those who desire to see it are requested to call on us; and should they conclude to subscribe for the work, we will act as egents in sending on their names and money to the publishment of Jonathan Holmes and of James Hamilton, ers. fluence.
