A GREAT SAVING MACHINE,

AND NO MISTAKE. — ECONOMY THE ORDER OF THE DAY! MILLER'S PATENT, for cutting and grinding or crushing Corn Fodder, which entirely obviates all the objections here-tofore made for cutting and grinding or crushing Corn Fodder, &c. The subscribers have will be rented from this date until the arst day of April, 1846, on reasonable terms. Aprily to the satisfaction of announcing to the agricultural community, that they have purchased the right of manufacturing and veiding the showe mentioned machine in Camberland county; and also that it is in successful operation at York, Pa. Every difficulty to its perfect execution having been fully surmounted, they feel warranted in stating that it is the most economical and excellent invention of the day for the purpose to which it is designed. For durability and power it has no good in the terms. and power it has no equal in the many mu-chines presented to the public for the sume ob-ject; and all scientific men, machinists, nuchanics and farmers, who examined or tested it igs and farmers, who examined of tesfed it, give their verdict in its favor. Its superiority consists in this, that it may be used by steam, horse, water or hand power, that it is mote easily kept in order, and it performs its cutting affid crushing by the same operation and does the work in a perfect manner. It is a great saving muchine both in lodder and labor, as by the operation of it the farmer can make good feed of the whole cornstock from its root to its top, as it cuts and grinds or crushes the stock toon as it cuts and grinds or crushes the stock so fine that harses, cattle, or sheep, consume the whole of it; consequently, it enables the farmer to feed five head of horses, cattle or sheep, to one with the same quantity of fodder, and makes better and stronger feep. With this machine one man can cut corn fodder sufficient to feed ten head of ca,tle in twenty minutes, and when attatched to horse power can cut or grind and crush in fifteen minutes sufficient to feed, fifty head of cattle. For cutting hay or srtnw there

ing can equal to it. For its simplicity

Lessons in Instrumental Music, by

Prof. E. L. Walker, for an extra charge 12,00 The Tultion will be required quarterly and the price of Board monthly in advance, and no deduction made for absonce but in case of sick-

ness. To the boarding schoons, the use of sick-ness. To the boarding schoons, the use of a vesy, excellent plane is furnished without charge-andiar angements have also been thade for fur-nishing two or three additional infarders with he gratuitous use of text books, if desired. The next quarter of this School opens with The next quarter of this School opens with the first day of January next, and being among those who have had daughters in the school during the last year, we avail earselves of this means of expressing to the public, and especial. By the dittiens of this and the adjoining counties, our full conviction that advantages of a very high order are here afforded for the oducation of Misses and young ladies, such indeed, as are scoreely excelled in the country. The intellectual training given is systematic and thorough, while the mannors and morals of the pupils are most exrefully watched over! of the pupils are most carefully watched over;
From personal observation and knowledge,
we feel entirely confident, in recommending this
school to all such as would secure a suitable

place for educating their daughters.
M. CALDWELL.

CHRISTIES GALVANIC RINGS. universal approbation of the Medical profession of Great Britain, and has now been suf resson of Great Britain, and has now been suf-ficiently long before the American public to give a fair test of its power and efficacy. The Patent Galvanic Rings have been found to an-awer all the purposes for which the ordinary Galvanic Battary, of Electric and Magnetic machines are used, but are without any of the injurious specks which accompany the appli-

fect success in all cases of theumatism, equinor chronic, applying to the head, face or lithts; Gout, The Doloreux, or Touth ache, Bronshitis, Veotigo, Nervous or Slek Headache, Indigeation, Paralysis, Palsey, Epilipsey, Fits, Cramp, Palpitation of the Heart, Apoplexy, Stiffness of Joints Lumbago, Spinal Complaints, Neuralgia, General Debility, Deficient of Nervous Energy, and all Nervous Disorders. Their extraordinary effect upon the system must be witnessed to be believed, and as a certain preventive for to be believed, and as a certain preventive for the preceding complaints, they are equally to be recommended.

The Galvanio Bands, Eracelets, &c. In some complete of a very severe character and of long standing, the power obtained the progress of disease and ultimately restora-health. The improved medification in the Gul-vanio Belts, Bonds, Bracelets, &c., entirely ran. vanio Belis, Bauls, Bracelets, Sc., entirely rim-celles this objection; any dogree of power that is recovered can ousily be obtained, and no dis-ense which the mysterious agent of Galvaniem can effect, will fail to be permanently relieved. The Rings, &c. are of different prices, being made of all sizes, and of various ornamental putterns, and can be worn by the most delicate femple without the high test inconvenience.

CIRISTIE'S MAGNETIC FLUID is n necessary accompaniment in all cases in which the Calvanie Rings and their modifications are used. By means of this extraordinary com-position, an efficient action is rendered certain, and the Galvanie influence directed to the an ticular parts which are affected of The FLUID contains nothing capable of the allghtest injury: its application is agreeable and it is an hatmless in its action as it is beneficial in its results. Conficates from physicians and others of the highest character and respectability, bearing the strongest witness of the extraordinary effects of these articles, are constantly acous-

ulating, some of which may be seen by calling on the agent in Carlisle.
In order to guard against fraud, Dr.CRISTIE

Cabinet Makina.
